For all Clubs of Twenty and over, the yearly subscription is only \$1.40. The new volume will be printed upon fine paper with new type. The general character of the Scientific American is well known, and as heretofore, it will be chiefly devoted to the promulgation of information relating to the various Mechanical and Chemical Arts, Manufactures, Agriculture, Patents, Inventions, Engineering, Mill Work, and all interests which the light of Practical Science is calculated to advance.

It is issued weekly, and contains annually from 500 to 600 fully executed Engravings, and notices of American and European Improvements, together with an Official List of American Patent Claims published weekly in advance of all other papers.

It is the aim of the Editors of the Scientific American to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid fearlessness in combating and exposing false theories and practices in Scientific and Mechanical matters, and thus preserve the character of the Scientific American as a reliable Encyclopedia of Useful and Entertaining Knowledge.

Specimen copies will be sent gratis to any part of the country. MUNN & CO., Publishers and Patent Agents, No. 128 Fulton St., New York, Sept. 1, 1857.

T. KINGFORD & SONS' PURE OSWEGO STARCH.

It has established a greater celebrity than has ever been obtained by any other Starch.

This has been the result of its marked superiority in quality, and its invariable uniformity.

The public may be assured of the continuance of the high standard now established. The production of this Starch is now daily, and the demand has extended throughout the whole of the United States, and to foreign countries.

Working thus on a very large scale, and under a rigid system, they are able to secure a perfect and uniformity in the quality throughout the year. The production of this Starch is now daily, and the demand has extended throughout the whole of the United States, and to foreign countries.

The very best starch that can be made, and no other, is always wanted by consumers, and while this will be supplied to them by the grocers, as soon as their customers have learned to prefer the best, and ask for it, otherwise they would be likely to get that article on which the largest profit can be made.

Mr. Kingsford has been engaged in the manufacture of starch continuously for the last 27 years, and during the whole of the period, the superior quality of his Starch has been proved by every question, the best in the market. For the first 17 years, he had the charge of the works of Wm. Colgate & Co., at which period he invented the process of the manufacture of corn starch.

Ask for Kingsford's Starch, as the name Oswego has recently been taken by another factory.

T. KINGFORD & SONS' OSWEGO CORN STARCH.

Has obtained an equal celebrity with their Starch for the Laundry. This article is perfectly pure, and is, in every respect, equal to the best. It is a most valuable article, having additional qualities which render it invaluable for the domestic.

Potato Starch has been extensively packed and sold as Corn Starch, and has given false impressions to many, as to the real merits of our Corn Starch.

From its great delicacy and purity, it is coming to be a most extensive use as a diet for infants and invalids.

FRENCH'S FARMERS' DEPOT, At the Junction of York Avenue, Crown and Callowhill Streets, Philadelphia, September 2, 1857.

Of all disease, the great first cause is Sprung from neglect of Nature's laws.

SURELY NOT WHEN A CURSE IS GUARANTEED IN ALL STAGES OF SECRET DISEASES, SELF-ABUSE, NERVOUS Debility, Stricture, Gleet, Gravel, Diarrhoea, Diseases of the Kidneys and Bladder, Menstrual Irregularities, Scrophulous, Pains in the Head, Back, Throat, Nose and Eyes, Dropsy, Rheumatism, St. Vitus's Dance, and all Diseases arising from a derangement of the Sexual Organs.

Such as nervous trembling, loss of memory, loss of power, general weakness, dimness of vision with peculiar spots appearing before the eyes, loss of sight, wakefulness, dyspepsia, Liver disease, eruptions upon the face, pimples in the neck and head, female irregularities and all impure discharges from both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, recovery is certain, and in a shorter time than permanent cure can be effected by any other treatment, and the expense is less. We have effected the skill of eminent physicians and resided at all the means of cure. The medicines are pleasant without odor, causing no sickness and free from mercury or balsam. During 20 years of practice, I have rescued from the jaws of death, and the greatest calamities to health, as they are the first cause of Consumption, Scrophulous and many other diseases, and should be a terror to the human family. As a remedial agent is scarcely ever effected, a majority of the cases falling to the lot of the unskilful, who, not only fail to cure the disease, but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid consumption.

But should the disease and the treatment be neglected, the disease is transferred to the children, who are born with feeble constitutions, and the current of life corrupted by a virus which taints itself in Scrophulous, Ulcers, Eruptions, and other affections of the skin, eyes, Throat and Lungs, rendering them to an early grave.

Self-abuse is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering, to an untimely grave. It is the great cause of nervous system, and it wastes away the energies of life, causing mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business, and all other enjoyments, and it leaves the sufferer weak in body, and in the progress of the disease, and a train of evils, not to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of self-abuse, that a permanent and speedy cure can be effected, and with the abandonment of numerous practices, my patients can be restored to their vigor and health.

The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious swindlers in the columns of the public papers to each and to the misery suffers that millions have their constitutions ruined by the use of such quack remedies. Medicate equally poisonous nostrums, called "Patent Medicines." I have carefully analyzed many of the so-called Patent Medicines, and find nearly all of them contain Arsenic and other toxic substances, which in case of the slightest imprudence, will destroy the patient, who, when afflicted with the disease, desires to cure the system for life.

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons, who do not understand even the alphabet of the Materia Medica, and are equally ignorant of the nature of the human system, having no object in view, and that to make money regardless of consequences.

It is a great misfortune of many and females treated on principles established by 20 years of practice, and sanctioned by thousands of the most eminent medical men of the world, and directed to any part of the United States or Canada, by patients communicating their symptoms by letter. Business correspondence strictly confidential. Address: J. N. MERRILL, M. D., Office No. 1131 Filbert Street, (Old No. 109) below Twelfth, Philadelphia.

A Retired Physician 25 YEARS OF AGE.

Whose 25 years of life have nearly run out, discovered while in the East Indies, a certain cure for Consumption, Asthma, Bronchitis, Coughs, Colds, and General Debility. The remedy was discovered by him when his only child, a daughter, was given up to the hands of heaven, and he, in his despair, resorted to the use of a certain medicine, and he thought he might make a remedy for his child. He studied hard and succeeded in realizing his wishes. His child was cured, and is now alive and well. He has since administered the same medicine to thousands of sufferers in all parts of the world, and he has never failed in making them completely healthy and happy. Wishing to do as much good as possible, he will send to such of his afflicted fellow beings as request it, this recipe, with full and explicit directions for making it, and for its use. He requires each applicant to enclose him one shilling—three cents to be returned as postage on the recipe, and the remainder to be applied to the payment of this advertisement. Address: DR. H. JAMES, No. 19 Grand Street, Dr. H. JAMES, No. 19 Grand Street, Jersey City, N. J.
