Representative Conference.

In this new Representative district Sullivan county held the first Democratic Con-vention and fixed the 4th of September as vention and nives the 4n of September as the time for holding the Representative Con-ference at Bloomsburg. This was in accord-ance with the rule in our old district, and al-so with that heretofore observed in Sullivan and Wyoming. It has been the custom to hold the conference soon after the last conthis has always brought the Representative conference earlier than the Senatorial and conference earlier than the Senatorial and Congressional ones. We are sorry therefore to see that the Montour convention recently, without assigning any reason, attempted to reverse the rule and postpone the Representative conference behind the Senatorial and Congressional ones. The attempt is in bad spirit, as no reason is assigned or can be given for it, and as a fraternal and not a stubborn feeling should be manifested in the conferences of neighboring counties. It is a bad beginning for our new district, and every person will feel inclined to ask what motive could have caused this disagreement.

If the time can make no difference in results, why produce disagreement and reverse the rule of the party and of reason? If the Representative conference is not removed be-yond the time of Congressional and Senato-rial Conferences to effect them, why so re-move it? There must be a motive. But men who aspire to high places ought not to men who aspire to high places ought not to go out of the way to offer reasonable grounds for the suspicion of designed intrigue. A nomination ought to be not only fair, but beyond the taint or suspicion of corruption. To prove how the rule has been in this district, we give the following items from the records during the past seven years. In 1850 John McReynolds was nominated for Assembly, or the 7th of Southern by

or Assembly on the 7th of September. In 1851 24 Lackson was nominated by the Representative conference on the 3d of

In 1853 the Representative Conference

In 1854 the Representative Conference
was held on the 8th of September, and the

Here then the unbroken rule is to hold the Representative Conference first, and early Ma in September—once indeed in August. It was known in Montour that Sullivan had has known in Montour that Sunivan had fixed a time in accordance with this rule, and it were always better that Conferees should meet as soon after their appointment as is practicable. That prevents all attempts at improper interference and leaves a nomination free from all suspicion of intrigue. in chambo Snyder County, and

It is bad enough when counties have troubles with-in themselves, but much worse when they disagree with one another, without any ex-ques, and cause uncalled for difficulties, as Montour has lately done with Sullivan.

For member Mr. Ent is re-nominated an his votes last winter fully justified the zeal-ous support we gave to his election. The trial he has had proved the character of the nan, and men are certain what sort of can

man, and men are certain what sort of can-didate they have in him.

For Prothonotary, Mr. Eyerly, whom ev-erybody knows, is re-nominated. This was entirely upon his merits as an officer, for his entirely upon his merits as an officer, for his long tenure of office, was urged strongly against him. But his experience in office made this charge operate more in his favor than against him. He will be as easily elect-ed as he was nominated, for people feel that it is a matter of much importance to have the duties of an office well attended to. Daniel Lee was unanimously re-nomina ted for Register and Recorder; and as ever

tice, he will most likely have no competitor at the polls.

For Commissioner, Mr. Dieterick is socially a clover man, and his father served as Commissioner some years ago. Politically he has repeatedly opposed Democratic nominations, soling in 1853 for a volunteer, who was last fall the Know Nothing elector in this district, and in 1854 for the K. N. Volunteers. teers. But as the convention seems to absolve him for these things, and pronounced him more meritorious than any of 2,000 true
Democrats of the county who have regularly
supported nominations, we are too good a
Democrat to set up our private opinion against the decree of the perty, and we cally hope that when he is elected his public course will justify the partiality of the convention. No man has a right to expect that every nomination shall every year please his personal de sire, and if the party has forgiven Mr. Dieter ick we ought certainly to contribute our small share of pardon which we can well do; especially as we should be very much ashamed to act in the spirit be did in 1855, when he secretly distributed tic kets for the Know Noth-

secretly distributed tickets for the Koow Nothings with our name for county Auditor, and being told we were not a candidate he answered, "I know, but we run him for spite." We shall act in no spiti of "spite" or malicoward him; and we have no doubt he is in moments of cool mind as much ashamed that he has done so, as we would be to follow so had an example. If the Opposition nominate a competitor, he is likely to be self. mate a competitor, he is likely to be still more objectionable, and as we are well con

tent with all the rest of the ticket we are as well off as any member of a party can be. James S. M'Ninch is well qualified for Treasurer. He was for some years a steady clerk in the store of M'Kelvy & Co., and to this day enjoys their generous confidence for integrity and business capacity. He is now a partner in the large paper mill at Catawis a pariner in the targe paper min at Calavas-sa, and though comparatively young he has many friends among those who know him best.

John R. Yohe was nominated by such a

large vote that it is certain he has personal friends. The whole Yohe family, we believe, are Democrats and John is among the most active of them.

There is a growing disposition manifested by the Democracy of this State to limit legislathe Democracy of this State to limit registar-tive action to its proper and constitutional sphere, and not to allow the State to be made a pack-horse, upon whose back can be pla-ced the responsibility of every scheme inced the responsibility of every scheme in-vented by parties to enrich themselves. This principle is also about being entended to Counties and Corporations. This is right and proper, and in so far as the resolutions of our friends in Allegheny county will aid in these important reforms they are worthy of all commendation. We are opposed to all ideas of repudiation, but at the same time the taxpayers have an undoubted right to see that they are not burthened with taxes for schemes they are not burthened with taxes for schemes of improvements, the granting of assistance to, which is not among those powers that can be rightfully for legally exercised by their representatives either of a Legislative, a County or Monicipal character.
