

THE BRITISH REVIEWS, AND BLACKWOOD'S MAGAZINE.

Great inducements to Subscribe! Premiums and Reductions.

- L. SCOTT & CO., NEW YORK, CONTINUE to publish the following leading British Periodicals, viz: 1. THE LONDON QUARTERLY, (Conservative). 2. THE EDINBURG REVIEW, (Whig). 3. THE NORTH BRITISH REVIEW, (Free Church). 4. THE WESTMINSTER REVIEW, (Liberal). 5. BLACKWOOD'S EDINBURG MAGAZINE, (Tory).

These periodicals ably represent the three great political parties of Great Britain—Whig, Tory, and Radical—but politics forms only one feature of their character. As Organs of the most profound writers on the Literature, Morality, and Religion, they stand as they ever have stood, unrivalled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day throughout the world, than can be possibly obtained from any other source.

EARLY COPIES. The receipt of Advance Sheets from the British publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

TERMS: Regular prices, per ann. For any two of the four Reviews, \$2 00 For any three of the four Reviews, 3 00 For all four of the Reviews, 4 00 For Blackwood's Magazine, 3 00 For Blackwood and three Reviews, 6 00 For Blackwood and the four Reviews, 10 00 Payments to be made in all cases in advance. Money current in the State where issued will be received in par.

POSTAGE. The postage to any part of the U. S. will be but Twenty-four cents a year for "Black Wood," and but fourteen cents a year for each of the Reviews.

At the above prices the periodicals will be furnished for 1858.

And as a Premium to New Subscribers, the numbers of the same periodicals for 1856, will be furnished complete, without additional charge.

Unlike the more ephemeral Magazines of the day, these Periodicals lose little by age. Hence, a full year of the numbers, with no omissions, for 1856, may be regarded nearly as valuable as for 1858.

Subscribers wishing also for No. 1857, will be supplied at the following extremely low rates.

SPLENDID OFFERS FOR 1856, '57, & '58 TOGETHER. For Blackwood's Magazine, \$5 00 For any one Review, 5 00 For any two Reviews, 8 00 For Blackwood and one Review, 8 00 For Blackwood and two Reviews, 10 00 For three Reviews, 10 00 For Blackwood and three Reviews, 12 00 For the four Reviews, 12 00 For Blackwood and the four Reviews, 15 00 N. B.—The price in Great Britain of the five Periodicals above named is \$31 per annum.

As we shall never again be likely to offer such inducements as those here presented, now is the time to subscribe.

Remittances must, in all cases, be made direct to the publishers, for at these prices no commission can be allowed to agents.

Address, LEONARD SCOTT & CO., No. 54 Gold Street, New York.

TO MECHANICS, INVENTORS & MANUFACTURERS.

Names of subscribers can be sent in at different times and from different Post Offices. The cash will be paid to the orders of the successful competitors, immediately after the 1st of January, 1858.

Southern Western and Canada money will be taken for subscriptions. Candidates subscribers will please to remit Twenty-six cents extra on each year's subscription to pre-pay postage.

Terms of Subscription—Two dollars a year One Dollar for six months. Club Rates—Five copies, for six months, Five copies, for twelve months, \$8; Ten copies, for six months, \$8; Ten copies, for twelve months, \$15; Twenty copies, for 12 months, \$28.

For all Clubs of Twenty and over, the yearly subscription is only \$1 40.

The new volume will be printed upon fine paper with new type.

The general character of the Scientific American is well known, and, as heretofore, it will be chiefly devoted to the promulgation of information relating to the various Mechanical and Chemical Arts, Manufactures, Agriculture, Patents, Inventions, Engineering, Mill Work, and all interests which the light of Scientific Science is calculated to advance.

It is issued weekly, in form for binding; it contains annually from 500 to 600 finely executed Engravings, and notices of American and European Improvements, together with an Official List of American Patent Claims published weekly in advance of all other papers.

It is the aim of the Editors of the Scientific American to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid fairness in combining and exposing false theories and practice in Scientific and Mechanical matters, and thus preserve the character of the Scientific American as a reliable Encyclopedia of Useful and Entertaining Knowledge.

Specimen copies will be sent gratis to any part of the country.

IMPORTANT DISCOVERY, CONSUMPTION, AND ALL DISEASES OF THE LUNGS.

And THOATTS are positively curable by inhalation, which conveys the remedies to the cavities in the lungs through the passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, forcing that one and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. in the second; but in the third stage it is impossible to save more than five per cent. for the lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attendant; this inhalation, which annually destroys ninety five thousand persons in the United States alone; and a correct calculation shows that the present population of the earth, eighty millions are destined to fill the consumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, in spare and in full, the beautiful, and the graceful, and the gifted—by the help of that Supreme Being, from whom cometh every good and perfect gift, I am enabled to offer to the afflicted a permanent cure of this fatal disease.

First cause of tubercles is from impure blood, and the immediate effect, produced by their deposition in the lungs, is to prevent the free admission of air into the air cells, which causes a weakened vitality through the lungs. This causes the patient to expect greater good from medicine than he is capable of receiving; the patient will always find the lungs free and the breathing easy after inhalation. Thus, inhalation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhalation will entirely destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours.

The inhalation of chloroform into the system when fainting or apparently dead—the odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of chloroform is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs, should produce the most happy results? During eighteen years practice, many thousands suffering from diseases of the lungs and throat, have been under my care, and I have afforded many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that Consumption is not a mortal disease.

My treatment of Consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish readily the various forms of disease that simulate Consumption, and to apply the proper remedies rarely being mistaken even in a single case. This familiarity in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted disease, to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system.

Medicines with full directions sent to any part of the United States as soon as the patient communicates their symptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and enable me to prescribe with greater certainty, and then to cure and effect without my seeing the patient again.

OSWEGO STARCH.

OSWEGO STARCH, (FOR THE LAUNDRY.) HAS established a greater celebrity than has ever been obtained by any other Starch.

This has been the result of its marked superiority in quality, and its invariable uniformity in color.

The public may be assured of the continuance of the high standard now established. The production is over Twenty Tons daily, and the demand has extended throughout the whole of the United States, and to foreign countries.

Working thus on a very large scale, and under a rigid system, they are able to secure a perfect uniformity in the quality throughout the year. This is the great desideratum in Starch-making, and is realized now for the first time.

The very best starch that can be made, and no other, is always wanted by consumers, and while this will be supplied to them by the grocers, as soon as their customers have learned which is the best, and ask for it—otherwise they would be likely to get that article on which the largest profit can be made.

Mr. Kingsford has been engaged in the manufacture of starch continuously for the last 27 years, and during the whole of the period, the starch made under his supervision has been beyond any question, the best in the market. For the first 17 years, he had the charge of the works of Wm. Colgate & Co., at which period he invented the process of the manufacture of corn starch.

Ask for Kingsford's Starch, as the name Oswego has recently been taken by another factory.

T. KINGSFORD & SON'S OSWEGO CORN STARCH, (For Puddings, &c.) Has obtained an equal celebrity with their Starch for the Laundry. This article is perfectly pure, and, in every respect, equal to the best Bermuda Arrow-Root, besides having additional qualities which render it invaluable for the domestic.

Potatoes have been extensively packed and sold as Corn Starch, and has given false impressions to many, as to the real merits of our Corn Starch.

From its great delicacy and purity, it is coming into extensive use as a diet for infants and invalids.

Blank's! Blank's! Blank's! DEEDS, SUMMONS, EXECUTIONS, SUBPENAS, AND JUDGMENT NOTES, of proper & desirable forms, for sale at the office of the "Star of the North."

GOOD MEDICINES.

AYER'S Cherry Pectoral, For the rapid Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

It is estimated the Ayer's Cherry Pectoral and Cathartic Pills have done more to promote the public health, than any other one cure. There can be no question that the Cherry Pectoral has by its thousands on thousands cured of Colds, Coughs, Asthma, Whooping Cough, Bronchitis, &c., very much reduced the proportion of deaths from Consumptive diseases in this country. The Pills are as good as the Pectoral and will cure more complaints.

Everybody needs more or less purging—Purge the blood from its impurities. Purge the bowels, Liver and the whole visceral system from obstructions. Purge out the diseases which fester on the body, to work its decay. But for disease we should die only of old age. Take anti-bilious and purgative from the system, before it is yet too strong to yield.

Ayer's Pills do thrust out disease, not only while it is weak but when it has taken a strong hold. Read the astounding statements of those who have been cured by them from Jaundice, Scrofula, Dropsy, Ulcers, Skin diseases, Rheumatism, Neuralgia, Dyspepsia, Internal pains, Bilious Complaints, Heartburn, Headache, Gout, and many less dangerous but threatening ailments, such as Constipation, Worms, Nervous Irritability, Loss of appetite, Irregularities, Dizziness in the head, Colds Fevers, Dysentery and indeed every variety of complaints for which a Purgative Remedy is required.

These are no random statements, but are authenticated by your own neighbors and your own Physicians.

Try them once, and you never will be without them.

Prepared by Dr. JAS. C. AYER, Practical and Analytical Chemist, Lowell, Mass.—and sold by E. P. Lutz and all Druggists in Bloomsburg, and by Dealers in Medicine everywhere.
