A Farm within the reach of every Man.

THE RIDGWAY FARM COMPANY has has made arrangements by which all who desire to settle or purchase a home can do so.

who desire to settle or purchase a home can do so.

The Farms consist of the less timestoug soil of the most superor quality for farming, in a rapidly improving place, into which an extensive emigration is now pouring. The property is located in Elk County, Pennsylvania, in the midst of a thriving population of some 30,000. The climate is perfectly healthy, and the terrible plague of the west fever is unknown. It also has an abundance of the best quality of Coal and Iron. The of the best quality of Coal and Iron. The price to buy it out is from \$3 to \$20 per acre,

In considering the advantages of emigratics this locality the following are presented: of raising the heaviest crops, owing to which this settlement has obtained its present great

SECOND-It is the centre of the great North Necon—It is the centre of the great North West Coal Basir, and is destined soon to become one of the greatest business | laces in the State. It will supply the great Lake market, (according to the population and trivef the greatest in the Union.)—It has five workable veins of the best Bituminous coal, amounting in the aggregate to over 22 feet, which makes 22,000 tons of coal under each acre. This will make the lard of inestimable value. The eminent geologist Dr. Chas. T. Jackson of Boston, has made a geoigetical survey of the land, and analysed the coal, the iton ore and limestone. This report together with maps will be furnished to inquirers.

There is no opportunity equal to it now offered to the man who wants to provide himself a home in an easy way, and make a settlement where he can live in prosperity and independence in a climate Perfectly Healthy.

No case of fever ever having been known to occur in this settlement. It is not like going to the backwoods of the West, smong perhaps intolerant people, where there is no society, churches, or schools, where the price of land is high, and where the emigraut, after being used to the lealthest climate in the world, has to endure eickness and pain, and perhaps ruins his health and that of his family. But here is a thriving settlement having three towns, containing churches, schools, hotels, stores, sawmilis, grist mills, and everything desired. There is a tash market at hand. The lumber trade last year omeuned to over two hundred million feet of lumber. In a short time, owing to the coal, it will become still more valuable as a narrolate of iron works, and manufactories with coal, it will become still more valuable as a number of iron works and manufactories will number of iron works and manufactories will soon be started; they are at present starting them extensively at Warren. Even for those who do not wish to go there, the payments are such that they can easily buy a farm to save their rising families from want in the future, or to gain a competence by the rise which will take place in the value of lands. By an outlay scarcely missed, a substantial provision can be made.
