

and the stand of the

BLOOMSBURG, WEDNESDAY, OCTO. 12, 1859.

The Election.

The STAR being published on Wednesday morning consequently we are unable to give any election news save that of Bloom ownship and a few adjoining districts .-The Democratic vote in this (Bloom) township considerably exceeded our expectations. The Republicans exercised every influence to carry the day, and with th aid of a few Bogus Democrats they received a small majority on part of their ticket. The excitement did not rage quite as high as on some former elections. All passed off re-markably quiei, although a considerable amount of electioneering was done. The full vote was not polled in Bloom, and it is altogether likely to have been the case throughout the county. Three hundred and nine votes were polled here ; seventy-three less than at last fall's election. In another column will be seen a few returns.

GEN. WILLIAM WALKER, the often failed and ever persevering filibuster chief, has again set sail with a small force to win a kingdom or a halter. His motto seems to "the world's my oyster, which I with sword will open." The "grey-eyed man hind the Republican twenty votes, only destiny" is determined not to let his sword Staley beat Patton thirty-six votes for Com rust in dull-inaction while there is a weak Central American State to conquer, and food for powder to be picked up from the ragamuffin cut-throats of the large cities .-From all accounts this expedition is not very formidable in numbers, and appears to excite little alarm. The President has determined that it shall be stopped, as previous expeditions have been. But after accomplishing this first object, it is worth while for the Administration to inquire how it always happens that the filibusters man age to elude the vigilence of the custom. house officers and the revenue cutters .-The matter is worthy of attention, if only as

a curious investigation.

STATE FAIR AND COLUMBIA COUNTY BUG-GIES -Moj. William Stoan & Son, of Bloomsburg, Columbia County, received the FIRST PREMIUM and the DIPLOMA on fancy buggies might be applied to macadamized roads at the late State Fair held at Philadelphia. with the view of allaying the dust. Experi-At this Fair wagons could be seen from all parts of the State, and the very best kind, ing now several months free from dust --No common vehicles were brought to this Fair for inspection as to their good and bad ground, although dry and gravelly, has the qualities; consequently it would require an appearance of being recently damped. At extraordinary one to receive such a mark of evening the moisture, becomes more and praise as did the wagon from this county. SLOAN & SON are the most extensive manufacturers and dealers in the northern part of this State, and second to none in getting al deliquescent salts, which therefore at-tract the moisture of the air. The only number of years, and with their large experience and extraordinary mechanical skill have surpassed all the other manufacturers in the State of Pennsylvania in making buggies. It would be no more than just to state, that wagons executed by this firm will be found substantially us well as handsomely made. They use no defective mate-Flock.

SERIOUS ACCIDENT .- On last Monday a young man by the name of JACOB GIRTON, of this place, had one of his legs cut off, was attempting to get upon the moving train, when he missed his step with his leg one o'clock coal train. Drs. Ramsey and McKelvy were called in and performed the operation of amputation which he bore

In Bloom township the Democratic State Ticket was beaten by nineteen and sixteen votes; Assembly, Jackson and Masters ran tie, leaving Oakes some twenty-two behind, and Mouser thirty-three ; District Attorney, the Volunteer candidate, C. M. Blaker, had a majority over the Democratic nominee, E. H. Little, of fitty-eight; Treasurer, John A. Funston, Democrat, received fifteen votes of a majority over Ellwood Hughes, Republican; Commissioner, John Staley, Republican, ran ahead of J. R. Patton, Dem-

Auditor, George M. Howell, Democrat, ran behind his competitor, James Barton, twenty votes. Thus you see the majorities are t large. Some less than last election. In Fishingcreek township the Democratic ticket has a snug majority. The State ticket has increased majorities over former elec

ons. Mt. Pleasant township went Republican with a few exceptions. The State ticket with a few exceptions. was saved by a small majority. Little and Howell, one majority. The balance of the icket is lost, gone Republican.

Greenwood twp., the Democratic ticket one as well as we had expected. Jackson, Dem., ran tie with Masters, Rep., and Oakes, Dem, a little behind, Mouser, Vol. still forther. District Attorney, Little beat Blaker three votes; Commissioner, Staley's majority over Patton, fifty-four. The bal-ance of the ticket went completely Republican. This is a strong Republican District. Mr. Mouser had 13 votes. In Scott, the Democratic State ticket lost

by thirty-one votes; Oakes and Mouser were tie; Jackson one vote behind Masters. This is doing pretty good for the Democrats in a strong Republican township. The The Democratic nominee for Treasurer fell be-hind the Republican twenty votes, only missioner; Little's majority over Blaker, Vol., for District Attorney, is twenty eight This much for Scott township.

Hemlock, the Democratic State ticket re ceived fifty five votes of a majority; Dem ocratic nominees for Assembly received about the usual majority, considering the turn out. Staley had 54 votes for Commissioner, taking that from the whole vote polled-141-leaves a majority of eightyseven for Patton, Democratic nominee.

NEW MODE OF WATERING STREETS .curious experiment of watering public promenades is being tried at Lyons, and hitherto with success. A chemist of the city accidentally spilling some hydrochlo ric acid on a terrace, found the spot harden-ed and maintained in a state of permanent moisture. This induced him to think it ments have resulted in a carriage-way be more perceptible. Every morning the ground is stiffer and more comfortable to walk on. This acid in fact decomposes the gravel or stone, and forms one or sever endure under such a process as long as they ought.—London Poper.

CLINTON COUNTY -Camp Brady, that was recently held near Lock Haven, was a de-cided success. There were thirteen finely equipped companies and four brass band riat, and employ the best mechanical aid on the ground, the whole under the com-the country affords. Call and examine their mand of Major Gen. Jackson, who, with his fine staff and all the officers of the brigade, were on duty the whole week. Gen. Geu. Keim, of Berks county, Gen. Wolf, of Centre, accompanied by aids, and Col. Crane, of Lycoming, and other officers from just below the knee, by the coal train on the a distance, were present a portion of the Lackawanna & Bloomsburg Railroad. He

teer. Capt. W. P. Brady, on the ground the entire week. The veteran captain was hospitably entertained during his stay, and acorss the track. The accident happened hospitably entertained during his stay, and at the Bloom Station on the arrival of the cordially welcomed by officer and private wherever he went. We know of no unpleasant occurrence that took place during the entire week.

manfully. He is doing as well as can be Strict discipline was enforced throughout, expected under the circumstances. This is and the camp was kept in pretty constan nother warning for people to be careful drill by the officers in command The field when about railroad cars while in motion. and company manouvres were performed in a manner highly creditable to officers similar nature within a short time in this and privates. The weather was fine with

The Rebound from California.

Horace Greely went ont to California, as is now shrewdly suspected, to arrange mat-ters for the election in that Siate. He go there, at any rate, just in the nick of time made speeches—tried to patch up a coali-tion between the Black Republicans and the malcontents of all other parties, against the Democrats-and to some extent suc ceeded. The gamblers in politics did up the thing as well as they could, but they made a miserable miscalculation. Instead of beating the Democracy in this free State, the rebound is tremendous. The whole coalition, to use a homely phrase, have been whipped clean out of their boots -Our warrant for this assertion is a dispatch from Senator Gwin to President Buchanan sent to Washington yesterday by a gentle man who was the bearer of it overland which is to this effect : The majority o the Democracy in California will be twent thousand over the combined Opposition.-The ticket for Governor has a majority in

every county in the State, except San Fran-cisco, which is doubtful. The Democrate elect every member of both branches of the Legislature, and Scott and Burch are elected to Congress by large majorities.-This is conclusive. It comes from a free

State, and is indicative of the decline of Black Republicanism everywhere. Senator Gwin left San Francisco immedi ately after the election, or in the first steam er thereafter. No challenge had passed be tween him and Senator Broderick, as we

learn by a gentleman who came through as a passenger in the overland mail coach A report of this kind reached us in the Cali fornia papers, but it was not correct. Bu it is true that, on the day prior to the de parture of the mail, on the 6th ult., Sena-tor Rroderick was challenged to fight a panel by chief Justice Terry, of the supreme court of California, and a meeting was in-evitable. It will be recollected that Broder-ick was challenged to a hostile meeting by Mr. Perley, and that the Senator, who formerly conspicuous in New York city in a different capacity, refused to accept the missive, on the ground that the challenge was not the equal of a United States Sena This controversy grew out of some reflections made by Senator Broderick against Judge Terry, and as Mr. Perley was not in office or high enough in office to secure satisfaction from Senator Broderick, it took

a chief justice of the supreme court of Cali fornia to extort from him a meeting. This is a nice distinction, which has only recent ly obtained, and it may be useful in other similer exigencies. Judge Terry is said to be a good shot with a pistol, but for this reason, probably, this weapon will not b The report from San Francisco is, that

the meeting between the two Senators, Gwin and Broderick, is adjourned to Wash on city, but no challenge has passed .-St. Louis Republican.

PROGRESS IMPOSSIBLE. THE GOAL REACHED AT A BOUND!

But in some departments of science discov-eries have been made, and practical syswhich, in fact, preclude progress by giving ships. Although this latter expedition did us perfection at the outset. For example, when Professor Holloway, some twenty-five years ago, gave to the world his inestimable remedies, he seems to have left nothing even for himself to achieve, in the treatment of human maladies. The pro-

eign antidotes for external and internal dis. pirth.

Our method of arriving at a correct appreseen a great deal of what is called regular Dintment. In many instances—some of which should be specified if space permit. ed-we have seen these remedies effect the Polyphemus. On the 2d of April, 1801,

From the Pennsylvanian. Sir John Franklin—Tidings by the Steamer Fox.

The mystery which hung so long over the ate of Sir John Franklin has at last been solved, thanks to the devotion and perseverance of his noble wife. The screw eamer Fox, which she fitted out, has re turned to England. Her Commander, Cap-tain McCline, sings with him a dopli-cate record, containing the particulars of the ill-starred expedition, down to the abanment of the famous vessels, the Erebus and Terror, in April, 1848, by their officers and crew, and the departure of the party, 105 number to the Great Fish river Sir John Franklin's expedition, consisting of the Er-ebus and Terror, with 138 officers and men, sailed from Sheerness, May the 26th, 1845. On the 26th of June, 1845, the expedition was seen in Baffin's Bay. June the 11th, 1847, Sir John Franklin died, and on the 1847. 22d of April, 1848, the Erebus and Terror were deserted in Victoria Straits, thirty-three of the officers and men having died up to that time. If the story related by the Esquimaux to

Dr. Rae can be considered reliable, some of the survivors of the party were alive two years afterwards, in Spring, 1850. Dr. Rae stated in his communication to the Admiral-ty that some Esquimaux on the North Shore of King William's Land, which is a large island, had met, in the spring of 1850, forty white men traveling southward over the ice, and dragging a boat with them. The men then were in a destitute and pitiable condition, and later in the season the bodies of some thirty-five were discovered on the continent and an adjacent island, and Dr Rae brought home memorials from the spot which fully identified the party with the ex-

pedition. The history of the expedition sent in search of Sir John Franklin will ever remain one of absorbing interest. In 1848, no news having been received of Franklin, the English Government fitted out three vessals to proceed to the Arctic seas in search of the ssing explorer. In 1849, after a protracted and dangerous but useless search, the last vessel of the expedition returned. During the come period, a land party under Sir John Richardson, and another sea expedition under the veteran Arctic explorer Sir James Ross, were equally unsuccessfu! .--The British Government then offered a mu nificent sum, amounting to one hundred thousand dollars, to any private expedition that should afford efficient aid to Sir John Franklin. In 1850 no less than eight expeditions were fitted out, Sir James Ross again taking the command of one of them. Lady Franklin also, in that year, fitted out the expedition in the vessel that bore her name. and also assisted largely in despatching another expedition in the schooner Prince Albert. Mr. Henry Grinnell's expedition also started in the same year, and there

were eleven different vessels at the same time searching the Arctic seas for tidings of the lost. The result of all these numerous expeditions were comparatively small.-We call this the age of progress. It is so. Erebus and Terror were discovered, but no documents that gave any traces as to the whereabouts of the missing men. In 1853 tems introduced, which leave nothing to Dr. Kane started on his famous explorations be desired in the way of improvement, and preceded by Sir Edward Belcher, with five

not find anything of Sir John Franklin, they succeeded in rescuing Captain McClure who, with his ship's company, had been bound up by ice for three years

Rear Admiral Sir John Franklin was a native of Spilsby, in Lincolnshire. Sprung gress of the demand for his Pills and Oint-from a line of freeholders, or "Franklins, ment has, indeed, been unparalelled in the his father inherited a small family estate history of medicine; but he has found no which was so deeply mortgaged that it was reason to alter a single ingredient or vary a proportion. We therefore class the soverto maintain and educate a family of twelve sees with which that distinguished medi- children, of whom only one died in infancy. cal reformer has blessed the world, among the inventions which are perfected at their nections.

John, the youngest, was destined for the ciation of the respective merits of opposing systems, is by comparison. Now, we have seen a great deal of what is called *regular* companion to the sea, which he had never *practice*, and do not hesitate to say that at fails more frequently than it succeeds. This imagination was so powerfully impressed on this occasion by the is not the case with Holloway's Pills and grandeur of the ocean scenery that it determined him to become a sailor.

Plug-Uglyism and the Baltimore Courts. The shameless course of Judge STUMP, of he Crimnal Court of Baltimore, with refer-

ence to the Express riot cases, in exciting the condemnation of even that portion of the press most lenient with reference to the constant outrages of the Plug-Ugly organi zation. The Clipper says the "sentence eemed to take the Bar and spectators en irely by surprise, and none more so than the prisoners themselves." The Patriot regards "the administration of criminal juslice as in abevance during the balance of Judge Srump's term." case illustrating the administration of justice in Baltimore. One day last week a jury empanelled to try the case of The State agt. Schaffer, acriminal case of great impor-tance, returned a sealed verdict of "guilty," which had been duly agreed upon the pre vious evening, as was shown by the signa ures of all the members of the panel ap pended to it. The jury was, however, poll ed at the request of the prisoner's counsel whereupon five of those who had found the traverser "guilty" overnight, declared him "not guilty" in the morning. The foreman stated that the verdict had been concluded upon without a dissenting voice and the change of opinion is openly charg ed to improper influences after they had separated. What is more remarkable, Judge STUMP dismissed the jury without a remark upon its proceedings

An overland Mail party attacked by Indians. Sr. Louis, Oct. 7 .- A despatch from Inde pendence says the mail which left there on the 9th ult., for Santa Fe, was attacked by the Indians beyond the Pawnee Fork. The conductor and one of the passengers were killed. The incoming mail due last Tues day has not yet arrived at Independence and lears are entertained for its safety.

Hollowey's Pills, an unfailing remedy for all disorders of the Chest and Lungs -Oli-ver Thompson, of Little Falls, New York, was certainly in a most deplorable state of health ten weeks ago; his lungs, so the doctors told him, were completely gone, his chest, and in fact his body generally, had scarcely an atom of flesh on it, so thin had he become. In addition to this, he had a cough which completely shock him to pieces (these are his own words); he has just called on Prolessor Holloway to inform him, that all these complaints have been removed by Holloway's Pills, after he had used them for seven weeks and two days, COIN DETECTOR used them for seven weeks and two days, and he now feels better than ever he did in his lite. These Pills will readily remove all diseases of the stomach and bowels.

Every subject connected with the farmer's vocation is disscussed. The Man-agement and Breeding of Stock; Cultivation of grain and grass; Farm-Hotses, Buildings Fences; Uderdraining, Plowing, Sowing, Harvesting, Threshing, Marketing; Dary Management; and every operation on the Farm or Garden, receive attention. Full and reliable reports of the Markets In New York, Boston, Philadelphia, Roch-ester, Buffalo, Toronto Chicago, Cincinnati, Liverpool, and London, are given each month, prepared expressly for the Farmer by a genileman of great experience, intelli-gence, and sagacity. uable geographical information. In 1825 he undertook an overland expedition to the Arctic seas, from which he returned by way of New York to England in 1827. In the following year he married Jane Griffin, the present Lady Franklin, his second wife .--In 1830 he was, during the Greek war, in the Mediterranean, and in 1836 he became

Governor of Van Dieman's Land. In 1845 he entered upon the fatal Arctic expedition. He was aged sixty-one years and three months when he died, on the 11th of June, gence, and sagacity.

The Ladies, too, write for the Genesee Farmer, and furnish hundreds of well-tried and valuable Receipts. We design to make the Volume for 1860 decidedly the best of the series.
