A Farm within the reach of every Man.

THE RIDGWAY FARM COMPANY has made arrangements by which all who desire to settle of purchase a home can

who desire to settle of purchase a home can de so.

The Parms consist of the best limestong soil of the most superior quality for farming, in a rapidly improving place, into which an extensive emigration is now pouring. The property is located in Elk Connity, Pennayivania, in the midst of a thriving population of some 10,000. The climate is perfectly healthy, and the terrible plague of the west fever is unknown. It also has an abundance of the best quality of Coal and from. The price to buy it out is from \$3 to \$20 per sacre, payable by iostalliments, to be located at the time of purchassing, or a share of twenty-five acres entitling to locate the same for \$300, payable \$5 per month or 122 acres payable \$4 per month. Discould for every aum or \$100 and under, paid in advance, and for over \$100 and under, paid in advance, and for over \$100 and in soint of 10 per cent.

In considering the advantages of emigrating to this locality the following are presented: France—The soil is a rich immediate, capable of raising the heaviest crops, owing to which this settlement has obtained its present great property.

Proceedings of the centre of the great North West Coal Basin, and is destined soon to become one of the greatest business, laces in the State. It will supply the great Lake market, (according to the population and travef the greatest in the Unito.) It has five workable veins of the best Bituminous coal, amounting in the aggregate to over 22 feet, which makes 22 0.00 tons of coal under each over. This will make the land of inestimable value. The eminent geologist Dr. Chas. T. Jackson of Bouton, has made a geological survey of the land, and analysed the soal, the ison we and limestone. This report together with maps will be funished to inquirers.

FOUNTE—Three Railroads are laid out throthis property. The Sunbury and Eure Railroad gives us a market for our coal to the lakes—it runs from Erie to Philadelphia. A large part of the Road has been finished, and is now in running order. A heavy force is now working from Erie towards our land in the western direction, the meahs for the completion of which has been raised, it will soon be finished. The Allegheny Valley Railroad connects as with New York, Boston and Pittsburg. The Venango Road connects the with the West.

There gre already good Tumplico Roads tunning through this property, various other roads have been opened to accommodate the emirgration and settlement which has already taken place.

There is no opportunity equal to it move offered it the man-who wants to provide himself a home an acasy way, and make a settlement where he can live in properity and independence in a cimate Perfectly Healthy.

No case of fever ever having been known so occut in this cettlement. It is not like going to the beaktwoods of the West, mining perhaps intolerant people, where there is no society, churches, or schools, where the price of land is high, and where the emigrati, after being used to the healthest climate in the world. has to ordure sickness and pain, and perhaps raiss his health and that of his family. But here is a cash market at hand. The lumber trade last year anctun
