TO THOSE WHO WANT FARMS. SUFFER NOT, WHEN A PER-

SECOND—It is the centre of the great North West Coal Basis, and is destined soon to become one of the greatest business places in the State. It will supply the great Lake mar-West Coal Basic, and is destined soon to become one of the greatest business I Jaces in the State. It will supply the great Lake market (according to the population and rave the greatest in the Union.) It has five work able vents of the best Bituminous coal, amounting in the aggregate of over 22 feet, which will make the lard of inestimable value. The eminent agologist Dr. Chas. P. Jackson of Hoston, has made a group great survey of the fand, and analysed the coal, the tron ore and incestone. This report together with mapsoul between the faction of the Road and analysed the quiers.

Futurer—Three Railroads are laid out throthis property. The Sunbury and tate Railroad gives us a market for our coal to the lakes—it uns from Erie to Philadelphia. A large part of the Road has been finished, and is now in unning order. A heavy force is now working from Erie towards our land in the western direction, the means for the completion or which

rection, the means for the completion or which was been rateel, it will some be finished. The Allegheny Valley Railroad connects as with New York, Baston and Pit shurg. The Vesioners Road connects us with the West.

There are already good Turapton Road-anning, through this property, various other roads have been opered to accommodate the entrystion and settlement which has an advasten place.

There is no opportunity equal to it now offered to the man who wants to provide himself a home to an easy way, and nake a settlement where he can live in prosperity and independence in a timate Perfectly Healthy.

No case of tever ever having been known to occur in this rettlement. It is not like going to the backwoods of the West, among perhaps to telerant people, where there is no society, churches, or achoos, where the price of Find is high, and where the emigrant, after heng used to the headinest climate in the world, has to endure sickness and pain, and pethaps ruins his broth and that of nis family. But here is a throng settlement having three towns, conm lis, grist mills, and everything desired.
