HARPER'S FERRY INSURRECTIONISTS .- Capt Brown's band of rioters at Harper's Ferry, Cook, Green, Coppie and Copeland, bave all been tried and found guilty, and received their sentences on the 10th inst., to be executed on Friday, the 16th of December next. It is rumored that Gov. Wise will respite Brown, whose sentence has been fixed for the 2d of December, until the 16th, that the whole of the condemned prisoners may be executed on the same day. Another prisoner by the name of Stephens has been handed over to the United States authorities for trial. A Virginia jury is the right kind of one to try such persons. They will give the rascals the full benefit of the law, and nothing shorter.

FOREIGN NEWS .- The latest news we have is received from the arrival of the Steamship The ship came into New York on the 13th inst, bringing an account of the mercial advices, which, however, are of not much importance to our readers. The loss of life, occasioned by the wreck of the vessel, is reported to have been four hundred and fifty-five. Ships have experienced lately great damage by the storm all around the English and Irish coasts, and many coasting sels and lives have been lost.

GERRITT SMITH, of New York, is an in-

Political Faction and Treason. Party, based upon comprehensive prin

iples of National moment is, says the Penn anian, no doubt, a necessity of a Repub ican Government. Like everything else, in this world of imperfections, it may have its shadowy side. But it is essential for the preservation of Republican institutions that opposite parties should exist. So long as parties are nearly balanced, there is no danger of the preponderance of any one o them degenerating into tyranny. But we speak of party based upon honest convic-tions of National scope, with National aims, in contradistinction of faction, which al-ways originates in narrow interestedness and parrow circumscribed views and which s always extreme and fanatical in proportion as it feels its own weakness From faction to conspiracy is but one remove, indeed they are identical. Impotent as the violence of faction is when it stands insolaed, it becomes dangerous in the highest degree when it combines for any special object with others. The growth and multiplication of faction, history teaches us, has ever proved the death of Republics. There is nothing so demoralizing as the influence of political faction. It is public treason, in the black shadow of which luxuriates a wide spreading undergrowth of private treason, berrayal of confidence, dishonesty in siness, theft, swindle, calumny, slander and persecution. Here is the greatest dan ger which threatens the stability of the institutions of this country. A mighty combination of factions of the most heterogen eous elements, with opposite aims and tendencies, is undemining in a thousand directions the foundation of our government -There never was a time more earnestly appealing to the patriotism of all conservative citizens to rally around the party that bears aloft over the prevailing confusion the stand-ard of national union, than the present.— The Harper's Ferry tragedy, the bloody despotism of faction in Baltimore, the less audacious and bloody but not less treason able manifestations in almost every community, recall to memory most powerfully the prophetic warnings of the Father of his Country in his farewell address: "The alternate domination of one faction over another, sharpened by the spirit of revenge, natural to party dissension, which in different ages and countries, is itself a frightful despotism. But this leads at length to a more formal and permanent despotism —
The disorders and miseries which result gradually incline the minds of men to seek security and repose in the absolute power of an individual; and sooner or later the chief of some prevailing faction, more able or more fortunate than his competitors, turns this despotism to the purpose of his own elevation, on the ruins of Public Liberty."

SINCE Gerritt Smith has been detected in the "Kansas work" of old John Brown, the to inform you that if the decrease in the Black Republican papers say he is a Dem-Republican vote next fall is as great as it is this, New York will surely go Democratic, for Fremont in 1856, was a Republican member of Congress from New York, and used to contribute his money by the thou-sand, when he and Reeder and other fanain which France is believed to be at the ties met up in Buffalo, to purchase rifles to send to Kansas. It will continue to urge the emancipation not only of the Black laborer from chattelism, but of the White likewise from Land Monopoly, Intemperance, Ignorance, and that dependence on remote Markets which paralyzes exertions by denying to Toil any adequate and morally certain reward. Believing that the chief evil of our time is the mordinate mutiplication and disproportion of Non Producers, it will continue to war against whatever tends to degrade Manual Labor or deprive it of its just and full recompense. It will inflextbly commend the policy of winning hither from Europe the Useful Arts, and, wherever they may be needed, the Artisans as well, for whose products our country is now running recklessly into debt, while our laborers roam in fruitless quest of employment, leaving their children in want of bread, though the farmer is too often compelled to sell his crops at most in adequate prices. In short, while battling against Fillibusterism and every other manifestation of that evil spirit which seeks through the spoliation of other countries that agrandizement which is to be truly attained only through the due developement and cultivation of our internal resources, it will urgently advocate a more effectively discriminating Tariff, the Freedom of the Public Lands, the construction of a Rathroad Irox, the navigable waters of the Mississippi to those of the Pacific, and every road from the navigable waters of the issippi to those of the Pacific, and every other measure which seems to us calculated to enhance the dignity or the recompense
