WATSON, No. 26 South FOURTH Streets, that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case.

Innoxious in all maladies in which it has proved absolutely curative in each of the

following complaints, viz: In Debility, Nervons Affections, E maci ation, Dyspepsia, Consumption, Diarrhoa Dysentery, Incipient Consumption, Scrotu lous Tuberculosis, Salt Rheum, Mismen struction, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rhenmatism, Intermittent Fevers, Pimples on the Face,

In cases of General Debility, whether the result of acute disease, or of the continued diminution of nervous and mu-cular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddeply re-appeared in the busy world as if justice returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female Sufferers, peptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness without ever being a gastrie purgative, or indicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specie fic action, by dispersing the local tendency which forms them. In Dyspepsia, innumerable as are its

causes, a single box of these Chalybeate

Pills has often sufficed for the most habitual cases, including the attendent Costiveness. In unchecked Diarrhoa, even when advanced to Dysentery, confirmed, emanciating, and apparently malignant, the effects have been equally decisive and astonishing. In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Incipient Consumption, this remedy has allayed the

In Scrofulous Tuberculosis, this medical ted iron has had for more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known liabilities. The attention of females cannot be too

confidently invited to this remedy and re-

storation, in the cases peculiarly affecting

alarm of friends and physicians, in several

very gratifying and interesting instances.

In Rheumatism, both chronic and inflammatory-in the latter, however, more decidedly-it has been invariably well reported both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

be a great remedy and energetic restorative and its progress in the new settlements of the West, will probably be one of high renown and usefulness. No remedy has ever been discovered in the wholeshistory of medicine, which exens such prompt, happy, and fully restorative effects.
