

THE BRITISH REVIEWS, AND BLACKWOOD'S MAGAZINE.

Great Inducements to Subscribe! Premiums and Reductions.

- L. SCOTT & CO., NEW YORK, CONTINUE to publish the following leading British Periodicals, viz: 1. THE LONDON QUARTERLY, (Continued.) 2. THE EDINBURGH REVIEW, (White.) 3. THE NORTH BRITISH REVIEW, (Free Church.) 4. THE WESTMINSTER REVIEW, (Liberal.) 5. BLACKWOOD'S EDINBURGH MAGAZINE, (Tory.)

These periodicals all represent the three great political parties of Great Britain—Whig, Tory, and Radical—but politics forms only one feature of their character. As Organs of the most profound writers on Science, Literature, Morality, and Religion, they stand, as they ever have stood, unrivalled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory view of the world's literature of the day, throughout the world, than can be possibly obtained from any other source.

EARLY COPIES. The receipt of Advance Sheets from the British publishers gives additional value to these Reviews inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

TERMS: Regular prices, per ann. For any of the four Reviews, \$3 00 For any two of the four Reviews, 5 00 For any three of the four Reviews, 7 00 For all four of the Reviews, 9 00 For Blackwood's Magazine, 3 00 For Blackwood and three Reviews, 9 00 For Blackwood and the four Reviews, 10 00 Payments to be made in all cases in advance. Money current in the State where issued will be received at par.

POSTAGE. The postage to any part of the U. S. will be but Twenty-four cents a year for "Blackwood" and but Fourteen cents a year for each of the Reviews.

As the above prices the periodicals will be furnished for 1858.

And as a Premium to New Subscribers, the numbers of the same periodicals for 1856, will be furnished complete, without additional charge.

Unlike the more ephemeral Magazines of the day, these Periodicals lose little by age. Hence, a full year of the numbers, with no omissions, for 1856, may be regarded nearly as valuable as for 1858.

Subscribers wishing also the Nos. for 1857, will be supplied at the following extremely low rates.

Table with 2 columns: Periodical Name, Price. Includes 'SPLENDID OFFERS FOR 1856, '57, & '58 TOGETHER' and individual issues for 1857 and 1858.

As we shall never again be likely to offer such inducements as these here presented, now is the time to subscribe.

Remittances must, in all cases, be made direct to the publishers, for at these prices no commission can be allowed to agents.

Address, LEONARD SCOTT & CO., No. 54 Gold Street, New York.

TO MECHANICS, INVENTORS & MANUFACTURERS.

In announcing the THIRTEENTH annual volume of the Scientific American, the publishers respectfully inform the public that in order to increase and stimulate the formation of clubs, they propose to offer

ONE THOUSAND FIVE HUNDRED DOLLARS IN CASH PREMIUMS for the fifteen largest lists of subscribers sent in by the 1st of January, 1858; said premiums to be distributed as follows:

For the largest list, \$300; 2d, \$250; 3d, \$200; 4th, \$150; 5th, \$100; 6th, \$90; 7th, \$80; 8th, \$70; 9th, \$60; 10th, \$50; 11th, \$40; 12th, \$35; 13th, \$30; 14th, \$25; 15th, \$20.

Names of subscribers can be sent in at different times and from different Post Offices. The cash will be paid to the orders of the successful competitors, immediately after the 1st of January, 1858.

Southern, Western and Canada money will be taken for subscriptions. Canadian subscribers will please to remit Twenty-six cents extra on each year's subscription to pre-pay postage.

Terms of Subscription—Two dollars a year. One Dollar for six months, for six months, Club Rates—Five copies, for six months, \$5; Ten copies, for six months, \$8; Ten copies for twelve months, \$15; Twenty copies, for 12 months, \$28.

The general character of the Scientific American is well known, and, as heretofore, it will be chiefly devoted to the promulgation of information relating to the various Mechanical and Chemical Arts, Manufactures, Agriculture, Patents, Inventions, Engineering, Mill Work, and all interests which the light of Practical Science is calculated to advance.

It is issued weekly, in form of binding; it contains annually from 500 to 600 finely executed Engravings, and notices of American and European Improvements, together with an Official List of American Patent Claims published weekly in advance of all other papers.

It is the aim of the Editors of the Scientific American to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid fearlessness in combating and exposing false theories and practices in Scientific and Mechanical matters, and thus preserve the character of the Scientific American as a reliable Encyclopedia of Useful and Entertaining Knowledge.

Specimen copies will be sent gratis to any part of the country. MUNN & CO., Publishers and Patent Agents, No 128 Fulton St., New York. Sept. 1, 1857.

IMPORTANT DISCOVERY. CONSUMPTION, AND ALL DISEASES OF THE LUNGS.

AND THOAT are positively curable by inhalation, which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, truly the only effect of a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health.

To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. in the second; and in the third stage it is possible to save more than five per cent. for the lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering invalid, and the fatal disease, which annually destroys ninety five thousand persons in the United States alone; and a correct calculation shows that out of the present population of the earth, eight millions are destined to fill the consumptive's grave.

Truly the only effect of a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. in the second; and in the third stage it is possible to save more than five per cent. for the lungs are so cut up by the disease as to bid defiance to medical skill.

By the help of that Supreme Being, from whom cometh every good and perfect gift, am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect, produced by their deposition in the lungs, is to prevent the free admission of air into the air cells, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from remedies entering the cavities of the lungs than from those administered through the stomach; the patient will breathe the pure air and the breathing easy after inhaling remedies. Thus, inhalation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than medicines administered by the stomach. To prove the power of this direct mode of treatment, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours.

The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood, conveying a proof of the constitutional effects of inhalation; is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs, will produce the most happy results? Have not eight hundred persons, many thousands, suffering from diseases of the lungs and throat, had been under my care, and I have effected many remarkable cures, even after the sufferer has been pronounced in the last stages, which fact satisfies me that consumption is no longer a fatal disease.

My treatment of consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to direct the patient in the most judicious manner, and to apply the proper remedies rarely being mistaken even in a single case. This familiarity in connection with certain pathological and microscopic discoveries, enables me to relieve the most distressing cases of consumption, to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system.

Medicines with full directions sent to any part of the United States and Canada by sending the name of the disease and the symptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and enable me to prescribe with greater certainty, and then the cure could be effected without any returning the patient again.

OF A CALL TO THE FASHIONABLE AND OPERATORS. THE undersigned having just received the latest Paris and New York Fashions, would again beg leave to inform his numerous friends and all the world about Bloomsburg, that he is now better prepared than ever to accommodate any one with the newest and best fitting suits of Clothes that have been turned out lately; and not only that, but he will also do them up in the best manner, and at the lowest terms.

His shop is at the old stand, (too well known to need further notice) where he may at all times be found, seated upon the bench of repentance, steadily drawing out the threads of affliction, hoping it may in the end prove advantageous to him and his customers. He would also advise his friends to bear in mind that poor, neglected tailors must live, or they can't be expected to work. Therefore Wheat, Rye, Corn, Oats, Potatoes, and with all now and then a little CASH would come mightily handy from those who are back-standing on the books. Remember, gentlemen, that in all cases "the laborer is worthy of his hire." BARNARD RUPERT, Bloomsburg, Jan. 13th, 1858.

BLANKS! BLANKS! BLANKS!! DEEDS, SUMMONS, EXECUTIONS, SUBPENAS, AND JUDGMENT NOTES, of proper & desirable forms, for sale at the office of the "Star of the North."

Ayer's Cherry Pectoral. OF ALL DISEASES, the great first cause Springs from neglect of Nature's laws. SUFFER NOT, WHEN A CURE is guaranteed in all stages of SECRET DISEASES, SELF-ABUSE, NERVOUS Debility, Stricture, Gleet, Gravel, Diabetes, Diseases of the Kidneys and Bladder, Mercurial Poisoning, Scrofula, Pains in the Bones and Ankles, Diseases of the Lungs, Throat, Nose and Eyes, Ulcers upon the body or limbs, Cancer, Dropsy, Eclipsitic Fits, St. Vitta's Dance, and all diseases arising from a derangement of the Sexual Organs.

Such as nervous trembling, loss of memory, loss of power, general weakness, dimness of vision with peculiar spots appearing before the eyes, loss of sight, wakefulness, dyspepsia, Liver disease, eruptions upon the face, pain in the neck and head, female irregularities and all improper discharges from both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians and resisted all the means of cure. The medicines are pleasant without odor, causing no sickness and free from mercury or balsam. During 20 years of practice, I have rescued from the jaws of death many thousands, who, in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place any confidence in me, a perfect and most speedy cure. Secret diseases are the greatest enemies to health, as they are the first cause of Consumption, Scrofula and many other diseases, and should be a terror to the human family. As a permanent cure is scarcely ever effected, the majority of the cases falling into the hands of incompetent physicians, who not only fail to cure the disease but ruin the constitution, filling the system with mercury, which, with the disease, has the effect to induce a rapid consumption.

But should the disease of the treatment, not cause death speedily and the victim marries, the disease is entailed upon children, who are born with feeble constitutions, and the current of life corrupted by a virus which will be detected in their blood, and will eventually affect other affections of the skin, Eruptions, Throat and Lungs, entailing them to an early grave.

Self-abuse is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive an injury to the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the Nervous system, rapidly wastes away the energies of the mind, deranges the system, prevents the proper development of the human faculties for marriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims, self-abuse can be effected, and with the abandonment of ruinous practices my patients can be restored to robust, vigorous health.

The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious snarers in the columns of the public prints to catch and rob the unwary sufferers that millions have their constitutions ruined by the use of the various quack doctors, or the equally poisonous nostrums of the humbug Medicines. I have carefully analyzed many of the so called Patent Medicines and find that nearly all of them contain Corrosive Sublimates, which is one of the strongest poisons, which instead of curing the disease disables the system for life.

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons, who do not understand even the slightest of the Materia Medica, and are equally as destitute of any knowledge of the human system, having one object only in view, and that to make money regardless of consequence.

Irregularities and all diseases of males and females treated on principles established by 30 years of practice, and which have effected the most remarkable cures. Medicines with full directions sent to any part of the United States or Canada, by patients communicating their symptoms by letter. Business correspondence strictly confidential. Address, J. SUMMERVILLE, M. D., Office No. 1131 Filbert Street, (Old No. 109) below Twelfth, Philadelphia, January 13, 1858.

EVANS & WATSON'S Phila Manufactured SALAMANDER SAFES; No. 26 South Fourth Street PHILADELPHIA. TRUTH IS MIGHTY, & MUST PREVAIL. Report of the Committee appointed to superintend the burning of the Iron Safes at Reading, Feb. 27th, 1857.

Reading, March 4th. The undersigned, members of the Committee, do respectfully report, that we saw the two Safes originally agreed upon by Farrel & Herring and Evans & Watson, placed side by side in a furnace, viz: The safe in use by the Pennsylvania and Reading Railroad Company, and the safe in use by the Committee and sent to H. A. Lantz's store for public examination, after they were first examined and marked by the Committee. The books and papers taken from the safe manufactured by Evans & Watson were not at all affected by the intense heat, while those taken from the safe manufactured by Farrel & Herring were, in our judgment, damaged fully fifteen per cent. more than those taken from Evans & Watson's Safe.

JACOB H. DYSSER, DANIEL S. HUNTER. Having been absent during the burning, we fully coincide with the above statement of the condition of the papers and books taken out of the respective Safes.

G. A. NICOLS, H. H. MUEHLBERG, JAMES MILEHOLLAND. The following named gentlemen, residents of Reading and its vicinity, who saw the above fire, have purchased Safes from Evans & Watson since the burning up to May 1st, 1857.

Solomon Rhoads, 2 W. B. Yergler, 1 H. A. Lantz, 2 Geo. K. Levere, 1 Kirk & Heister, 1 Samuel Fasing, 2 W. Rhoads & Son, 1 J. M. G. W. Hantech, 1 H. W. Meisner, 1 James Jameson, 1 Dr. Wm. Moore, 1 A. Eckert, 1 W. C. & P. M. Ermen, 1 Isaac Ruth, 1 trout, 1 Billmeyer, Folmer Wm. Donahower, 1 & Co. 1 Bullitt & Milton, 1 EVANS & WATSON. January 13, 1858.

T. KINGSFORD & SON'S OSWEGO STARCH, (FOR THE LAUNDRY.) HAS established a greater celebrity than it has ever been obtained by any other Starch.

This has been the result of its marked superiority in quality, and its invariable uniformity. The public may be assured of the continuance of the high standard now established. The production is over Twenty Tons daily, and the demand has extended throughout the whole of the United States, and to foreign countries.

Working thus on a very large scale, and under a rigid system, they are able to secure a perfect and uniformity in the quality throughout the year. This is the great desideratum in Starch-making, and is realized now for the first time.

The very best starch that can be made, and no other, is always wanted by consumers, and while this will be supplied to them by the grocers, as soon as their customers have learned that it is the best, and ask for it—otherwise they would be likely to get that article on which the largest profit can be made.

Mr. Kingsford has been engaged in the manufacture of starch continuously for the last 27 years, and during the whole of the period, the starch made under his supervision has been beyond any question, the best in the market. For the first 17 years, he had the charge of the works of Wm. Colgate & Co., at which period he invented the process of the manufacture of corn starch.

OSWEGO STARCH, as the name implies, has recently been taken by another factory. T. KINGSFORD & SON'S OSWEGO CORN STARCH, (For Paullings, &c.) Has obtained an equal celebrity with their Starch for the Laundry; this article is perfectly pure, and is, in every respect, equal to the best Bermuda Arrow-Root, besides having additional qualities which render it invaluable for the desert.

Potato Starch has been extensively packed and sold as Corn Starch, and has given false impressions to many, as to the real merits of our Corn Starch.

From its great delicacy and purity, it is coming also into extensive use as a diet for infants and invalids. E. N. KELLOGG & CO., Agents, 196 Fulton Street, N. Y. ALLEN & NEEDLES, Agents, 23 South Wharves, Philad'a. January 13, 1858.

Leather, Leather! Leather! HENRY W. OVERMAN, IMPORTER OF FRENCH CALF SKINS and General Leather Dealer, No. 6 South Third Street, Phila. A general assortment of all kinds of Leather, Morocco, &c. &c. RED AND OAK SOLE LEATHER. February 28, 1857-ly.

HERRING'S CHAMPION! THE recent trial at Reading has endeared the name of Herring's Patent Champion, and confirmed the verdict of more than 200 accidental fires, proving conclusively that "Herring's" is the only safe that will not burn.

Extract from the Committee's Report on the Trial of Safes at Reading: "On the 26th of February all the members of the Committee met to witness the Safes and books and papers, (placed in them) and were perfectly satisfied that it was right. The following is the burning took place, under the superintendence of the Committee. After a fair and impartial burning for five hours, the safe of Messrs. Evans & Watson was first opened, the safe being on fire inside, and the contents partially consumed, while the contents in the safe of Messrs. Farrel & Herring were in good condition and no fire inside."

Reading, March 2, 1857. H. F. FELIX, H. A. PEACOCK, Com. (Signed) P. N. COLLEMAN, Com. And endorsed by over 50 of the best men of Reading.

The above Safes can be inspected at 54 Walnut Street, where the public can satisfy themselves of the great superiority of the Herring's Patent Champion over the defective and used-up "inside Iron Door Safemander."

FARRELS & HERRING, 34 Walnut St., Philad'a. Only makers in this State of Herring's Patent Champion Safes.

The attempt made by other parties to bolster up the reputation of a safe which has failed since its trial in Reading, Philadelphia, (Ranstead Place,) by taking one out of an agent's store, (H. A. Lantz,) made double thickness (differing from those they sell) to "burn up" one of Herring's, (half as thick) to get with its true reward. Herring's Safe could not be burnt, proving conclusively that the only reliable safe now made is Herring's, of which over 15,000 are now in actual use, and more than 200 have been tried by fire without a single loss.
