

STAR OF THE NORTH.

LUCK AND PLUCK. Every community has its "lucky" man. The boys in the streets know him, and point him out as he passes, the admiring crowd lift their hats to him, the unsuccess-ful envy and perhaps traduce him. Success seems natural to him. If he was not born with a gold spoon in his mouth, he has long since exchanged his wooden one for his Every thing he touches seems to turn to his advantage. That farm he bought a few years since, would now sell for double the money. If there is but one good crop raised in the town, you will be sure to find it in his fields; and then what prices his produce always brings him. Depend upon it, there's something in it, 'he's a lucky man." This is the outside view, and a most pernicious one. Let a man "curse his stars," complain of his hard fate, and sigh and wait for luck; let him feel the conviction that success is something indefinite, uncertain, which may or may not follow efforts, as a kind of mysterious, uncontrollable chance may direct, and it is not difficult to predict his future. His stars will be unlucky; the golden comet with its splendid train of glorious results, for which he looks, will never be seen above his horizon.

The man of "luck" is a man of "pluck." We like that word. It is solid and yet elastic. It has a ring like steel. It tells of a man who does not know when he is conquered. If the backward spring disappoints his calculations for a large corn crop, he is sure to have a fine field of buckwheat; or if this fail, he rejoices in a follow ready for a notable yield of Winter grain. If debt presses heavily upon him, it but bends him more closely to his work. But more than all is the plucky man distinguished by venturing boldly when there is a probability that success may be attained. Scarcely a man of fifty years but remembers the time that success was within his reach, had he nerve enough to break from his old routine, and follow the opening; while many a one has been deterred from adhering to "old ways," good only in age. The cultivator especially, who hopes to succeed now, must have not only the energy which rises against opposition, and bear up under misfortunes, but also the enterprise which looks for and adopts improvements; and there never was a time when such enterprise had surer promise of success, for never before were improvements, both in the manner and implements of cultivation, more marked and abundant. The lucky man of to-day will be the lucky man ten years hence.—Am. Agriculturist.

PLANTING.—Should be done in May and June, but not in the winter, as is the opinion of some fruit growers. I will give some reasons for spring and summer planting.—If you cut off a limb of any size in the winter, the bark dies around the stump from which the limb was cut, and does not, for a long time, if ever, cover the stump; whereas, on the contrary, if cut off in May or June, when the sap is in full flow, it will go on to grow, and it not too large, cover the stump, the first year. The tree should be trimmed well out of the middle, so as to give the tree and fruit air; limbs that incline to grow straight out, should be cropped, or shortened, so as to give the tree an upward tendency. Trees should be trimmed up, so that a team of horses can work under them without barking the limbs; swing trees should be muffed so as to prevent barking the trees.

In cultivating trees, the earth should be thrown from them every other year; that is when you begin to plow your trees, begin in the middle of the rows, and when you get near the trees take out one of your horses and plow with a single horse, and thereby you can get very near the tree, and the earth you cannot throw from the tree with the plow, should be taken away with the hoe, and on the contrary, when you throw the furrow to the trees, it should be done with one horse. At least, two furrows should be thrown with one horse. The plowing should be deep so as the roots may find moisture in time of a drought.

The foregoing is the way that I have treated my trees, and every one who has seen them, says they are most flourishing, and the largest trees they have ever seen. I have a young orchard which I shall treat in the same way.—[R. SEMANS—Cecilton, February 18th, 1859.]

"CAN CORN FEED TO HOGS BE MADE TO PAY EAST OF OHIO?"—Corn fed to swine can be made to pay almost anywhere, by proper management. However fertile land may be, I do not believe you can farm it long without manure. Therefore, in feeding corn to hogs, have an eye to the manure. In fattening swine, the meat is one object and the manure is equally another. When pork is worth six cents per pound, you get seventy-five cents per bushel, in pork for your corn; and with proper management, you get, in the long run, seventy-five cents more in manure. Turn your pigs into your orchard up to the middle of August; then put them into the sty, with a good yard, into which throw turf, muck, leaves, sawdust, or anything to absorb the ammonia. Sawdust, usually wasted, is much more valuable than many imagine. When thrown into hog-yards or stables, it absorbs the ammonia, and forms a most valuable fertilizer.—HORSTUS STRAINS, in Genesee Farmer.

An exchange paper says that the girls in some parts of Pennsylvania, are so hard up for husbands, that they actually take up with Printers and lawyers. This is not the case at Bloomsburg, we're certain. A word of advice—Girls, shun printers and lawyers.

Mr. Pullet coming home late, "pretty full," finds the walk slippery, and exclaims:—"I've-very singular; w-when-when-ever the water freezes, it always fr-freezes with the slip-slippery side up. Ve-very singular, isn't it?"

Why is the letter K like a pigs tail? Answer: Because it ends in pork!

The Great AMBASSADOR OF HEALTH.

HOLLOWAY'S PILLS.

A BOON TO THE SICK! The want of a sterling medicinal to meet the ills and necessities of the suffering portion of humanity, and one entirely free from mineral and other deleterious particles, was severely felt till this all powerful medicine was introduced into the world; Holloway's Invaluable Pills have become the household remedy of all nations. Their attribute is to prevent as well as to cure; they attack the radical or root of the complaint, and thus by removing the hidden cause of disease reinvigorate and restore the drooping energies of the system, assisting nature in her task of vital and functional reformation.

THE GREAT SCOURGE OF THE CONTINENT yields to a course of these antiseptic Pills, and the diseases of the bowels are restored to their proper tone; no matter in what hideous shape this hydra of disease, exhibits itself, his searching and enervating remedy disperses it from the patient's system. GENERAL DEBILITY AND WEAKNESS. From whatever cause, lowness of spirits and all other signs of a diseased liver, and other disorganization of the system, vanish under the eradicating influence of this all powerful antiseptic and detergent remedy.

THE PROPER QUANTITY AND RIGHT CONDITION of the bile is of momentous importance to the health of the human frame; this antiseptic medicine expels the hidden seeds of the complaint, and renders all the fluids and secretions pure and fluent, cleansing and reconstituting the vital functions of the body.

Should lose no time in trying a few doses of this regulating and renovating remedy, whatever may be their complaint, it can be taken with safety in all periods and other disorganizations its effect is all but miraculous.

UNREFUTED PROOF. The testimony of Nations is unanimously born to the health-giving virtues of his noble remedy, and certifies in every living language of the world, to the undeniableness of the intrinsic worth of the medicine. Holloway's Pills are the best remedy known in the world for the following diseases: Asthma, Headaches, Bowel Complaints, Indigestion, Coughs, Inflammation, Chest Diseases, Inward Weakness, Costiveness, Liver Complaints, Dyspepsia, Lowness of Spirits, Diarrhoea, Piles, Dropsy, Stone and Gravel, Debility, Secondary Syphilis, Fever and Ague, Venereal Affections, Female Complaints, Worms of all kinds.

CAUTION.—None are genuine unless the words "Holloway, New York and London," are discernible as a water-mark in every leaf of the book of directions around each pot or box; the same may be plainly seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the name of the medicine, or sending the same, known them to be spurious.

HOWARD ASSOCIATION.

PHILADELPHIA. A Benevolent Institution established by special Endowment, for the Relief of the Sick and Distressed, afflicted with Venereal and Epidemic Diseases.

THE HOWARD ASSOCIATION, in view of the awful destruction of human life caused by Sexual diseases, and the deceptions practiced upon the unfortunate victims of such diseases by Quacks, several years ago directed their Consulting Surgeon, as a CHARITABLE ACT, only of their name, to open a Dispensary for the treatment of this class of diseases in all their forms, and to give MEDICAL ADVICE GRATIS to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.) and in cases of extreme poverty, to FURNISH MEDICINES FREE OF CHARGE. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors of the Association, in their Annual Report upon the treatment of Sexual Diseases, express the highest satisfaction with the success which has attended the labors of their Surgeons in the cure of Spermatorrhoea, Seminal Weakness, Gonorrhoea, Syphilis, the vice of Onanism or self-Abuse, Diseases of the Kidneys and Bladder, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort have been of great benefit to the afflicted, especially to the young; and they have resolved to devote themselves, with renewed zeal, to this very important and most despised cause.

An admirable Report on Spermatorrhoea or Seminal Weakness, the vice of Onanism, Masturbation, or Self-Abuse, and other diseases of the Sexual organs, by the Consulting Surgeon, will be sent by mail (in a sealed envelope.) FREE OF CHARGE on receipt of TWO STAMPS for postage. Other Reports and Tracts on the nature and treatment of Sexual Diseases, diet, &c., are constantly being published for gratuitous distribution, and will be sent to the afflicted. Some of the new remedies and methods of treatment discovered during the last year, are of great value.

Address, for report or treatment, DR. J. SKILLIN HOUGHTON, Acting Surgeon, Howard Association, No. 2 South Ninth Street, Philadelphia, Pa.

THE MIGHTY HEALER!

WORLD KNOWN AND WOULD TRIED, HOLLOWAY'S OINTMENT.

HOLLOWAY'S OINTMENT.

The free admissions of all nations, as well as the verdict of the leading Hospitals of the Old as well as the New World, stamp this powerful remedial Agent as the greatest healing preparator ever made known to suffering man. Its penetrative qualities are more than marvelous, through the external application it reaches the seat of the internal disease; and in all external affections its anti-inflammatory and healing virtues surpass anything else on record, and is Nature's great ally.

Erysipelas and Salt Rheum, are two of the most common and virulent disorders prevalent on this continent, to these the Ointment is especially antagonistic, its modus operandi is first to eradicate the venom and then complete the cure.

Cases of many years standing that have pertinaciously refused to yield to any other remedy or treatment, have invariably accumulated to a few applications of this powerful agent.

ERUPTIONS ON THE SKIN. Arising from bad states of the blood or chronic disease are eradicated, and a clear and transparent surface regained by the restorative action of this Ointment! It surpasses many of the cosmetics and other toilet appliances in its power to dispel drosses and other disfigurements of the face.

PILES AND FISTULA. Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emollient; and all hemorrhages should precede its application. Its healing qualities will be found to be thorough and invariable.
