Congress.

The first session of the 35th Congress will meet in the City of Washington on the first Monday being the 7th day of December.

MELANCHOLY OCCURRENCE.

On Friday week, William Cooper was accidentally shot dead, near Lewistown, Pa., while out gunning with his father.

At a Meeting of the Presidents of the Danville, Northumberland, Lewisburg, West Branch, Lock Haven, and Jersey Shore Banks, at Williamsport, on the 29th ult., it was resolved that during the suspension of specie payments, by the Banks of this Commonwealth, they did not deem it expedient to make any arrangements with the city Banks for the redemption of their notes, or sums of specie in Philadelphia to keep their notes at par.

CANAL BOARD APPOINTMENTS.

Harrisburg, Nov. 19.—The following Canal Board appointments were made to-day, viz:—Superintendent of the Delaware Division, Wm. Elliott; of the Lower North Branch, Gen. W. Search; of the West Branch, R. R. Birgess.

Utah.

Brigham Young and his followers have declared that they will resist the officers and authority of the United States; and they seem to be arming, and preparing to dispute by force and arms the national authorities.

The Currency.

Among the important questions likely to come before the next Congress is that of the Currency. The system of state banking, as practiced among us will be overhauled, and some conclusion arrived at as to the power possessed by a state to delegate power which it does not itself possess.

Book Notices.

We are in receipt of Leonard Scott & Co's reprint of the Westminster Quarterly Review for October, 1857. It is a splendid No. containing articles of "Female Dress in '57," "Political Priest," "Jah," or an adventure in Malayan Waters. History of Civilization in England. Aurora Leigh. The Four Empires. The Cheopboros of Æschylus. Representative Government. What is it good for? Mommsen's Roman History. The Progress of English Jurisprudence. Contemporary Literature.

A Murderer Convicted.

Francis Burns, who was arrested some two or three weeks ago, in the vicinity of Pittston, for the murder of his wife, was tried last week at Wilkes-Barre, and the Jury on Saturday, after retiring for about thirty minutes rendered a verdict of "murder in the second degree."—This crime, of which Burns is convicted, we believe is punished by imprisonment of not less than ten years. It was an aggravated case, and we are somewhat surprised at the result.

Fire in Pittston.

We learn that on Friday night last at about one o'clock, a fire broke out in a Store house belonging to Esquire Reddin, opposite the Butler House, which entirely consumed it, together with a small building adjoining it, which was also the property of Esquire Reddin, used as a justice's office and a Doctor's office, before the devouring element could be stayed. We have not heard the particulars of the origin of the fire. We understand there was no insurance upon the property destroyed.

DELICIOUS VENISON.

Our thanks are due to Wesley Wirt, Esq., for some very fine venison received the past week; he has been on a hunting excursion at Long Pond, in Sullivan county, and killed three fine deer during the trip. He has quite a taste for the romance of hunting.

The Methodist Congregation had the Rev. Mr. Warren to preach the first sermon in the lecture room of their new Church on last Sunday evening. The house was crowded and some forty persons could not obtain admission. They dispersed very orderly.

The stores and other places of business will be closed in Bloomington on Thanksgiving Day.

The prices of grain in this county are gradually going down.

The Susquehanna river at this place was raised to a pretty high water-mark last week. The rain north of here must have been very severe. There was a large amount of flood wood floating down the river, and we learn that in a number of instances whole fields of corn were swept away. The rain at this place was very light, and done little or no damage; but we learn that some towns along the river, between here and Elmira, were completely inundated, doing much damage. At Elmira, some portion of the track of the N. Y. & Erie Railroad was carried off by the freshet, interrupting the regular passing of trains.

At a meeting of the Board of Directors, on last Tuesday, Edw. H. Baldy, Esq., was unanimously re-elected as President. A dividend of 3 per cent. for the last six months was declared on the 3d inst.

At an election for officers of this bank, held on last Monday, the following Board of Directors were duly chosen, viz: E. H. Baldy, Danville, Dr. W. H. Magill, do John Forley, do M. C. Grier, do G. M. Shoop, do Peter Baldy, sr, do J. C. Phodes, do John Sharpless, Catawissa, John K. Groz, Bloomburg, Thomas Hayes, Lewisburg, J. V. Goodlander, Milton, Wm. There has been an investigation going on for a week or two past, by the Directors of the Bank of Pennsylvania, into the affairs of that institution, and the common report is that the exhibits are not favorable. The immediate liabilities of the Bank in round numbers, independent of capital stock, is about two millions of dollars—to meet which, there are assets, appraised at one and three quarters millions. If this appraisal and amount of liabilities are correct, the Bank would seem to be unable to pay its debts, leaving nothing for stock holders. It was anticipated by many that this examination would prove unfavorable, yet they did not anticipate one quite so calamitous as the one reported. The nominal amount of assets is, of course, more than the amount appraised as available, though it is reported there is a balance of very considerable extent in the Bank accounts, covered by no representative value whatever. In every properly conducted bank, the ledger account will show on one side all that the bank owes including its capital; and on the other all that is owing to the Bank, and the two are made to balance, something being received to show for every dollar expended. This, the examination at the Bank of Pennsylvania, has not thus far been able to demonstrate.—The business of the institution seems very much, at least ends. Within a day or two, assets of the value of a hundred thousand dollars, said to be entirely reliable, were found stock in one of the unused pigeon holes. The Bank holds about \$175,000 of its own stock; a portion of this, however, has been pledged to one or more of the interior banks, though the agency of a third party, who now stands liable to the bank for the amount. The committee representing the city banks in this matter, or a majority of it, is understood to be averse to an attempt at reorganization, and the indications now are, that it will go into liquidation, and probably of extinction, leaving as little for its shareholders as did its great prototype, the Bank of the United States, Noteholders and depositors will probably be paid.
