## IMPORTANT DISCOVERY.

CONSUMPTION, AND ALL DISEASES OF THE LUNGS

And THOATT are positively curable by inhalation, which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectorsition, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any atter formidable disease; inhely out of every hundred cases can be cured in the first stages, and fifty per cent, in the second; but in the third stage it is impossible to save more than five pet cent, for the lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attending this fearful scourge, which annually destroys ninety five thousand persons in the United States alone; and a correct calculation shows that out of the present population of the earth, eighty millions are destined to fill the consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful, and the gifted.—

By the help of that Supreme Being, from whom cometh every good and perfect gift, and enabled to offer to the affleted a permanent and speedy cure in Consumption. The first cause of toburcles is from impure blood, and the immediate effect, produced by their deposition in the lungs, is to prevent the free admission of air into the sire cells, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs than from those administered through the somarch, the praid of the patient will always find the lungs free and the breathing easy after inhaling r

to the entire system.

Medicines with full directions sent to any part of the United States and Canadas by patients communicating their symptoms by tetter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and enable me to prescribe with greater certainty, and then the cure could be effected without my seeing the patient again.

CROUP, ASTHMA, AND
CONSUMPTION.

For the rapid cure of coughs, colds, hoarseness, bonchutis, whooping cough, asthma and consumption, is universally known as the best remedy ever yet discovered for every variety of pulmonary disease. So wide is the field of its usefulness and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues ase known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incedent to our climate. By its timely use many, nay almost any attacks of disease upon the Lungs or throat, are arrested and thus are saved many thousands every year from a premature grave. No family should be without it, and those who do neglect to provide themselves with a remedy which wards off this dangerous class of diseases will have cause to deplore it when it is too late.—
Proofs of the surprising efficacy of the Cherry Pectoral need not be given to the American people,—they have living proofs in every neighborhood. But those whoe wish to read the statements of those whose whole health has been restored and whose lives have oeen saved by its use, will find them im my American Almanac which the agent below mamed has to furnish gratis for every one. Of all disease; the great, first cause Springs from neglect of Nature's law Springs from neglect of Nature's laws.

SUFFER NOT, WHEN A CURE is guaranteed in all stages of SECRET DISEASES, SELF-ABUSE, NERVOUS Debility, Strictures, Gleets, Gravel, Diabetes, Direases of the Kidneys and Bladder, Mercurial Rheumaiism, Scrofola, Pains in the Bones and Ankles, Diseases of the Lungs, Throat, Nose and Eyes, Ulcers upon the body or timbs, Cancers, Dropsy, Edileptic Fits, St. Vita's Dance, and all diseases sristing from a derangement of the Sexual Organs.

Fits, St. Vita's Dance, and all diseases arising from a derangement of the Sexual Organs.

Such as nervous trembling, less of memory, loss of power, general weakness, dimness of vision with peculiar spots appearing before the eyas, loss of sight, wakefulness dysnepsia, Liver disease, eruptions upon the face, pain in theback and head, female irregularities and all improper discharges from both sexes. It matters not from what cause the disease originated, however long standing or obstitute the case, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians and resisted all the means of cure. The medicines are pleasant without odor, causing Losickness and free from mercury or balssm. During 20 years of practice, I have rescued from the jaws of death many thousands, who, in the last stages of the above mentioned diseases had bean given up to die by their physicians, which warrants me in promising to the sfillieted, who may place themselves under my care, a perfect and most speedy cure. Secret diseases are the greatest enemies to health, as they are the first cause of Consumption, Scroftula and many other diseases, and should be a terror to the human family. As a permanent cure is searcely ever effected, a majority of the cases falling into the hands of incompetent persons, who not only fail to cure the diseases but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid consumption.

But should the disease and the treatment not cause death speedily and the victim marries, the disease is entailed upon children, who are born with feeble constitutions, and the current of life corrupted by a virus which betarys itself in Scrofula, Tetter, Utcers, Eruptions and other affections of the skin, Eyes, Throat and Lungs, entailing them to an early grave.

tions and other affections of the skin, Eyes, Throat and Lungs, entailing them to an early grave.

Self-abuse is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering d.wn to an untimely grave. It destroys the Nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death train of evils more to be dreaded than death trail for the time of the confidence I assure the unfortunate victims of self-abuse that a permanent and speedy cure can be effected, and with the abandonment of rulinous practices my patients can be restored to robust, vigorous health.

The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious snares in the columns of the public prints to catch and rob the unwary sufferers that millions have their constitutions rulned by the vile compounds of quack doctors, or the equally poisonous nostrums x need as Patent Medicines. I have carefully analyzed many of the so called Patent Medicines and find that nearly all of them contain Corrosive Sunlimate, which is one of the strongest preparations of mercury and a deadly poison, which instead of curing the disease disables the system for life.

tions of mejcury and a deadly poison, which instead of curing the disease disables the system for life.

Three-fourths of the patent nortrums now in use are put up by unprincipled and ignorant persons, who do not understand even the alphabet of the Materia Medica, and are cqually as destitute of any knowledge of the human systems having one object only in, view, and that to make money regardless of consequence. Irregularities and all diseases of males and females treated on principles established by 30 years of practice, and sanctioned by thousands of the most remarkable cures. Medicines with full directions sent to any part of the United States or Canadas, by patients communicating their symptoms by letter. Business correspondence strictly confidential. Address

\*\*The undersigned, members of the Committee, do respectfully report, that we saw the wo Safes originally agreed to pon by Farels & Herring and Evans & Watson, placed side by the supplied to them by its grocers, as soon as their customers have arread which is the best, and ask for its where so its standard to the stare in the set of the committee of the stare in the star in the set of the committee of the stare in the set of the committee of the stare in the set of the committee of the stare in the star in the set of the committee of the stare in the star in the set of the committee of the star in the star in the set of the committee of the star in the star in the set of the committee of the star in the star in the set of the committee of the star in t were entirely consumed, the whole under the superintendence of the subscribers, members of the Committee. The Safes were then cooled off with water, after which they were opened, agd the books and papers taken out by the Committee and sent to H. A. Lantz's store for public examination, after they were first examined and marked by the Committee. The books and papers taken from the Safe manufactured by Evans & Watson were but slightly affected by the intense heat, while those taken from the Safe manufactured by Farrels & Herring were, in our judgment, damaged fully fifteen per cent. more than those taken from Evans & Watson's Safe.

JACOB H. DYSHER. Having been absent during the burning we fully coincide with the above statement of the condition of the papers and books taken out of the respective Safes.

G. A. NICOLLS, H. H. MUHLENBERG, JAMES MILHOLLAND.

The following named gentlemen, residents of Reading and its vicinity, who saw the above fire, have purchased Safes from Evans & Watson since the burning up to May 1st.

HERRING'S THE ACKNOWLEDGED CHAMPION!!

THE recent trials at Reading have endorsed the cure rent of public ognition, and confirmed the verdict of more than 200 accidental fires, proving conclusively that "Herring's" is the only safe that will not barm. Extract from the Committee's Report on the Trial of Iron Safes at Reading: Extract from the Committee's Report on the Trial of Iron Safes at Reading:

"On the 26th of February all the members of the Committee met to winness the Safes and books and papers, (placed in them) and were perfectly satisfied that all was right.—
The day following, the burning took place, under the superintendence of the Committee.
After a fair and impartial burning for five hours, the Safe of Messrs. Evans & Watson was first opened, the Safe being on fire inside, and the contents partially consumed, while the contents in the Safe of Messrs. Farrels & Herring were in good condition, and no fire inside."

And endorsed by over 50 of the best men of Reading.

The above Safes can be inspected at 34 Walnut Street, where the public can satisfy themselves of the great superiority of the "Herring's Patent Champion," over the defeated and used-up "inside Iron Door Salamander."

The attempt made by other parties to bolster up the reputation of a Safe which has failed signally in accidental fires in Philadelphia, (Ranstead Place,) by taking one out of an agent's store, [H. A. Lentz.] made double thickness, (different from those they sell) to 'burn up' one of Herring's, (half as thick) has met with its true reward. Herring's Sale could not be burnt, proving conclusively that the only reliable Safe now made is Herring's, of which over 15,000 are now in actuel use, and more than 200 have been tried by fire without a single loss.
