Columbia Co. Democratic Convention.

NOTICE is hereby given that the Demo-ctatic electors in and for the several boroughs and election districts of Columbia county, will meet at their respective places of holding their general elections on Saturday, the 25th day of August, 1860, between the hours of 3 and 7 o'clock, in the afternoon of said day, for the purpose of choosing two Delegates from each Election District, to meet in County Convention, at the Court House, in Bloomsburg, on Monday, the 27th day of August, 1860, at 1 o'clock, P. NOTICE TO THOSE INDEBTED TO THE STAR -Many of our subscribers will find bills in to day's paper, to which we earnestly ask them to pay their earliest attention-and send us the money. September Court presents a good opportunity to many indebted to bring or send their amounts due. Bills shall be sent to all as fast as they can be made out, but our friends know nearly how much is due us on subscription or otherwise, and can remit without delay, if they only feel so disposed. A few dollars each may not seem of consequence, but multiply by the hundreds in arrears and the amount is important to the printer. We have sent our paper to some over two years and a half without receiving one cent, and we can't afford to send it much longer without being paid up, neither would we if we could. It would be much better for both patron and editor to have these subscription bills squared up in advance, or at least during the year, and not permit them to run one, two and three years, unpaid. Such work will break up an editor, if he allows his patrons to presist in that course. Now, we do not intend it to be practiced upon us ; we want every man who owes us to pay up. This notice is not intended for those who pay us in advance, but unfortunately this portion of our patrons is beautifully small.

PREMIUM LIST .- In to-day's STAR can be seen the premium list of the Columbia as the property of Isaac Tyler. County Agricultural, Horticultural and Me-

RAYMOND'S FAMILY SEWING MACHINE! PATENTED MARCH 9, 1858.

PRICE \$10 EACH.

MESSRS. ZUPPINGER & ROBBINS, of Bloomsburg, having purchased the exclusive right of the above valuable Improved Cheap Patent Sewing Machine, for the County of Columbia, will be happy to supply their friends with the article for the accommodation of themselves and families. The following are some of the superior advantages this implement possesses, viz : 1. It sews from 400 to 600 tight stitches per minute.

2. Double thread Machines are from the more complicated character of their mechanism invariably managed and threaded with more or less difficulty; not so with RAYMOND'S, a child can manage it in two hours, and it is threaded easier than a common needle.

3. One of the most valuable features of this Machine, is the smallness and the compactness of its mechanism.

4. It can be attached to a board, table or siand, in operating order, and removed in less than half a minute.

5. It greatly economizes the thread, and vet produces a seam, sufficiently strong for any work for which it is intended, a qual- are from Presidents Frelinghnysen of Rut-

6. No human hand is capable of producing a seam so regular and systematic.-The seam is so strong if well done, that the strongest material will tear before the seam will give way.

7. Among the array of Patent Sewing Machines, there are none so cheap and durable as Raymond's Patent, but no Machine is adapted to all kinds of work as experience has proven. There are perhaps none so realy useful, doing such a variety of wore for the immediate use of the family circle, and at such a moderate price as RAYMOND'S PATENT.

8. The operator can shape his seam just as he pleases, waves, leaves and flowers, etc., can be represented or imitated.

9. It is particularly adapted to all kinds of stitching-such as gentlemen's shirts, bosoms, ristbands, collars, etc.,-and all kinds of ladies' sewing, including silks, lawns, delaines, calicoes, dusters, etc., excepting for men's heavy wear, this Machine

is rather too light of construction. 10. But we all admit, that the advantage to health, and principally to the vision or eyesight, induced by the use of Sewing Machines, surpasses infinitely all other advantages.

11. This Machine fastens the seam always itself, but if the operator wishes it unlasiened or open, there is a way lor it too, thus you can have it fastened or not, as you please, which is, sometimes, especially for beginners, a very favorable circumstance. If the seam is left unfastened, you can draw it out in three seconds and save the thread.
