HAS established a greater celebrity than has ever been obtained by any other

Starch.

This has been the result of its marked superiority in quality, and its invariable uniformity.

The public may be assured of the continuation of the best standard now established. ance of the high standard now established.

The production is over Twenty Tone Jaily, and the demand has extended throughout the whole of the United States, and to foreign

whole of the United States, and to foreign countries.

Working thus on a very large scale, and ander a rigin system, they are able to secure a perfect and uniformity in the quality throughout the year. This is the great Decideratum in Starch-making, and is realized now for the first time.

The very best starch that can be made, and no other, is always warted by consumers, and while this will be supplied to them by the grocers, as soon as their customers have learned which is the best, and ask for intotherwise they would be likely to get that article on which the largest profit can be made.

article on which the largest profit can be made.

Mr. Kingsford has been engaged in the manufacture of starch continuously for the last 27 years, and during the whole of the period, the starch made under his supervision has been, beyond any question, the best in the market. For the first 17 years, he had the charge of the works of Win. Colgate & Co., at which period he invented the process of the manufacture of corn starch.

OSWEGO CORN STARCH,

(For Publings &c.)

Has obtained an equal celebrity with their
Starch for the Laundry. This article is perfectly pure, and is, in every respect, equal to
the best Bermuda Arrow-Root, besides having additional qualities which render it invaluable for the dessert.

Potato Starch has been extensively packed
and sold as Com Starch, and has given false
impressions to many, as to the real merits of
our Com Starch.

From its great delicacy and purity, it is
coming also into extensive use as a diet for
infants and invalids.
