OSWEGO STARCH,
(FOR THE LAUNDRY.)

HAS established a greater celebrity than
has ever been obtained by any other

Starch.
This has been the result of its marked superiority in quality, and its invariable uniformity.
The public may be assured of the continuation of the continuatio

ance of the h gh standard now established.

The production is over Twenty Tons daily, and the demand has extended throughout the whole of the United States, and to foreign

Countries.

Working thus on a very large scale, and under a rigid system, they are able to secure a perfect and unformity in the quality throughout the year. This is the great Desideratum in Starch-making, and is realized now for

the first time.

The very best starch that can be made, and no other, is always warted by consumers, and while this will be supplied to them by the grocers, as soon as their customers have learned which is the best, and ask for incetherwise they would be likely to get that article on which the largest profit can be made.

Mr. Kingsford has been engaged in the Mr. Kingsford has been engaged in the manufacture of starch continuously for the last 27 years, and during the whole of the period, the starch made under his supervision has been, beyond any question, the best in the market. For the first 17 years, he had the charge of the works of Wm. Colgate & Co., at which period he invented the process of the manufacture of corn starch.

Safes at Reading, Feb. 27th, 1857.

Reading, March 4th.

The undersigned, members of the Committee, do respectfully report, that we saw the two Safes originally agreed cpon by Fatrels & Herring and Evans & Watson, placed side by eide in a furnace, viz: The Safe in use by the Paymaster of the Philadelphia and Reading, manufactured by Fatrels & Herring, and the Safe in use by H. A. Lantz, in his store, manufactured by Evans & Watson, and put in books and papers precisely alike.

The fire was started at 8½ o'clock, A. M., and kept up until four cords of green hickory, two cords dry oak and half chestnut top wood were entirely consumed, the whole under the superintendence of the subscribers, members of the Committee. The Safes were then cooled off with water, after which they were opened, agd the books and papers taken out by the Committee and sent to H. A. Lantz's store for public examination, after they were first examined and marked by the Committee. The books and papers taken from the Safe manufactured by Evans & Watson were but slightly affected by the intense heat, while those taken from the Safe manufactured by Farrels & Herring were, in our judgment, damaged fully fifteen per cent. more than those taken from Evans & Watson's Safe.

JACOB H. DYSHER,

DANIEL S. HUNTER.
Having been absent during the burning, we fully coincide with the above statement of the condition of the papers and books taken out of the respective Safes.

Impotency, and Impediments to Marriage generally.

BY B. DE LANEY, M. D.

The important fact that the many alarming complaints, originating in the imprudence and solitude of youth, may be easily removed without Medicine, is in this small tract, clearly demonstrated; and the entirely new and highly successful treatment, as adopted by the Author, fully explained, by means of which every one is enabled to cure himself perfectly and at the least possible cost, thereby avoiding all the advertised nostrums of the day.

THE undersigned having just received the latest Paris and New York Fashions, would again beg leave to inform his comerons friends and all the world about Blooms burg, that he is now better prepared than ever to accommodate any one with the nealest easiest and best fitting spits of Clothes that have been turned out lately; and not only that, but he will also do them up in the best order, upon the lowest terms.

His shop is at the old stand, (too welknown o need further notice) where he may at all times be found, sealed upon the bench of repentance, steadily drawing out the thread of affliction, hopeing it may in the end prove advantageous to him and his customers. He would also advise his fiends to bear in mine that poor, afflicted tailors must live, or they can't be expected to work. Therefore Wheat, Rye, Corn, Oats, Potatoes, and with all now and then a little CASH will come mighty hand? from those who are back-standing on the books.

LOTTERIES.

THE well-known Maryland Consolidated Lotteries, of which R. FRANCE & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interists of parties who reside at a distance are as well protected as if they themselves were present at the drawing.

Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tockets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from \$1\$ to \$20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan,) and Ternary combination. Prizes vary in amount from \$20 to \$100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.
