A Good Dialogue.

[The scene of the following Interesting Dialogue is that of two farmers on opposite sides of a fence. Mr. Smith, who has beside him a basket of very small potatoes, is leaning on the fence looking wistfully over at Mr. Jones, who is digging a splendid crop of big Potatoes. A picture of the scene was prepared with the original dialogue, and should be here, but we have not the engraving at hand. The dialogue is pleasing and instructive, and should be read by every one.]

> Mr. Jones-I'll give you my experience : it may aid you. About nineteen years ago I heard that some men who had been brought up on farms had clubbed together, and one of them was going to publish a paper, which should consist mainly of accounts of how different farmers cultivated various crops, and such like matters sent for the paper and have done so every in a letter, giving your name, Post Office, year since, and now I have nineteen large County, and State plainly, and direct to volumes, every page of which I have read, ORANGE JUDD, 41 Park Row, New York City. a little at a time, and the whole has not cost days ago a fire was lighted in the stove, the sand thoughts, and hints, and suggestions I teacher having forgotten the bottle was have thus gathered. You see, I get all the plenty of brains. The editor called here last week on his Western tour among farmers, and seeing my good crops, he asked me to write out just how I have treated this such practical matters, and perhaps a hundred thousand persons will read it; and though nobody eise may do just as I do, many will get a new hint, and improve choice garden and field seeds. upon it. You may read it if you will.

Mr. Smith-I would like to borrow your them ?

Mr. Jones-It doesn't touch politics. It is devoted to such subjects as Field and Garden crops, Animals, etc., and has, besides, a good deal about Woman's Work, which wife says is worth more than ten times the few pounds of butter it costs to pay for the paper. Then there is also a department for the young folks containing many things which please the children-not mere trashy stuff, such as is too often printed for them, but information that will have good influence on them. I would sell a dozen bushels | SARAH MELICK, wife of Samuel Melick, of wheat to have my young people get the price of one bushel will pay for it a year. for years in the laboratory, and has besides, traveled all over the country to see what was doing. Then he has several associates-Farmers, Gardeners, and Housekeepers, who know what they write about, and among them all they do gather up a wonderful lot of information every year. The language, too, is so plain, so like talking with you, that I enjoy reading it. Then, too, every paper has engravings, which show one exactly how animals and plants, implements, and household furniture look much better than words could describe them. Among these are plans of buildings, that help one to plan others; and also many very fine large pictures, which are worth more than the cost of a whole volume.

Mr. Smith-I suppose those engravings and descriptions are partly to help the editor sell implements or fertilizers.

Mr. Jones-Not at all. The editor keeps nothing of the sort to sell, so that he may be perfectly free to praise or condemn any thing, actording as it may be valuable or worthless to his readers. You would laugh to see how he comes down on poor inventions, patent manures, and all kinds of

Mr. Smith -- Is the paper adapted to our part of the country ?

Mr. Jones-Exactly. Soils and crops and climates differ, but the general principles of cultivation are the same everywhere and here is the benfit of a paper published for the whole country. Every reader gets new ideas by learning what is done somewhere You know it all yourself: I don't, and so 1 else; and further, I find that the paper has letters from every part of the country, and one or more associate editors in different for twenty years, and you see one result in sections, so that we get information from many regions and our ewn too. One thing Mr. Smith-Yes, I see the result, but I I must mention particularly. The editor is constantly warning his readers against humbugs, telling how sharpers take the advantage of people. Why, I was just going to send a dollar for an article advertised in glowing colors, when I found it shown up as a humbug in this paper. But I can not stop to talk more now-I have such a lot of potatoes to harvest.

Mr. Smith-I wish I had. I must try that paper a year, and see what there is in Mr. Smith-I've always been down on it. I can manage to save two cents a week. Mr. Jones-Never lear. If you don't find it pays, I'll buy your copies at cost, for my

Mr. Smith-What did you say the paper is called?

PROCLAMATION.

FELLOW CITIZENS: The revolutions of

the year have again brought us to our annual festival of Thanksgiving to Almighty God. In no preceding year have we had more abundant cause for gratitude and praise. The revolving seasons have brought with them health and plenty. The summer fruits and the autumn harvests have been gathered and garnered in unwonted exuberance. A healthful activity has pervaded all the departments of life; and provident industry has met with a generous reward. The increase of material wealth has been liberally employed in sustaining our Educational and Religious Institutions ; and both are making the most gratifying progress in enlightening and purifying the public mind. While, in Europe, central and absolute governments, by which their pressure on personal rights and liberty, are producing excitements, which threaten to upheave the very foundations of society. and have led, in some instances, to bloody and cruel wars, we, in the enjoyment of constitutional liberty, and under the protection of just and equal laws, are peacefully pursuing the avocations of life, and engaging in whatever promises to advance our social and individual improvements and happiness. "The lines are," indeed, "fallen to us in pleasent places, and we have a goodly heritage " In all this we see the orderings of a kind and merciful Providence, which call not only for our recogni tion, but for our public Thankigiving and

Under this conviction, I. WILLIAM F PACKER, Governor of the Commonwealth of Pennsylvania, do hereby appoint THURS DAY, THE TWENTY-NINTH DAY OF NOVEMBER NEXT, to be observed as a day of public Thanksgiving and Prayer, and recommend to all our people, that setting aside, on that day, all worldly pursuits they assemble in their respective places of wor ship, and unite in offering Thanks to God for his manifold goodness, and imploring His forgiveness, and the continuance of

NERVOUS DISORDERS

What is more fearful than a breaking down of the nervous system ? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? There is one :- drink but little wine, beer, or spirits, or far better, none: take no coffee,-weak tea being preferable; get all the tresh air you can ; take three or four Pills every night; eat plenty of solids, avoiding the use of slops; and if these gold en rules are followed, you will be happy in mind and strong in body, and forget you have any nerves.

MOTHERS AND DAUGHTERS.

If there is one thing more than another for which these Pills are so famous it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous and suspended secretions. Universally adopted as the one grand remedy for female complaints they never fail, never weaken the system, and always bring about what is required. SICK HEADACHES AND WANT OF APPETITE

These feelings which so sadden us, most frequently arise from annoyances or troube, from obstructed perspiration, or from eating and drinking what is unfit for us. thus disordering the liver and stomach -These organs must be regulated if you wish to be well. The Pills, if taken according to the printed instructions, will quickly restore a healthy action to both liver and stomach, whence follow as a patural consequence, a good appeare and a clear head. In the East and West Indies scarcely any other medicine is ever used for these dis-

DISORDERS OF THE KIDNEYS.

In all diseases affecting these organs. whether they secrete too much or too little water; or whether they be afflicted with stone or gravel, or with aches and paius settled in the lains over the regions of the kidneya, these Pills should be taken according to the printed instructions directions. and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief

when all other means have failed. FOR STOMACHS OUT OF ORFER. No medicine will so effectually improve the tone of the stomach as these Pills; they action; they are wonderfully efficacious its cases of spasm-in fact they never fail in cuting all disorders of the li er and stomuch.
