We are compelled to fill up the Agricultural department of our paper this week with advertisements. By the next issue we will have this column open to the reception of Agricultural matter. We are aware that agricultural, horticultural and mechanical intelligence is an important item to many of the readers of the STAR. This matter shall be attended to, that a similar occur rence will not soon happen.

WE see the following feat localized i the Carbondale Advocate: The feat of pick-ing up and conveying to a basket at one end of the line, one hundred stone placed in line one yard apart, was performed here on Tuesday last by John W. Brown, in less than one hour. Distance travelled is about six miles—which, with the delay of picking op the stone, and turning twice with each in that short space of time, makes the feat a remarkable one. Os the arrival of the Arabia's mails at New York, the 11th inst., we learn that the American horses on the English turf, have been successful. At Goodwood, on Friday. Stork won the Bentick memorial stakes of a thousand sovereigns. Prioress came in third ; fifteen horses running. It is reported that Mr. B. has won some £25,000 on the Goodwood stakes. His colt Umpire (by Lecompte) won the Nursery stakes also on Friday. So much for American stock. THE GREAT FEATURE Of this series of Domestic Remedies is that each particular medicine is a Specific for the particular disease or class of disease whose usme it bears, and may be relied upon for the cure of that particular affection. Hence, persons suffering from a chronic disease or long standing aliment, in buying a case of Humphreys' Specifics, obtain the particular one desired in their case, and thus them-selves make a cure which otherwise would cost them many dollars, and no small a-mount of time and medical attendance, if, indeed, it could be obtained at al. Thus multitudes suffer from Dispepsia, Billions, Costiveness, Bad Faste, Coated Tongue, and Debility, which is perfectly controlled and cired by the DYSEPSIA SPECIFIC.

DYSPEDVIA SPECIFIC. There is scarcely a phase or form of this disease which is net promptly co-trolled and ultimately cured by the ase of this Specific. # Patients in advinced stages of the disease. So wide is the field of its usefulness and so nu-merous are the cases of its cures, that almost very section of country abounds in persons pub-licly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its vitues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior renedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and pro-duced cures too numerous and too remarkable to be forgotten.
