## The Tariff.

The Tariff question is one that does not maturally belong to party politics. The Democratic party and the Republican both contain advocates of the protective policy and both advocates of free trade. In this State, where our immediate interests would be promoted by a Protective Tariff, all par ties, with rare exceptions, are favorable to protection, and anxious that Congress should legislate so as to develop our great mineral and industrial interests. Such being the condition of the public mind in Pennsylvania, this is the last State in the Union where the Tariff issue should have been made. But the Republican party deemed it necessary at the last session of Congress to manufacture as many issues as possible for the purpose of carrying this Presidential election. For the Western States they devised the Homestead issue as the means of making political capital in that quarter For Pennsylvania they got up the Tariff induced Republican members of the House. naturally opposed to the increase of duties to vote for the Morrill bill as a political dodge. It was delayed until the close of the session, and as soon as it passed the House and was sent to the Senate, a resolution providing for an early adjournment of Congress was passed by the Republican members-for the munifest purpose of bringing the session to an immediate termi time to act upon the Tariff bill, and so that the Republicans might attribute the responsibility of its defeat to the Democratic on the pending canvass :-Senate. The Senate could not refuse to adjourn at the time proposed by the House without incurring the responsibility of pro tracting the session-and for want of time to act upon it the Tariff bill had to be postponed. The House occupied months in maturing and considering this bill, and then

In forcing the Tariff issue upon the Democracy of Pennsylvania, and attempting to make political capital upon a question which is not of a party character, and upon which the people of this State are nearly all of one opinion, they have made a great blunder, because they have led people to investigate the question of responsibility for the Tariff of 1857, under the operations of which the interests of Pennsylvania have not prospered as they should. That Tariff was passed by the Republicans, who had control of the House of Representatives .-N. P. Banks, of Massachusetts, the Republican Speaker and a free-trader, used his position to accomplish the reduction of the Tariff. Lewis C. Campbell, the Chairman of the Committee of Ways and Means, appointed by Mr. Banks, engineered the bill through the House, where it was passed by a large majority, including many of the most prominent Republican members. In the debate on the passage of this bill Mr. Campbell rold the House that the question of a Tariff ought to be withdrawn from party polities; and he even went so far as to re buke the Pennsylvanians for clinging to her old policy "which sees no other interest than her "iron and coal."

## Horrible Sentiments.

We call the serious attention of the sensible and patriotic people of Pennsylvania to the following horrible and disgusting senti ments uttered by Joshua R. Giddings, one of the leaders of the Lincoln Black Republican party. Can it be possible that the conservative voters of our noble Commonwealth will follow the lead of men who dare give utterance to such fiendish doc trines? Listen to this black hearted Lincoln

"I look forward to the day when there shall be a SERVILE INSURRECTION IN THE hickory pole was raised with flags and South; when the black mon, ARMED WITH streamers upon it. The Democracy of BRITISH BAYONETS, AND LED ON BY BRITISH OFFICERS shall assert their freedom, and WAGE A WAR OF EXTERMINATION AGAINST HIS MASTER; when the torch of the incendiary shall light up towns and the cities of the South, and blot out the ost vestige of slavery. And though I may not mock at their calamity, nor laugh when their fear cometh, yet I will hail it as the dawn of a political millenium."

Patriotic citizens of Pennsylvania, how can you sustain a party whose leaders openly promulgate such horrible sentiments as these? Do you not shudder at the bare thought of placing such men in power?

Are the people of Pennsylvania prepared to endorse the teachings of such men as Gippings, the infamous Carl Schurz, and the host of Abolitions who have been precipitated upon our State? No! perish the thought! Up, then, Democrats! and by one bold and united effort, put down these miserable, traitorous wretches, whose sole aim is to precipitate our happy country speaking of it, says : headlong to destruction.

The Republicans expected indeed the business interests of the nation. and wanted the Tariff bill to be defeated or

In this connection we take occasion to call attention to the fact that, in this State, in the Presidential canvass of 1856, the joint majority of the conservatives over Fremont was 165,009 votes The vote for Buchanan, 230.772 : Fremont, 147 963 : Fillmore, 92, 200. ## Crucky to Animals.

The forty-sixth section of the Penal Code of this State, as revised by a committee of the last Legislature, imposes a severe penalty upon those who cruelly beat or torture animals. And it is just, that it is so. In every civilized community such statutes exist, and in London and other cities of Europe, societies exist for the protection of animals, the individual members of which are required to inform upon and bring all such offenders to justice. For the benefit of those who own horses and cattle and who think, because they are their personal property, they can beat and treat them as they please, as well as others, we subjoin the 46th section :

"If any person shall wantonly and cruelly beat, torture, kill, or maim any horse or domestic animal, whether belonging to him self or another, every such person so offending shall be guilty of a misdemeanor, and, on conviction, be sentenced to pay a fine not exceeding two hundred dollars, or undergo an imprisonment not exceeding one year, or both, or either, at the discretion of

The Maine Democracy. That the organization of the Democratic party should sometimes fall into unworthy hands-into the hands of those who would not hesitate to attempt to turn it aside from the path of constitutional daty-is not strange. Its doors are ever open, and friend and foe can enter at pleasure. In the days of its prosperity there is always a rush of unprincipled men to its enclosure, and when they are once within its fold their first aim is to get control of its organization. Loyal Democrats are often modest men, and make no resistance to such persons when they seek the highest places of power and trust

Too many of such men were made delegates to the Charleston Convention, and a well nigh successful effort was made to sectionalize the party, but fortunately they did not succeed. They were met in their traitorous attempt by a solid phalanx of Jacksonian Democrats who thwarted their base designs, and, wresting the helm of the organization from their hands, saved the ship from being dashed upon the breakers of squatter sovereignty towards which they were directly heading. Thanks to the true nen of the South, aided by equally true men of the North, the gallant ship of the Democracy again rides safely upon the smooth and open sea of constitutional

The above class of complaints will be removed by nightly fomenting the parts with warm water, and then by most effectnally rubbing in the Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointnent on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though palpable to the eye. There again bread and water poultices, after rubbing in of the Ointment, will do great service. This is the only sure treatment for females, cases of cancer in the stomach, of where there may be a general bearing
