disease, neutralizes the tubercular matter,
allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood,
marris renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be
able to state confidently that Consumption is
curable by inhalation, is to me a source of
unalloyed pleasure. It is as much under the
control of medical treatment as any other
middle disease; ninety out of every hundred cases can be cured in the first stages,
and fifty per cent, in the second; but in the
third stage it is impossible to save more than
five per cent, for the lungs are so cut up by
the disease as to bid defiance to medical
skill. Even, however, in the last stages, inhalation affords extraordioary relief to the
suffering attending this fearful scourge, which

superintend the burning of the Iron Safes at Reading, Feb. 27th, 1857.

READING, March 4th.

The undersigned, members of the Committee, do respectfully report, that we saw the two Safes originally agreed upon by Farrels & Herring and Evans & Watson, placed side by side in a furnace, viz. The Sale in use by the Paymaster of the Philadelphra and Reading Railroad Company, in his office at Reading, manufactured by Farrels & Herring, and the Safe in use by H. A. Lantz, in his store, manufactured by Evans & Watson, and put in books and papers precisely alike.

The fire was started at 8½ o'clock, A. M., and kept up until four cords of green hickory, two cords dry oak and half chestnut top wood were entirely consumed, the whole under the superintendence of the subscribers, members of the Committee. The Safes were then cooled off with water, after which they were opened, agd the books and papers taken out by the Committee and sent to H. A. Lanz's store for public examination, after they were first examined and marked by the Committee. The books and papers taken from the Safe manufactured by Evans & Watson were but slightly affected by the intense heat, while those taken from the Safe manufactured by Farrels & Herring were, in our judgment, damaged fully fifteen per cent. more than those taken from Evans & Watson's ment, damaged fully fifteen per cent. more than those taken from Evans & Watson's Safe.

DANIEL S. HUNTER.
Having been absent during the burning, we fully coincide with the above statement of the condition of the papers and books taken out of the respective Safes.

THE recent trials at Reading have endorsed the current of public oginion, and confirmed the verdict of more than 200 accidental fires, proving conclusively that "Heriting" is the only safe that will not burn.

Extract from the Committee's Report on the Trial of Iron Sales at Reading:

"On the 26th of February all the members of the Committee met to witness the Safes and books and papers, (placed in them) and were perfectly satisfied that all was right.—The day following, the burning took place, under the superintendence of the Committee. After a fair and impartial burning for five hours, the Safe of Messrs. Evans & Watson was first opened, the Safe being on fire inside, and the contents partially consumed, while the contents in the Safe of Messrs. Farrels & Herring were in good condition, and no fire inside.
