NEW YORK EXCE LIOR, is a first class Family Journal, beaulifully Illustra-tod, of the largest size—eight pages, or forty col-umns, imperial quarto and is devoted to Literature News, Morais, and General Miscellany. The editorial department will be under the immediate supervision of Alexander D. Munson, who is widely known to the public as having been connected with several of the most popular jour-nels of the day.

rho is widely known to the public as having been connected with several of the most popular jour-nais of the day. Although giving a handsome present to each sub-eriber, intending to surpass all in our tiberality, we are determined that the "Excelsor" shall not resemble those journals usually known as "gift papers," in any particular. Its contents shall be suitable for *Home*, as our aim is to accure it a wel-come in every family. We shall fail our columns weekly with interesting and thrilling tales, romon-ces of real life, and sketches of travels, men and character, besides a full digest of the news of the week, and all events of general interest, men and character, besides a full digest of the news of the week, and all events of general interest, men and character, besides a full digest of the news of the week, and all events of general interest, men and character, besides a full digest of the news of the week, and all events of general interest, men and character, besides a full digest of the news of the week, and all events of general interest, men and character, besides a full digest of the news of the week, and all events of general interest is not a geneleman's English hunting case. full geweled, gold watch with chain, worth "wo Superior Pianos, Resewood and Black

The odor of many of the medicines is per-ceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of iulualation, is the fact that sickness is always produced by breath-ing foul air. Is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the longs, should produce the most happy results Du-ting significant variables.

judiciously administered through the longs, should produce the most bappy results? Du-ring eighteen years' practice, many thous-ands, suffering from diseases of the lungs and throat, have been under my care, and I have affected many remarkable cures, even after the sufferers had been pronoanced in the last stages, which fully satisfies me that consumption is no longer a tatal disease.— My treatment of consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the patter of tubercles, &c., enables me to distinguish readily the varions forms of dis-ease that simulate consumption, and apply the proper remedies rarely being mistaken even in a single case. This familiarity in connection with certain pathological and mi-croscopic discoveries, enables me to relieve the lungs from the effects of contracted cheets; to enlarge the chest, purify the blood, impart to it renewed vigativy giving energy and tone to the entire system.

to it renewed viality, giving energy and toue to the entire system. Medicines with full directions sent to any part of the United States and Canadas by patients communicating their symptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give me an opportunity to examine the lungs and enable me to prescribe with greater certainty, and then the cure could be effected without my seeing the patient again. The Grad Substitute for Tobacco. It is a well known and incontrovertable fact that the use of Tobacco is the promoting cause of many of the most severe Mental and Physical Disorders to which the race of man is subject, as careful analysis and long and painful experience have clearly proven that it contains certain norcotic and poison-ous properties most dangerous in their eff-ects, which by entering into the blood der-ange the functions and operations of the Heart, causing many to suppose that organ to be seriously diseased. Tobacco affects also the entire nervous system, manifesting iteelf—as all who have ever used the noxious weed will bear testi-mony—in lassinde, Nervous Irritability, Water Brash, Dyspepsia, and many other disorders of a similar character.
