Report of the Committee appointed to superintend the burning of the Iron Safes at Reading, Feb. 27th, 1857.

READING, March 4th.

The undersigned, members of the Committee, do respectfully report, that we saw the two Safes originally agreed upon by Farrels & Herring and Evans & Watson, placed side by side in a fornace, viz: The Safe in use by the Psymmeter of the Philadelphus and Reading, manufactured by Farrels & Herring, and the Safe in use by H. A. Lantz, in his store, manufactured by Evans & Watson, and put in books and papers precisely alike.

The fire was started at \$\frac{1}{2}\ \text{orlock}, A. M., and kept up until four cords of green hickory, two cords dry oak and half chestinal top wood were entirely consumed, the whole under the superintendence of the subscribers, members of the Committee. The Safes were then cooled off with water, after which they were opened, agd the books and papers taken out by the Committee and sent to H. A. Lantz's store for public examination, after they were first examined and marked by the Committee. The books and papers taken from the Safe manufactured by Evans & Walson were but slightly affected by the intense heat, while those taken from the Safe manufactured by Farrels & Herring were, in our judgment, damaged fully fifteen per cent. more than those taken from Evans & Watson's Safe. W. WEAVER, EPH SHARPLESS.
AND MACHINEST, Build-alley between the "Exchange in House."

Having been absent during the burning we fully coincide with the above statemen of the condition of the papers and books taken out of the respective Safes.

TO THE FASHONABLE AND DULLER B.

THE undersigned having us received the latest Pasis and New York Fashions, would again beg leave to inform his numer out friends and sil the world about Blooms burg, that he is now better prepared than ever to accommodate any one with the neatest sasiest and best fitting suits of clothes that have been turned out lately; and not only that, but he will also do them up in the best order, upon the lowest terms.

His shop in at the old wtand, (too well known o need further notice) where he may at all times be found, seated upon the bench of repentance steadily drawing out the threat of affliction, hopeing it may in the end prove advantageous to him and his customers. He would also advise his fiends to bear in mine that poor, afflicted tailors must live, or they can't be expected to work. Therefore Wheat, Rye. Corn, Oats, Potatoes, and with all now and then a little CASH will come mighty handy from those who are back-standing on the books.

HERRING'S THE ACKNOWLEDGED CHAMPION!!

CHAMPION!!

THE recent trials at Reading have endorsed the current of public opinion, and confirmed the verdict of more than 200 accidental fires, proving concusaries the ring's is the only safe that will not burn.

Extract from the Committee's Report on the Trial of Iron Safes at Reading:

"On the 26th of February all the members of the Committee met to winess the Safes and books and papers, (placed in them) and were perfectly satisfied that all was right.—The day following, the burning took place, under the appermendence of the Committee. After a fair and impartial burning for five hours, the Safe of Messra. Evans & Watson was first opened, the Safe being on fire inside, and the contents partially consumed, while the contents in the Safe of Messra. Farrels & Herring were in good condition, and no fire inside."

Reading, March 2, 1857.

And endorsed by over our tree pear that of Reading.

The above Sales can be inspected at 34 Walaut Street, where the public can satisfy themselves of the great superiority of the "Herring's Patent Champion," over the defeated and used-up "inside Iron Door Salamandar,"

Patent Champion Safes.

The attempt made by other parties to bolster up the reputation of a Safe which has failed signally in accidental fires in Philadelphia, (Ranstead Place,) by taking one out of an agent's store, [H. A. Lantz,] made double thickness, (different from those they sell) to "born up" one of Herring's, (half as thick) has met with its true reward. Herring's Safe could not be bornt, proving conclusively that the only reliable Safe now made is Herring's, of which over 15,000 are now in actuel use, and more than 200 have been tried by fire without a single loss.

LOTTERIES. THE well-known Maryland Consolidated otteries, of which R. FRANCE & Co. are THE well-known Maryland Consolidated Lotteries, of which R. FRANCE & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interists of parties who reside at a distance are as well protected as if they themselves were present at the drawing.—Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tuckets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the mouth. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from \$1 to \$20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the psincine of one number on each ticket (after the Havana plan,) and Ternary combination. Prizes vary in amount from \$20 to \$100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.
