Scrofula, or King's Evil,

Scroftula, or King's Evil, is a constitutional disense, a corruption of the blood, by which this fluid becomes vitiated, pervides the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, dis-ordered or unhoalthy food, impure air, filth and filthy habits, the depressing vices and, above all, by the tenered inflection. What-ever be its origin, it is hereditary in the con-stitution, descending "from parents to children unto the third and fourth generation," indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." Its effects commission from the blood of corrupt or ulcerous matter, which, in the lungs liver, and internal organs, is termed tubercles; in the glands, wellings; and on the surface, eruptions or sores.
