Best Time for Transplanting.

With every returning Fall and Spring, the question arises: Which, on the whole, is the best season for transplanting? We do not propose, now, to discuss the question at length, but merely to state a few general principles.

Before planting, the question to be considered first, is the nature of the soil into which our trees are to be set. If it is wet, and cannot easily be made dry by draining and trenching, then in that case, assuredly, Fall planting is not the best. Trees set in such soil in Autumn, get but a slight hold of the earth before Winter sets in The stagnant water at the roots not only cankers them, but by alternate freezing and thawing, leaves them out and exposes them to the air. And when all this does not occur, the stem of the tree is swayed about in the soft earth, making a hole around it for the descent of air to the roots. When spring opens, such a tree, if alive, is in a poor condition to make a vigorous growth. If trees must be planted in such soil—which, by the way, we must question—the best way would be to wait until Spring, or to dig them up in the Fall, "heel them in" in some dry and shelter spot for the Winter, and set them out as soon as Spring fairly opens.—But we must say that, considering the many kinds of diseases to which all kinds of trees are subject, we would go without trees—fruit trees, certainly—rather than set them in a cold wet soil that cannot be reclaimed. Would it not be better still to sell the uncongenial land, and buy better if draining cannot be effected?

The same general principle would apply in the case of planting upon an exposed and bleak site. Trees set out in the Fall, on such land, would be likely to get lashed about or blown over by the winds of Winter, before getting established. Set out in April, the roots would get a pretty firm hold before Autumn came around, and would sustain the tree in its place.

HORRIBLE STATISTICS.—Every now and then some person who is anxious to create a sensation, manages to place before the public whole rows of figures of the most startling import. The latest experiment which we have seen in this line, is to be found in the last number of the *Water Cure Journal*. The editor is constitutionally opposed to the medical profession, and only believes in killing people by pouring cold water down their backs—wrapping wet cloths around their bodies, and in general, making them perform the part of a sponge and suck in immense quantities of fluid.—This editor says that 5.25 people out of every hundred in the country (our town, of course, included) are poisoned, and gives the following calculations in proof:—30 per cent. of all the children born in the United States are hereditarily diseased, caused, in a large degree by the drugging and poisoning of their parents. 80 per cent. of all the children born are drugged, poisoned before they are five years old, drugged by the doctors. 95 per cent. of the whole population are drugged, poisoned by doctors. 40 per cent. is, additionally to the drug poisoning by doctors, poisoned by *tobacco* 50 per cent. in addition to these are poisoned by *tea*. 45 per cent. in addition to the drugs, tobacco and tea, poisoned by *coffee*. 90 per cent. in addition to the drugs, tobacco, tea and coffee, poisoned by the *fresh* meats. 60 per cent. at least poisoned by bad air. 10 per cent. at least poisoned by patent med cines. 25 per cent. poisoned by alcholoic drinks

EVIL OF A BAD TEMPER.—A bad temper is a curse to the possessor, and its influence is most deadly wherever it is found. It is allied to martyrdom to be obliged to live with one of a complaining temper. To hear one eternal round of complaint and murmuring to have every pleasant thought scared away by their evil spirit, is a sore trial. It is like the sting of a scorpion—a perpetual nettel, destroying your peace, rendering life a burden. Its influence is deadly; and the purest and sweetest atmosphere is contaminated into a deadly miasma wherever this evil genius prevails. It has been said truly, that while we had not ought to let the bad temper of others influence us, it would be as unreasonable to spread a blister upon the skin, and not expect it to draw, as to think of a family not suffering because of the bad temper of any of its inmates. One string out of tune will destroy the music of an instrument otherwise perfect; so if all the members of a church, neighborhood, and family, do not cultivate a kind and affectionate temper, there will be discord and very evil work.

COOL RASCALITY.—In Cincinnati, a few days since, two sharpers accosted a countryman, stopping at one of the hotels, and stating they were detectives, declared that he was suspected of dealing in counterfeit money. The rualist asserted his entire innocence; but they said they would search him, and took him into a private room, when they found $108 in good money. One went to consult a detective concerning the bank notes, and remained away so long that his companion also departed in search of the delayer. Of course neither returned, and the rural and unsophisticated fellow learned too late that he was victimized.

BUSINESS REVIVING.—Since the commencement of the financial crisis, manufacturing in Taunton has been at a low ebb, but we are happy to state that there is now a prospect of revival in business. Fairbanks and Mason's establishments have obtained contracts for large amounts of work, and the Whittendon Mills, at which pantaloonery is manufactured, and which have been closed during the past year will again resume operations. About one-half the usual number of workmen are now employed in the different manufacturing establishments, but it is expected that something of an approach to the old force will shortly be called for.—*N. The Great AMBASSADOR of HEALTH.
TO ALL MANKIND.

HOLLOWAY'S PILLS.

A BOON TO THE SICK?

The want of a sterling medicinal to meet the ills and necessities of the suffering portion of humanity, and one entirely free from mineral and other deleterious particles, was severely felt till this all powerful medicine was ushered into the world; Holloway's Invaluable Pills have become the household remedy of all nations. Their attribute is to prevent as well as to cure; they attack the radix or root of the complaint, and thus by removing the hidden cause of disease reinvigorate and restore the drooping energies of the system, assisting nature in her task of vital and functionary reformation.

DYSPEPSIA.

The great scourge of the continent yields quickly to a course of these antiseptic Pills, and the digestive organs are restored to their proper tone; no matter in what hideous shape this hydra of disease, exhibits itself, his searching and un[illegible] remedy disperses it from the patient['s system].

GENERAL DEBILITY AND WEAKNESS.

From whatever cause, lowness of spirits and all other signs of a diseased liver, and other disorganization of the system, vanish under the eradicating influence of this all powerful antiseptic and detergent remedy.

BILIOUS DISORDERS.

The [illegible] quantum and right condition of the bile is momentous importance to the health of the human frame, this anibilious medicine expels the hidden seeds of the complaint, and renders all the fluids and secretions pure and fluent, cleansing and resuscitating the vital functions of the body.

SICKLY FEMALES.

Should lose no time in trying a few doses of this regulating and renovating remedy, whatever may be their complaint, it can be taken with safety in all periodical and other disorganizations its effect is all but miraculous.

UNREFUTED PROOF.

The testimony of Nations is unanimously born to the health-giving virtues of his noble remedy, and certificates in every living language bear witness to the undeniableness of their intrinsic worth.

Holloway's Pills are the best remedy known in the world for the following diseases:

Asthma,	Headaches,
Bowel Complaints,	Indigestion,
Coughs,	Influenza,
Colds,	Inflamation,
Chest Diseases,	Inward Weakness,
Costiveness,	Liver Complaints,

TOBACCO CHEWERS.
DR. GUSTAV LINNARD'S
TASTE RESTORATIVE TORCHES,
The Great Substitute for Tobacco.

It is a well known and incontrovertable fact that the use of Tobacco is the promoting cause of many of the most severe Mental and Physical Disorders to which the race of man is subject. as careful analysis and long and painful experience have clearly proved that it contains certain noxious and poisonous properties most dangerous in their effects, which by entering into the blood derange the functions and operations of the Heart, causing many to suppose that organ to be seriously diseased.

Tobacco affects also the entire nervous system, manifesting itself—as all who have ever used the noxious weed will bear testimony—in lassitude, Nervous Irritability, Water Brash, Dyspepsia, and many other disorders of a similar character.

The taste Restorative Troches are designed to counteract these baneful influences, and have proved completely successful in a multitude of cases, and whenever used.—Being harmless in themselves they exert a beneficial effect upon the entire system, restoring the Taste which has become vitiated or destroyed by great indulgence, completely removing the irritation and accompanying tickling sensation of the Throat—which are always consequent upon abstaining from the use of Tobacco, and by giving a healthy tone to the stomach, invigorate the whole system.

Persons who are irrrievably undermining their constitutions and shortening their lives, should use these Troches immediately and throw of the injurious and unpleasant habit of Tobacco Chewing.

These Troches or Lozengers are put up in a convenient and portable form at the low price of 50 Cents per Box. A liberal discount to the Trade.

SAAMANDER SAFES;

No. 26 South Fourth Street
PHILADELPHIA.

TRUTH IS MIGHTY, & MUST PREVAIL.

Report of the Committee appointed to superintend the burning of the Iron Safes at Reading, Feb. 27th, 1857.

READING, March 4th.

The undersigned, members of the Committee, do respectfully report, that we saw the two Safes originally agreed upon by Farrels & Herring and Evans & Watson, placed side by side in a furnace, viz: The Safe in use by the Paymaster of the Philadelphia and Reading Railroad Company, in his office at Reading, manufactured by Farrels & Herring, and the Safe in use by H. A. Lantz, in his store, manufactured by Evans & Watson, and put in books and papers precisely alike.

The fire was started at [illegible] o'clock, A. M., and kept up until four cords of green hickory, two cords dry oak and half chestnut top wood were entirely consumed, the whole under the superintendence of the subscribers, members of the Committee. The Safes were then cooled off with water, after which they were opened, and the books and papers taken out by the Committee and sent to H. A. Lantz's store for public examination, after they were first examined and marked by the Committee. The books and papers taken from the Safe manufactured by Evans & Watson were but slighlly affected by the intense heat, while those taken from the Safe manufactured by Farrels & Herring were, in our judgment, damaged fully fifteen per cent. more than those taken from Evans & Watson's Safe.

JACOB H. DYSHER,

Having been absent during the burning, we fully coincide with the above statement of the condition of the papers and books taken out of the respective Safes.

EVANS & WATSON.
June 23, 1858.

A card from Dr James M. JARRETT, OF THE NEW YORK LUNG INFIRMARY.—My connection for the past eight years with the above Institution, as Chief Physician, and a twelve years' course of steady devotion to the Cure of Pulmonary Consumption and its kindred disease, together with my unrivalled opportunities and advantages of pathological researches—aided not a little by a perfect system of *Medical Inhalation*—has enabled me to arrive at a decisive, direct, and successful course of treatment for the positive and radical cure of all diseases of the *Throat, Lungs*, and *Air-Passages*. By Inhalation, the vapor and curative properties of medicines are directly addressed to the diseased organs and the integument. I do not advise the use of medical Inhalation of any kind, to the exclusion of *general treatment*; and although I consider it a useful adjuvant in the proper management of those fearful and often fatal diseases, yet I deem it very necessary that each patient should have the benefit of both *general* and local treatment. The success of my treatment in the above diseases, and in the high character of the Institution over which I have so long had the honor to preside, are too well known to need any eulogy or comment from me. At the solicitation of many private and professional friends, through whose philanthropic aid the above charity has been long and liberally supported, and after due consideration, I have concluded to make such arrangements as will bring the benefits of my experience and treatment within the reach of all, and not confine myself, as heretofore, to those only who entered the Infirmary, or who were able to visit me at my office. Hoping therefore that the arrangement will give entire satisfaction, both to my professional brethern and the public, I would respectfully announce in connection that *I can be consulted personally or by letter*, on all diseases as above, and that the medicines, the same as used in the Institution: prepared to suit each individual case. *Inhaling vapors, Medical Inhales*, &c. &c. will be forwarded by express to any part of the United States or Canadas. TERMS.—My terms of treatment by letter are as follows, viz.: $12 per month for each patient, which will include medicine sufficient for one month's use; also, Inhaling Vapor, and an Inhaling Apparatus. Payments as follows: $6 to paid to Express Agent on receipt of the box of Medicine, and the balance $6 at the expiration of the month, if the patient is cured or is entirely satisfied with the treatment. Patients, by giving a full history of their case, and their symptoms in full, can be treated as well by letter as by personal examination. Patients availing themselves of Dr. Jarrett's treatment may rely upon immediate and permanent relief, as he seldom has to treat a case over thirty days. Letters of advice promptly answered. For futher particulars address.

JAMEL M. JARRETT, M. D.,
No. 820 Broadway, cor. Twelfth St. N. Y.

P. S.—Physicians and others visiting the city are respectfully invited to call at the Infirmary, where many interesting cases can be witnessed, and where our *approved apparatus* for the inhalation of medicated vapor can beseen and inspected.
