THE ACKNOWLEDGED CHAMPION!! THE recent trials at Read-ing have endorsed the cur-rent of public opinion, and confirmed the vertice of more than 200 acei-dental fires, proving conclusively that "Her-ring?" is the only safe that will not burn. Extract from the Committee's Report on the Trial of Iron Safes at Reading: "On the 26th of February all thot burn. The day following, the burning took place, under the supermiendance of the Committee. After a fair and impartial burning for five hours, the Safe of Messa. Evans & Watsen was first opened, the Safe being on fire in-side, and the contents partially consumed; while the contents in the Safe of Messar. Farels & Herring wets in good condition; and no fire inside." Reading, March 2, 1887. (Signed) P. N. COLEMAN, Com. A. H. FARCOK, Com. And endorsed by over 61 of the best men of Reading. The day for Safes can be inspected at 34 bits St. Vita's Dance, and all diseases arising from a derangement of the Sexual Organs. Such as nervous trembling, less of memory, loss of power, general weakness, dinness dinness, liver disease, eraptions upon the face, pain in the back and head, fomsile irregularities and all improper discharges from both sexes. It matters not from what cause the disease originated, however long standing or obstiate the case, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffied the skill of eminent physicians and resisted all the means of cure. The medicines are pleasant without dor, causing to sickness and free from mercury or balsant. During 20 years of practice, I have rescued from the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promising to the afflieted, who may place themselves under my care, aperiect and most spoedy cure. Secret diseases are the greatest enemies to health, as they are the first cause of Consumption, Scroftula and many other ticateses, and should be a terro to the human family. As a permanent rot cause the disease had the disease is entitled upon children, who are buff ing into the hands of incompetent persons, who not only fail to cure the disease but ruin the constitution, filing the system with mercury, which, with the disease, hastens the sufferer into a rapid consumption. But should be disease and the treatment rot cause desth specifiv and the victim marries, the disease is entailed upon children, who are born with feelie constitutions, and the current of the corrupted by a virus which betrays itself in Scrofula, Tetre, Ulcers, Eruptions and other affections of the skin, Eyes, Throat and Lungs, entailing them to an early gave. And endoreed by over 5) of the best men of Reading. The above Safes can be inspected at 34 Walnut Street, where the jublic can satisfy themselves of the great superiority of the "Herring's Patent Champion?" over the de-feated and used-up "inside ton Door Sala-mander." tions and other affections of the skin, Eyes, Threat and Lougs, entailing them to an early grave. Self-abuse is another formidable enemy to health, for nothing else in the dread catalogue of human disease causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the Ner-vous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, dis-qualifies for marriage, society, business, and all earthy happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death theil, With the fullest confidence I assure the unfortunate vicitims of self-abuse that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices my patients can be restored to robust, vigorous health. The afflicted are cautioned against the use of Patent Medicines, for there are so many inge-misus snares in the columns of the public prints to earch and to the unwary sufferers that millions have their constitutions ruined by the vile compounds of quack doctors, or the equally poisonous nostrums v nded as Patent Medicines.' I have carefully analyzed many of the so called Patent Medicines and find that hearly all of them contain Corrosive Subili-mate, which is one of the strongest prepara-tions of mercury and a deadly poison, which insteed of curing the disease disables the sys-tem for life. The new volume will be printed upon fine paper with new type. The general character of the Scientific Amer-ican is well known; and, as heretofore, it will be chiefly devoted to the promulgation of information relating to the various Mechani-cal and Chemical Arts, Manufactures, Agri-culture, Patents, Inventions, Engineering, Mill Work, and all interests which the light of Practical Science is calculated to advance. It is issued weekly, in form for binding; it contains annually from 500 to 600 finely ex-ecuted Engravings, and notices of American and European Improvements, together with an Official List of American Patent Claims published weekly in advance of all other pa-pers.

published weekly in advance of all other pa-pers. It is the aim of the Editors of the Scientific American to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid fearlessness in combaing and exposing false theories and practice in Scientific and Me-chanical matters, and thus preserve the char-enter of the Scientific American as a reliable Encyclopedia of Useful and Entertaining Knowledge.
