# STAR OF THE NORTH.

## Hungarian Grass.

We published an article a few weeks since stating that this grass had the resemblance of Millet, but it appears from a circular addressed to the officers and members of the County Agricultural Society of Monroe co, Iowa, that the Hungarian grass resembles Millet no more than Bald Wheat resembles Rye, Oats, or Timothy; and the scale of inferiority is about the same. This grass with ordinary cultivation is said to grow from three to four and a half, and even five feet, high, very thick, with heavy blades on either side of the stalk, with a round bushy head, from two to four inches in length, full of seed. The hay is very heavy, the stalk and blades very sweet, and horses and cattle eat and love it better than Timothy or sheaf oats, and eat it up clean. The usual yield with the farmers in Iowa has been, after four years' cultivation, from four to six tons per acre of good dry hay, with their ordinary cultivation; although the premium crop of their (Monroe) county, was eight tons and thirty-five pounds; and of an adjoining county, seven tons, two hundred and ten pounds of good dry hay, suitable to stack, duly sworn to by disinterested persons, taken to secure the premium at the County Fair—raised without manuring.—But its excellencies do not stop with it as a grass. The seed itself is most excellent and rich, producing from thirty to fifty bushels per acre, and weighing usually fifty pounds to the bushel. This seed is fully equal to corn, rye, or oats for horses, cattle, sheep, hogs, chickens, turkeys, geese, &c.; all of which are said to be exceedingly fond of it, and will fatten upon it. As a crop in Iowa it never fails; wet or dry with them it has been sure. As a hay crop this grass is displacing all other grasses in that section of country; being a much more certain crop, and far richer as a hay or grain for all kinds of stock. Horses with its use, fatten and take on a sleek, glossy coat, so much admired; cows increase in flow of milk and quantity of cream; while chickens fed upon the seed, will lay most bountifully.

This seed originally was brought to the far West through the medium of one of the Hungarian Exiles, without doubt from the Turkish Empire. It has far surpassed all expectations as to quality and quantity.—There are persons living who suppose it to be some wild grass found in some secluded prairie; while others suppose it to be the common Millet, which has been raised in the United States for several years. But it is positively asserted that it is neither; that it is HUNGARIAN GRASS; a crop which has never been seen or heard of before in America until its introduction by the Hungarian Exiles.

Millet has been rasied for many years by the farmers throughout the United States, and it bears no comparison to the Hungarian Grass for its excellency. Millet is a coarse, woody fibred grass, with a bushy head and but few blades; producing like corn, one shoot for each seed; whereas the Hungarian is a fine grass, tender stalk, round head, and stools like rye or oats, from five to fifty stalks, and in one instance cited seventy stalks and heads have grown from one seed. We think it proper, therefore, not to confound the one with the other, as they are both distinct and separate grasses.

The usual quantity of seed is one bushel to three acres, if hay is the object, or four acres, if seed is the object. The best time for cutting, is when the blades begin to turn yellow and the seeds are mainly ripe, as secures both good hay and good seed. Cut and put up like others grass, but it does not require near the stirring as it is easily cured, and very little liable to injury. It may be cut with a cradle, if preferred, and cut when other harvesting is over. If cut very early it throws out a second growth which makes a very good crop for pasturage.

Thus gentlemen of agriculture, we present you with a grass, that not only promises, but has actually been proven in four years' trial, in the Western States, that it will increase your forage crop for all kinds of domestic animals, one and two hundred per cent. over and above your present crops. It has done this for the farmers in that section of country, and we know not why it will not for you; but of this you must be the judges, we have given you our little knowledge of its quality.

Any of our farmers wishing to try it upon their land, and give it a fair trial, can be supplied with seed by calling upon ISRAEL BIDDLE, of White Hall, Montour co. He purchased a few bushels in the West and would sell some of it cheap. Try it, as you may invariably make more money from a few acres of it, than from all the products of the balance of you farms.

### Trenching.

In gardens to limited in extent to admit of plows, or where it is desired to make the soil through and permanently deep, trenching is the means. The spade is the implement used in this operation. A trench two feet feet wide is opened on one side of the ground, and the earth taken out of it is carried to the opposite side. Another trench is opened, the surface spadeful being thrown in the bottom, and the next lower on the top of that, so on, till it is opened the required depth, which, for a good fruit garden, should be about two feet. If the subsoil be poor and gravelly, it is better to loosen it up thoroughly with the pick, and let it remain, than to throw it on the surface. When the whole plot is trenched over in this way, the earth taken out of the first trench, will fill up the last one, and the work is done. If the soil be poor, a layer of well decomposed manure, may be added alternately with the layers of earth; and if the soil be too light and sandy, clay, ashes, &c., can be added; and if too heavy, sand, lime, muck, peat, scrapings of old dead leaves from the woods. Let no one say it is too troublesome or too expensive, for two years the extra pleasure and profit it will repay for all.

GOOD wheat sown never changes to cheat or tares; but "wild oats" sown in youth always does so.

## HOLLOWAY'S PILLS.

A BOON TO THE SICK?

The want of a sterling medicinal to meet the ills and necessities of the suffering portion of humanity, and one entirely free from mineral and other deleterious particles, was severely felt till this all powerful medicine was ushered into the world; Holloway's Invaluable Pills have become the household remedy of all nations. Their attribute is to prevent as well as to cure; they attack the radix or root of the complaint, and thus by removing the hidden cause of disease reinvigorate and restore the drooping energies of the system, assisting nature in her task of vital and functionary reformation.

DYSPEPSIA.

The great scourge of the continent yields quickly to a course of these antiseptic Pills, and the digestive organs are restored to their proper tone; no matter in what hideous shape this hydra of disease, exhibits itself, his searching and unerring remedy disperses it from the patient's system.

GENERAL DEBILITY AND WEAKNESS.

From whatever cause, lowness of spirits and all other signs of a diseased liver, and other disorganization of the system, vanish under the eradicating influence of this all powerful antiseptic and detergent remedy.

BILIOUS DISORDERS.

The proper quantum and right condition of the bile is of momentous importance to the health of the human frame, this antibilious medicine expels the hidden seeds of the complaint, and renders all the fluids and secretions pure and fluent, cleansing and resuscitating the vital functions of the body.

SICKLY FEMALES.

Should lose no time in trying a few doses of this regulating and renovating remedy, whatever may be their complaint, it can be taken with safety in all periodical and other disorganizations its effect is all but miraculous.

UNREFUTED PROOF.

The testimony of Nations is unanimously born to the health-giving virtues of his noble remedy, and certificates in every living language bear witness to the undeniableness of their intrinsic worth.

## CALL
## TO THE FASHONABLE AND
## OTHERS.

THE undersigned having just received the latest Paris and New York Fashions, would again beg leave to inform his numerous friends and all the world about Bloomsburg, that he is now better prepared than ever to accommodate any one with the neatest easiest and best fitting suits of Clothes that have been turned out lately; and not only that, but he will also do them up in the best order, upon the lowest terms.

His shop is at the old stand, (too well known to need further notice) where he may at all times be found, seated upon the *bench* of repentance, steadily drawing out the *thread* of affliction, hoping it may in the *end* prove advantageous to him and his customers. He would also advise his fiends to bear in mind that poor, afflicted tailors must live, or they can't be expected to work. Therefore Wheat, Rye, Corn, Oats, Potatoes, and with all now and then a little CASH will come mighty handy from those who are back-standing on the books.

Remember, gentlemen, that in all cases "the laborer is worthy of his hire."

THE MIGHTY HEALER!
WORLD KNOWN AND WORLD TRIED,

## HOLLOWY'S OINTMENT

The free admissions of all nations, as well as the verdict of the leading Hospitals of the Old as well as the New World, stamp this powerful remedial Agent as the greatest healing preparation ever made known to suffering man. Its penetrative qualitives are more than marvelous, through the external orifices of the skin, invisible to the naked eye, it reaches the seat of the internal disease; and in all external affections its anti-inflammatory and healing virtues surpass anything else on record, and is Nature's great ally.

Erysipelas and Salt Rheum, are two of the most common and virulent disorders prevalent on this continent, to these the Ointment is especially antagonistic, its *modus operandi* is first to eradicate the venom and then complete the cure.

*BAD LEGS, OLD SORES, & ULCERS.*

Cases of many years standing that have pertinaciously refused to yield to any other remedy or treatment, have invariable accumbed to a few applications of this powful unguent.

*ERUPTIONS ON THE SKIN,*

Arising from a bad state of the blood or chronic disease are eradicated, and a clear and transparent surface regained by the restorative action of this Ointment! It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfingrements of the face.

*PILES AND FISTULA.*

Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases:

| | |
|---|---|
| Bunions, | Skin diseases, |
| Burns, | Swelled Glands, |
| Chapped Hands, | Sore Legs, |
| Chilblains, | Sore Breasts, |
| Fistula, | Sore Heads, |
| Gout, | Sore Throats, |
| Lumbago, | Sores of all kinds, |

CAUTION!—None are genuine unless the words "*Holloway, New York and London,*" are discernible as a "water-mark in every leaf of the book of directions around each box; the same may be plainly seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.
