"I drink to one," he said, "Whose image never may depart, Deep graven on this grateful heart, "Till memory is dead.

"To one whose love for me shall last, When lighter passions long have passed, So holy 'its and true; To one whose love hath longer dwelt, More deeply fixed, more keenly felt, Than any pledged by you."

Each guest upstarted at the word, And laid his hand upon his sword, With fury flashing eyes; And Stanly said—"We crave the name, Proud Knight, of this most peerless dame Whose love you count so high."

St. Leon paused, as if he would
Not breathe her name in careless mood,
Thus lightly to another:
Then bent his noble head as though
To give that word the reverence due,
And gently said—"My Mother."

TOUCHING INCIDENT .- The Buffalo Commerside says that the Rector of St. Paul's Current, in that city, had reached the middle of his discourse on Christmas Ere, when a delegate from heathendom came up the south isle. It was a young squaw, what had half-heathenish, half-eivilized dress, a diminurive bonnet hanging on the back of her head by the strings, and a calico'shavl of gay colors wrapped around her like a blanket. She came along with the slow Indian step, until, near the front of the church, a gentleman grave hera seat. She sat down as if unaccustomed to cushions, and maintained her good behavior, except when the face the called to express her approval by an andible "bat's good!" During the singing of the closing hymn, she stood up with the rest, evidently much excited, learning eagerful and another the production, when the choir performed an anthem, she rushed out of the pew into the peace before the chancel, where she stood unconscious of the gaze of the congregation, her yees fixed on the organ, and all the strangeness of her position forgotion in the ther tash of sensation produced by the rid hands of a transfer for horse of the organ and the exabling chorse of the organ and the exabling chorse of the corgan and the exabling chorse of the organ and the exabling chorse of the organ and the exabling chorse of the organ and the strangeness of her position forgotion in the thermal of sensation produced by the rid and the strangeness of her position forgotion in the thermal of sensation produced by the rid and the strangeness of her position forgotion in the thermal of sensation produced by the rid of the wildst drunk with a new emotion, a stray lamb from heathendom, joining unconsciously in the worship of One who, almost at the strangeness of her position forgotion in the antipodes and nineteen centuries ago, lay in example of the position forgotion in the test of the position forgotion in the produced by the strangeness of her position forgotion in the produced by the strangeness of her position forgotion in the produced by the strangeness of h cial says that the Rector of St. Paul's Church, in that city, had reached the middle of his discourse on Christmas Eve, when a

THE PRINCESS ROYAL'S MARRIAGE.—On the occasion of her Majesty's marriage, she presented to each of her bridesmaids a diamond and turquoise ornament, to be worn on the shoulder on the sleeve of the dress; and the ladies so distinguished always wear this badge whenever they attend at court. Some such distinction will be conferred on those who occupy a prominent position in the ceremonial of the nuptials of the Princess Royal. Fourteen beautiful bracelets of the same pattern, and with similar jewels, are being manufactured for the event, besides a number of brooches and pins. These latter contain on a shield of blue enamel the cipher of the Princess in diamonds, surmounted by the Prusian eagle, also in brilliants. The trousseau of the Princess herself approaches completion, and its magnificence will be great. - Court

CRINOLINE .- Notwithstanding the recentpinion, or rather wish, of the Empress of France, the ladies' dresses are ning out to such an enormous size, that they threaten to affect the health, if not the lives, of the wearers. At an evening party, last week, at Madame Perpignon's not less than five fainted, from sheer exhaustion, and Madame B——(well known in the Tuileries) has since proved a martyr to the steel and whalebone infliction. She is at present confined to her bed, her malady puzzling her physicians, but all in the se cret affirming that the weight she carried on the night of the ball was too much for her tender frame; hence her bodily prostration. When—when will this absurd fashion be come exploded?—London Court Circuit.

SLIGHTLY So .- A man was once relating a story of being on a locomotive that struck a cow standing on the track, and threw her several reds into the field, where she lit squarely upon her feet, with her head tow ards the train, and strange to tell, she wasn' hurt a mite. "But didn't she look scared?" inquired a listener. "Well, I don't know whether she was scared or not, but she locked

Mr. Kidwell was preaching some few years ago to a large audience in a wild part of Illinois, and announced for his text: "In my Father's house there are many man-Tather's house there are many manner." He had scarcely read the words, an old coon stood up and said:—"I cles, a good assortment of Hostery of the best quality; also bloves, mits, baskers, Carbet He lives fifteen miles from Lexingra an old cabin, and there ain't but one in the house."

AMELIA D. WEBB.

Bloomeburg, May 25, 1857. house there are many mansions." He had scarcely read the words, when an old coon stood up and said:—"I tell you folks that's a lie! I know his father ton, in an old cabin, and there ain't but one

IMPORTANT DISCOVERY.

CONSUMPTION, AND ALL DISEASES OF THE LUNGS And THGATT are positively corable by in-halation, which conveys the remedies to the castities in the lungs through the sir pas-sages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy ex pectoration, heals the lungs, pur: fies the blood imparts renewed vitality to the nervous sys-tem, giving that tone and energy so inclu-pensable for the restoration of health. To bable to state confidently that Consumption is pensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unallöved pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent, in the second, but in the third stage it is impossible to save more than five per cent, for the lugas are so out up by the disease; as to bid deflance to medical skill. Even, however, in the last stages, in halation affords extraordinary relief to the suffering attending this isolatulacourge, which annually destroys ninety five thousand persons in the United States alone; and a correct calculation shows that out of the present population of the earth, eighty millions are destined to fill the consumptive's grave.

Truly the quiver of death has no arrow so fatal as Concumption, In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps of falke the brave, the beautiful, the graveful, and the gifted.—By the help of that Sopreme Being, from whom coneth every good and perfect gift, I am enabled to offer to the effletted a permanent and speedy cure in Consumption. The first cause of tabendes is from impure blood, and the immediate effect, produced by their deposition in the lungs, is to prevent the free admission of air into the air cells.

AGGE tot of No. 1, 2, 8, 3, Markrel, also

LARGE lot of No. 1, 2, & 3 Mackrel, also, White Fish, Cod Fish and Herring, just May 27, '67. A. C. MENSCH. January 13, 1888.

Of all disease; the great, first cause Springs from neglect of Nature's laws. Springs from neglect of Nature's laws.

SUFFER NOT, WHEEN A CURB is guaranteed in all stages of SECRET DISEASES, SELF-ABUSE, NERVOUS Debility, Strictures, Gleets, Gravel, Diabetes, Diseases of the Kidneys and Blakler, Mercurial Rheumatism, Scrofula, Paius in the Bones and Ankles, Diseases of the Lungs, Throat, Nose and Eyes, Ulcers upon the body or limbs, Cancers, Dropsy, Edileptic Fits, St. Vita's Dance, and aid diseases wising from a derangement of the Sexual Organs.

Such as nervous trembling, less of memory,

Such as nervous trembling, less of memory. Such as nervous trembling, less of memory

log from a derangement of the Sexual Organia.

Such as nervous trembling, less of memory, loss of power, general weakness, dimers of vision with peculiar spots appearing before the eyas, loss of sight, wakefolness dysnepsia, Liver disease, eruptions upon the fice, poin in the back and head, female irregularities and all improjer discharges from both seres, it mitters not from what cause the disease originated, however log standing or obstiaute the case, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has haffed the skill of eminent physicians and resisted the thread of the skill of eminent physicians and resisted the means of cure. The medicines are pleasant without odor, causing to sickness and free from mercury or balsam. During 20 years of practice, I have rescued from the juws of dearh many thousands, who, in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place themselves under my care, a perfect and most speedy cure. Secret diseases are the greatest enemies to health, as they are the first cause of Consumption, Serofula am many other diseases, and should be a terror to the human family. As a permanent cure is socrely ever effected, a majority of the edicases but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid consumption. But should the disease and the treatment not cause death speedily and the victim marries, the disease is entailed upon children, who are born with feeble constitutions, and the current of life corrupted by a virus which betars, itself in Scrotula, Tetter, Ucers, Ergustions and other affections of the skin, Eyes, Throat and Lungs, entailing them to an early grave.

But for the 26th of February all the the members of the Committee met to with said and been enterile and the members of the Committee met to with said and been erperiented and in ma

grave.

Self-abuse is another formicable enemy to health, for nothing else in the dread extalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering d.wn to an unimely grave. It destroys the Nervous system, rapidly wastes away the energies of life, causes mental derangerant, prevents the proper development of the system, disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of self-abuse that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices my patients can be restored to robust, vigo ous health.

The afflicted are eautioned against the use of Patent Medicines, for there are so many ingenous sunces in the columns of the public prints to catch and 10b the unwary sufferers that millions have their constitutions ruined by the vile compounds of quack doctors, or the equally poisonous nostroms v need as Patent Medicines. I have carefully analyzed many of the so called Patent Medicines and find that nearly all of them contain Corrosive Suplimate, which is one of the strongest preparations of mercury and a deadly poison, which instead of curing the disease disables the system for life.

Three-fourths of the patent nostrums now Self-abuse is another formicable enemy to

tem for life.
Three-fourths of the patent nostrums nov Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons, who do not understand even the alphabet of the Majern Medica, and are equally as destitute of any knowledge of the human system, having one object only in view, and that to make money regardless of consequence. Irregularities and all diseases of males and females treated on principles established by 20 years of practice, and sanctioned by thousands of the most remarkable cures. Medicines with full directions sent to any part of the United States or Canadas, by patients communicating their symptems by letter, Business correspondence strictly confidential. Address

EVANS & WATSON'S Phil'a Manufactured SALAMANDER

SAFES; No. 26 South Fourth Suret PHILADELPHIA. TRUTH IS MIGHTY, & MUST PREVAIL Report of the Committee appointed to superintend the burning of the Iron Safes at Reading, Feb. 27th, 1857.

Safes at Reading. Feb. 27th, 1857.

READING March 4th.

The undersigned, members of the Committee, do respectfully report, that we saw the two Safes originally agreed upon by Farrels & Herring and Evans & Watson, placed side by side in a furnace, viz: The Sale in use by the Paymaster of the Philadelphu and Reading, manufactured by Farrels & Herring, and the Safe in use by H. A. Lantz, in his store, manufactured by Evans & Watson, and put in books and papers precisely alike.

The fire was started at 85 o'clock, A. M., and kept up until four cords of green hickory, two cords stry oak and half chestnut top wood were entirely consumed, the whole under

The fire was starfed at 85 o'clock, A. M., and kept up until four cords of green hickory, two cords dry oak and half chesmut top wood were entirely consumed, the whole under the superintendence of the subscribers, members of the Committee. The Safes were then cooled off with water, after which they were cooled off with water, after which they were first examined and marked by the Committee. The books and papers taken out by the Committee and sent to H. A. Laza's store for public examination, after they were first examined and marked by the Committee. The books and papers taken from the Safe manufactured by Evans & Watson were that slightly affected by the intense hear, while those taken from the Safe manufactured by Evans & Watson were that shighly affected by the intense hear, while those taken from the Safe manufactured by Evans & Watson were that shighly affected by the intense hear, while those taken from Evans & Watson's Safe.

JACOB H. DYSHER.

Wm. Donahower, Bullit & Milton, 1 Bullit & Milton, EVANS & WATSON.

HERRING'S

Only makers in this State of Herring's Patent Champion Safes.

The attempt made by other parties to bolster up the reputation of a Safe which has failed signally in accidental fires in Philadelphia, (Ranstead Place.) by taking one out of an agent's store, [H. A. Lanz.] made double thickness, (different from those they sell) to 'burn up' one of Herring's, (half as thick has met with list ture reward. Herring's Safe could not be burnt, proving coaclasively that the only reliable Safe now made is Herring's, of which over 15,000 are now in acutel use, and more than 200 have been tried by fire without a single loss.

without a single loss.
Philadelphia, Jan. 13, 1858-1y.

without a single loss.

Philadelphia, Jan. 13, 1858—1y.

LOTTERIES.

THE well-known Maryland Consolidated Lotteries, of which R. FRANCE & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interists of parties who reside at a distance are as well protected as if they themselves were present at the drawing.—Another fact which the managers call attention to, is, that all persons have a legal right to send orders for teckets to Maryland, at lotteries are legalized by special law in that state. A lottery is drawn every day of the mouth. If no particular class is named, orders are filled in the first drawing to take he money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan,) and Ternary combination. Prizes or promit attention, and the drawing mailed to all purchasers immediately after it is over.

Address,

T. H. HUBBARD & CO.

No. 39 Fayette st., or Box No. 40, Feb. 3d, 1857—1y. Baitimore, Md.

137 The Drawn Numbers of the Maryland Loteries are published by the State Commercials, the National Intelligencer and Union, of Washington, D. C.

January 13, 1852.

THE SECRET INFIRMITIES OF YOUTH AND MATURITY,

Just Published, Gratis, the 25th Thousand.

A few words on the rational reatment, without Medicine of Speriment, without Medicine of Speriment, without Medicine of Speriment or Local Weakues, Nocturnal Emissions, Genital and Nervous Debility, Premature Decay of the System, Impotency, and Impediments to Marriage generally.

BY B. DE LANEY, M. D.

The important fact that the many slarming complaints, originating in the improdence and solitude of youth, may be easily removed without Medicine, is in this small tract, clearly demonstrated; and the entirely new and highly successful treatment, as adopted by the Author, fully explained, by means of which every one is enabled to cure himself perfectly and at the least possible cost, thereby avoiding all the advertised nostrams of the day.

Sent to any address, gratia and post fore

Sent to any address, gratis and post free in a sealed envelope, by remining, postpaid, two postage simps, to Dr. B. DE LANEY, 17, Lispenard Street, New York City.

Jan. 13, 1858-6m.
