Mechanics' Celebration.—Our readers are pretty generally aware that Espytown is an enterprising place and its chizens are well versed in the matter of getting up demonstrations. But it does appear that there is a certain class of people in that place and vicinity who do not feel satisfied, and that class is the Mechanics. They argue that class is the Mechanics. They argue that the Farmers have enjoyed two Harvest Home Celebrations, which have been lib erally supported by the mechanics, and now, why not have a Mechanics' Celebra-tion. Certainly no class of men have done more for our country than the hard working mechanic-to them much credit is due for the building up of our glorious institutions sinew of the country. Without them every thing is hushed up—all is at a stand-still.

Espytown is nearly central between the business points of this county. The citizens of Espy design giving a Mechanics' Celebration on Saturday, the 10th of September, and a cordial invitation to all me chanics throughout the county is extended. It is hoped the mechanics will all feel an interest in the matter and take an active part, that a demonstration may be had of hich they may be proud. Good addresses

THE Executive Committee of the Columbia County Agricultural, Horticultural and Mechanical Association held a meeting on the 13th inst., in this place, as we noticed in our last, and decided a matter of considerable interest to the Society, which was, not to advertise the Premium List in the papers of the county, but to circulate the same by hand-bill, and thus save a few dollars for the Society.

We understand it to be a fixed fact, that the advertising in relation to the payr Fair.

the advertising in relation to the next Fair will be done by hand-bill. The bills are the advertising in relation to the next Fair will be done by hand-bill. The bills are not expected to cost near the amount of advertising in the papers. The only point in this matter is, we think, will the premium list receive the same circulation by hand-bill it would by newspaper. If not, it would be better for the future prosperity of the work of the property o it would be better for the future prosperity of the Society to advertise in the papers. This

THE bot tail organ of this county is in sort of dilemma judging from its tone and whimsicalness on last Saturday. This is FEVERS, SCARLET FEVER, MEASLES, rather an uncommon thing for an expounder of Democratic principles and measures—
But, taking everything into consideration, as we understand matters, it is no wonder, that the sagacious editor of the Democrat is in trouble. He must certainly hate himself. He has done so much for the party,
the lifetime of Dr. H., no one has been on

It is no wonder that he should feel sore, and so much out of humor. Please attend to this man's wants, he is so deserving—in a horn. People throughout the County owe him a debt.

JOHN FLETCHER, colored man, was lodged in jail, on last Monday, for stealing goods, from the store of Bowman & Freas, of Berwick. Fletcher, it appears, had been quite an extensive thief. He entered the store at night times by trap-door on the roof. He acknowledged that he had been practising these thefts upon this firm for more than a year, and had supplied his friends with goods, as appears by testimony offered before the Esquire.

The public may rest assured that during the lifetime of Dr. H., no one has been or shall be trusted with the preparation of his professional life and reputations that they shall be just as he represents them.

HUMPHREYS' SPECIFIC MEOPATHIC REMEDIES NO. 562, BROADWAY.

THE GREAT FEATURE

Of this series of Domestic Remedies is that each particular medicine is a Specific for the particular disease or class of diseases whose name it bears, and may be relied upon for the cure of that particular affection. Hence, persons suffering from a chronic disease or long standing ailment, in buying a case of Humphreys' Specifics, obtain the particular one desired in their case, and thus themselves make a cure which otherwise would cost them many dollars, and no small amount of time and medical attendance, if, indeed, it could be obtained at all.

Thus multitudes suffer from Dispepsis, Billious, Costiveness, Bad Taste, Coated Tongue, and Debility, which is perfectly controlled and cured by the DYSPEPSIA SPECIFIC.

There is scarcely a phase or form of this disease which is not promptly co trolled and ultimately cured by the nse of this Specific. Thousands who have suffered for years with this "Billions Condition" having purchased a case of these Specifics have obtained a perfect cure and immunity from their old complaint.

BRONCHITIS AND CONSUMPTION, COUGH PILLS.

Many cases of long standing Bronchitis and irritating Coughs have been perfectly cired by this Specific. But more! many persons have a specific liability to colds and take them from the least, exposure. This will be entirely relieved by the use of the Cough Pills, as scores can testify from experience: So CATARRH is one of our most common and most troublesome diseases, against which

True, time is required; but the Specific is pleasant to take, reed; but the Specific is pleasant to take, re-quires neither diet nor restraint, and being followed up a perfect cure is the result.— Hundreds of persons, in purchasing a cure of Specifics, have obtained a cure for this most trying and obstinate form of disease, which has been worth to them ten times the cost of the entire set.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourly generation;" indeed, it seems to be the rod of Him who says, "I will visit the infiguities of the fathers upon their children."

will visit the inquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other disease; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the affitted they can never forget, and produced cures too numerous and too remarkable to he forzotten.

A MEDICAL REVOLUTION !

HOLLOWAY'S OINTMENT.

THE GREAT COUNTER IBRITANT!!

THE GREAT COUNTER IRRITANT!!

The virus of disease often makes its way to the internal organs through the pores of the skin. Thus penetrating Oniment, melting under the hand as it is rubbed in, is absorbed through the same channels, and, reaching the seat of inflamation, promptly and invariably subdues it, whe her located in the kidnevs the liver, the longs, or any other important organ. It penetrates the surface to the interior, through the countless tubes that communicate with the skin, as summer rain passes into the fevered earth, diffusing its cool and regenerating influence. SKIN DISEASES AND GLANDULAR SWELLINGS.

Every species of exterior irritation is quickly reduced by the anti inflammatory action of this Ontiment. Angry Eruptions, such as salt Rheum, Erysipelas, Tetter, Ricgworm, Scald Head, Nettle, Rash, Scables, (or lich) &c., die out, to return no more, under this application. Hospital experience in all parts of the World proves its infallibility in diseases of the skin, the muscles, the joints and the glands.

ULCERS, SORES, AND TUMORS.

ULCERS, SORES, AND TUMORS.

The effect of this unrivalled external remedy upon Serofula, and other virutent ulcers and sores, almost maraculous. It first discharges the poison which produces suppuration and proud flesh, and thus the cures which its bealing properties afterwards complete are safe as well as permanent.

complete are safe as well as permanent. WOUNDS, BRUISES, BURNS, AND SCALDS.

In cases of the fracture of the bones, injuries caused by steam explosions, Bruises, Burns, Scalds, Rheumatism, Stiffness of the Joints, and contraction of the sinews, it is employed and warmly recommended by the faculty. This marvellous remedy has been introduced by its inventor in persons into all the leading Hospitals of Europe, and no private household should be without it. UNDEFINABLE TESTIMONY.
