AN aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, Loth in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case.

Innoxious in all maladies in which it has proved absolutely curative in each of the

following complaints, viz: In Debility, Nervous Affections, Emaci ation, Dyspepsia, Consumption, Diarrices Dysentery, Incipient Consumpt ion, Scroin lous Tuberculosia, Salt Rheum, Mismen struction, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face,

In cases of General Debility, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids solong bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if justice returned from protracted travel in a distant land. Some very signal instancesof this kind are attested of female Sufferers,. emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

la Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness without ever being a gastric porgative, or indicting a disagreeable sensation.

It is this latter properly, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which also appears to exert a distinct and specific action, by dispersing the local tendency which forms them. In Dyspensia, innumerable as are its

causes, a single box of these Chalybeate

Puls has often sufficed for the most habitual

cases, including the attendent Costiveness. In unchecked Diarrhæa, even when advanced to Dysentery, confirmed, emanciating, and apparently malignant, the effects ave been equally decisive and astonishing In the local pains, loss of flesh and strength, debilitating cough, and reminent hectic, which generally indicate Incipient

Consumption, this remedy has allayed the

alarm of friends and physicians, in several

confidently invited to this remedy and restoration, in the cases peculiarly affecting In Rheumatism, both chronic and inflammatory-in the latter, however, more decidedly-it has been invariably well reported both as alleviating pain and reducing the

swellings and stiffness of the joints and muscles. In Intermittent Fevers it must necessarily be a great remedy and energetic restorative and its progress in the new settlements of

nown and usefulness. No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusnal disposition for active and cheerful exercise, immediately follow its use.
