MISS JANE WILSON has opened a new millinery shop in rooms directly under our office, where she has on hand a most handsome lot of millinery goods, which will bear close inspection and suit the taste of the most fastidious. We invite particular attention to her assortment, as it is the most complete and choice selection of goods of this kind that has been seen in this place for some time. Success to the new enterprise.

SMALL BUSINESS -The Berwick Gazette has, we observe, been making rather too free use of our editorial and first page columns, by copying articles and forgetting to credit them. There are several others who, if they are not careful, will cause our "dutch to rise."-Manayunk Star.

West Branch Canal.—The water is now in the canal, and the boating boys are busy. They appear, generally, to anticipate a brisk season. The line of packets owned by Messrs. scroiula, or king's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The serofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and fifthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children muto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is tormed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of like, so that serofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not serofulous fit heir nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lunking infection, and their health is undermined by it. To cleanse it from the system we must removate the blood by an alterative medicine, and invigorate it by healthy food and exercise.
