A LITTLE credit, Mr. Democrat, when you elip into our editorial columns. Last week and week before you neglected to give credit to several editorial articles taken from the STAR.

THE Democratic meetings held in this place have good effect-they tend to make the Republicans very cross, if nothing else. They do hate to hear the truth, and attempt to ward off its effect by sneers and jeers.

A series of Democratic Meeting are being held throughout the county this week, principally evening meetings. The pub fic are respectfully invited to attend .-Competent speakers will be in attendance at each of these meetings. They commenced on Monday evening last at Jerseytown. Notice has been given by hand bili of all the appointments.

.... THE STATE FAIR commenced at Wyoming on Tuesday last, to continue until Friday next. Several of our citizens are in atten dance. The Columbia county Fair will be on hand in a short time-October the 18th A grand exhibition is anticipated. The farmers of Columbia are becoming more and more in:erested in the true object of these Agricultural exhibitions.

RAYMOND'S FAMILY SEWING MACHINE! PATENTED MARCH 9, 1858.

PRICE \$10 EACH. MESSRS. ZUPPINGER & ROBBINS, of Bloomsburg, having purchased the exclusive right of the above valuable Impro ved Cheaf Patent Sewing Machine, for the County of Columbia, will be happy to supply their friends with the article for the accommodation of themselves and families, The following are some of the superior advantages this implement possesses, viz: 1. It sews from 400 to 600 tight stitches

per minute. 2. Double thread Machines are from the more complicated character of their mechanism invariably managed and threaded with more or less difficulty; not so with RAYMOND'S, a child can manage it in two hours, and it is threaded easier than a common needle. 3. One of the most valuable features of

this Machine, is the smallness and the compaciness of its mechanism. 4. It can be attached to a board, table or s,and, in operating order, and removed in less than half a minute.

5. It greatly economizes the thread, and yet produces a seam, sufficiently strong for any work for which it is intended, a qualification not known to all kinds of Sewing Machines. 6. No human hand is capable of producing a seam so regular and systematic .-

The seam is so strong if well done, that the strongest material will tear before the seam will give way. 7. Among the array of Patent Sewing Machines, there are none so cheap and durable as Raymond's Patent, but no Ma-

chine is adapted to all kinds of work as experience has proven. There are perhaps none so realy useful, doing such a variety of wore for the immediate use of the family circle, and at such a moderate price as RAY MOND'S PATENT. 8. The operator can shape his seam just

as he pleases, waves, leaves and flowers, eic., can be represented or imitated. 9. It is particularly adapted to all kinds of stitching-such as gentlemen's shirts, bosoms, ristbands, collars, etc.,-and all kinds of ladies' sewing, including silks,

lawns, delaines, calicoes, dusters, etc., excepting for men'sheavy wear, this Machine is rather too light of construction. 10. But we all admit, that the advantage to health, and principally to the vision or eyesight, induced by the use of Sewing

11. This Machine fastens the seam always itself, but if the operator wishes it untastened or open, there is a way for it too, thus you can have it fastened or not, as you please, which is, sometimes, especially for beginners, a very favorable circumstance. If the seam is left unfastened, you can draw it out in three seconds and eave the thread.

For sale by the undersigned, at their respective residences, in Bloomsburg, who will put the Machine in operation and give all necessary instruction.
