THE NEW YORK, TRIBUNE

THE TRIBUNE—now more than eighteer years old, and having over Two Hundred Thousand subscribers, or constant purchasers, diffused through every State and Territory of our Union—will continue in essence what it has been—the earnest champion o Liberty, Progress, and whatever will conduce to our national growth in virtue, Industry, Knowledge, and Prosperity. It wi continue to urge the emancipation not only of the Black laborer from chattelism, but of the White likewise from Land Monopoly Intemperance, Ignorance, and that deper dence on remote Markets which paralyze exertions by denying to Toil any adequa and morally certain reward. Believir that the chief evil of our time is the moral nate mutiplication and disproportion of No Producers, it will continue to war agains whatever tends to degrade Manual Labo or deprive it of its just and full recompense If will inflexibly commend the policy owinning hither from Europe the Useful Arisand when we have the contract the contract of t and, wherever they may be needed, the Artisans as well, for whose products our country is now running recklessly into debt. country is now running recklessly into debt, while our laborers roam in fruitless quest of employment, leaving their children in want of bread; though the farmer is too often compelled to sell his crops at most in adequate prices. In short, while battling against Fillibusterism and every other manifestation of that evil spirit which seeks through the spoliation of other countries through the spoliation of other countries that agrandizement which is to be truly attained only through the due developement and cultivation of our internal resources, it will urgently advocate a more effectively discriminating Tariff, the Freedom of the Public Lands, the construction of a Rail. road from the ravigable waters of the Missispip to those of the Pacific, and every other measure which seems to us calculated to enhance the dignity or the recompense of Labor and promote the well-being of Mankind.

Mankind.

Having made arrangements for folfer and more graphic reports of the doings of Congress, and of whatever else transpiring at the Federal Metropolis shall seem worthy of public regard, and having extended both our Foreign and Domestic Correspondence and strengthened our Editorial stall, we helieve THE TRIBUNE may safety challenge a comparison with any rival, whether as an exponent of principles or as a reliable mirror of the passing world. We purpose not to be surpassed nor anticipited in the collection or presentation of intelligence, though we eschew that reputs it on for enterprise which is acquired by bribing messengers and clerks in public actic of irreaties or other official documents. We prize accuracy of statement quite at highly as promptitude, but endeavor not to vacrifice the latter while securing the Forner. Essentially, The Tribune will be what it has been, while we shall constantly study to improve its every feature, and "make each day a critic on the last." The general verdict of the Press and the Poblic has affirmed the success of our past labors, and those of the future shall be characterized by equal earniestness and assir luity. We ask those who believe the general influence of our journal to be salutacy to aid us in extending that influence through in increase of our subscrib-tons.

With a view to the cheap circulation of the best of the cheap circulation of the chea Having made arrangements for fuller and be salutary 'to aid us in extending that in-ence through tan increase of our subscrip-

THE GLOBE. The Official paper of Congress.

The Official paper of Congress.

IPUBLISH my annuval Prospectus of The Daily Globe, and The Congressional Globe And Appendix, to remind subscribers, and inform those who may desire to subscribe, that Congress will meet on the first day of next December, when I shall recommence publishing the above named papers. They have been published so long, that most public men kow their character, and therefore I deem it needless to give a minute account of the kitch of matter they will contain.

The Daily Globe will contain a report of the Debates in both branches of Congress as taken by reporters equal, at least, to any corps of short-hand writers in this country. A majority of them will, each, be able to report verbatim, ten thousand words an hour, while the average number of words spoken by fluent speakers rarely exceeds seven thousand five hundred words an hour. When the debates of a day do not make more than forty five columns they will appear in the daily Globe of the next morning, which will contain, also, the news of the day, together with such editorial articles as may be suggested by passing events. The Congressional Globe and Appendix will contain a report of all the Debates in Congress, revised by the speakers, the Messages of the President of the United States, the annual reports of the Heads of the Executive Dapartments, the Laws passed during the session, and copious indexes to all. They will be printed on a double royal sheet in book torm, royal quarto size, each number containing sixteen pages.

They will be printed on a double royal sheet in book form, royal quarto size, each number containing sixteen pages. The whole will make, it is believed, between 3,800 and 3,900 pages, the long sessions formany years past having ranged between those numbers, and the next session will be a long one. This I believe is the cheapest work ever sold in any country, whether a reprint, or printed from manuscispt copy, taking for Data the average number of words of the long sessions since the year 1848.—The average number of pages 3,875 and the average number of words on a page is 2,397, consequently the average number of a long session is 9,299, 772. As I have sold to subscribers that number of words for six dellars, it follows that they have paid less than six and one half cents for every 100,000 words I have furnished them while I have paid my reporters \$6.29 for every 2,367 words, of this work in manuscript. The coming session will, without doubt, be an insmalled inverseling one heavest.

"The Congressional Globe and Appendix,"

Scrofula, or King's Evil,

Scrofula, or King's Evil, is a constitution and disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and fifthy habits, the depressing vices, and, above all, by the veneral infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs; stermed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depressed the energies of life, so that scrofulous constitut.

the lungs, liver, and internat organs, as termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constituations not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other discases; consequently, wast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive discases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this, lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and screenes.

Compound Extract of Sarsaparilla, Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Expurive and Srin Disbases, St. Antiony's First, Rose, or Erystpelas, Pinfles, Pustules, Blothers and Beild, Thomas, Tertem and Salt Riberd, Scald Head, Ringwarish, Syphilation and Merichala Disbases, Disbases, Disbases, Tong and Sinded, all Complaints alienged in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. FOR ALL THE PURPOSES OF A FAMILY PHYSIO, are so composed that disease within the range of their action can rarely withstand or evade them Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debulity is astonished to find his health or energy restored by a remedy at once so simple and inviting.

When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesistate what antidot to employ for the distressing and dangerous affections of the public many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred kenefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
