A Farm within the reach of every Man.
THE RIDGWAY FARM COMPANY has has made arrangements by which a

who desire to settle or purchase a home can do so.

The Farms consist of the best limestong sail of the most superior quality for farming, in a rapidly improving pisce, into which an extensive emigration is now pouring. The property is located in Elk County, Pennytvania, in the midst of a thriving population of some 10,000. The climate is perfectly healthy, and the terrible plaque of the west fever is unknown. It she has an abundance of the best quality of Coal and Iron. The price to buy it out is from \$3 to \$20 per acre, payable by installments, to be located at the time of purchasing, or a share of twenty-five acres entitling to locate the same for \$300, payable \$6 per month or 12\(\frac{1}{2}\) acres payable \$40 per month. Discount for every sum of \$100 and under, paid in advance, and for over \$100 and sin ount of 10 per cent.

In considering the advantages of emigrating to this locality the following are presented:

First—The soil is a rich innectione, capable of raising the heaviest crops, owing to, which this settlement has obtained its present great prosperity.

prospectay.

Skoon—It is the centre of the great North West Coal Bairs, and is destined soon to become one of the greatest business; laces in the State. It will supply the great Lake market, (according to the population and travef the greatest in the Union.) It has five workable veins of the best Bituminous coal, amounting in the aggregate to over 22 feet, which makes 22,000 tons of coal under each scre. This will make the land of inestimable value. The eminent geologist Dr. Chas. T. Jackson of Boston, has snade a geological survey of the land, and analysed the coal, the iron ore and limestone. This report together with maps will be furnished to inquirers.

Fourns—Three Railroads are leid out throthis property. The Sunbury and Eric Railroad gives us a market for, our coal to the lakes—it runs from Eric to Philadelphis. A large part of the Road has been finished, and is now in running order. A heavy force is now working, from Eric towards our land in the western direction, the means for the completion of which has been rai-ed, it will soon be finished. The Allegheny Valley 'Railroad connects as with New York, Boston and Pittsburg. The Venange Road connects us with the West.

There are already good Turnpiko Roads running through this property, various other roads have been opened to accommodate the emigration and settlement which has already taken place.

There is no opportunity equal to it now offered to the man who wants to provide himself a home in an easy way, and make a settlement where he can live in prosperity and independence in a climate Perfectly Healthy.

No case of fever ever having beey known to occur in this settlement. It is not like going to the backwoods of the West, smong perhaps intolerant people, where there is no society, churches, or schools, where the price of lands is high, and where the emigrant, after being used to the healthtest climate in the world, has to erdure sickness and pain, and perhaps roins his health and that of his family. But here is a cash market at hand. The lumber trade

During twenty years' practices, I have restored to health over seventien thousand patients, who were suffering under the worst forms of all of the above mentioned diseases, which guarantees nie in promising a perfect and most speedy cure. Secret diseases are the greatest enemies to health and happiness, as they are the first cause of consumption, scrofula, &c., and should be a terror to all nations on the earth, for the disease is becoming so common, and treatment so little understood, that a permanent cure is scarcely ever effected, as a majority of the cases fall into the hands of incompetent persons, who, not only fail to cure the malady, but ruin the consettution with corrosive sublimate—a daugerous poison, a preparation cases felt into the hands of incompetent persons, who not only fail to cure the malady, but ruin the constitution with corrosive sublimate—a dangerous poison, a preparation of mercury—which, with the remains of disease in the system, produces many of the above named affections, which finally terminate in consumption, and frequently a rapid one; but should it not cause death speedsly, and the victim to disease marries, the disease is then conveyed from the patient to the children, causing them to come have the word with serofula, affections of the skin, eyes, throat, &c., and again terminates in consumption, and consigns his victim to an untimely grave, between the ages of six months and thirty-five years. Self-abone is smother formidable enemy to health; it destroys the nervous system, rapidly wasting away the energies of life, causing mental derangement, préventing a proper development of the system, and disqualifying its victom for marriage, society, business, and all earthly happiness. Office, 70 Well Street.

A Perfect Security against all momer of Fraud or counterfeiting on paper.
To prevent Photographs and Anastatic Counterfeits, Brasures, Transfers or Atterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the new Chemical Paper in America, invented and patented in England by Henry Glynn, a celebrated chemist and officer in the British army, it is kardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the United States Mint, Mr. Lyman of the New York Clearing House, and Moade Brothers, extensive and skilful photographets, 233 Broadway, New York. The latter say that no imitation cas by made on a check or bank note printed ox the Safety Paper. Below is our list of prices

Bank Checke—35 cts per th.

Bank Bills—\$18 for 1000 sheets.
Promissory Notes—40 cts. per ib.
Sight & Time Drafts—\$25 for 1000 sheets.
Insurance Policies—40 ets. per ib.
Bank and Stete Stocks—40 ets. per lb.
Bank and Stete Stocks—40 ets. per lb.
Wills and Deeds—40 ets. per lb.
For wrapping Silks and other fine articles it is excellent, as it prevents moins. 40 cents

For Indentures and Agreements. 40 cents per lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevent erasure or transfer, but make it lasting as time.

For Southern Climates it is excellent, and For Southern Climates it is excellent, and much so erior to any other; as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the southern states, Cobs, the West Indies and the Central American States, no public recogsis can be kept over 20 years, written on the ordinary paper, while the oils and chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all olders for paper at the shortest notice.

All orders for the paper must be addressed to A. NICHOLAS, President of the Company, No 70 Wall Street, New York.

in Starch-making, and is realized now for the first time.

The very best starch that can be made, and no other, is always warted by consumers, and while this will be supplied to them by the grocers, as soon as their customers have learned which is the best, and ask for it— otherwise they would be likely to get that article on which the largest profit can be made.

made.

Mr. Kingsford has been engaged in the manufacture of starch continuously for the last 27 years, and during the whole of the period, the starch made under his supervision has been, beyond my question, the best in the market. For the first 17 years, he had the charge of the works of Win. Colgate & Co., at which period he invented the process of the manufacture of corn starch.

T. KINGSFORD & SON'S

OSWEGO CORN STARCH,

(For Puddings, &c.)

Has obtained an equal celebrity with their Starch for the Laundry. This article is perfectly pure, and is, in every respect, equal to the best Bermuia Arrow-Root, besides having additional qualities which render it invaluable for the dessert.

Potato Starch has been extensively packed and sold as Corn Starch, and has given false impressions to many, as to the real merits of our Corn Starch.

From its great delicacy and nurity, it is

our Corn Starch.

From its great delicacy and purity, at is coming also into extensive use as a diet for infants and invalids.
