

STAR OF THE NORTH.

Bloomsburg, Wednesday, November 28, 1860.

We cannot agree to publish R. Newell's Photograph Gallery upon the terms offered by Mr. V. E. Palmer. Trade not acceptable.

The new German Reformed Church is fast nearing completion, under the supervision of Mr. Simon C. Shive. It will be a handsome edifice when finished.

Faculty of every description, taken at this office on account. Also grain will not be refused, but taken at the highest market price.

On account of too much other business, we failed to notice several periodicals in this Star. They will be attended to in our next issue.

A PROTRACTED MEETING was commenced by our friends of the M. E. Church in Light Street on Saturday last. It attended with good success will continue a week or two.

On Wednesday night a week, a series of meetings will commence in the Lutheran Church, at this place, under the pastoral charge of the Rev. J. R. Dimm.

We are credibly informed that, Hon. HORACE GREELEY, of the New York Tribune, will deliver a Lecture before the Young Men's Christian Association of this place, on Friday evening, December 14th, 1860.

The cars on the Catawissa road have commenced running differently to what they did a few days since. We have not saw the new time table, but judge the time not altered very much.

At work.—The cabinet makers. Not less than a dozen cabinets have already been framed for "Old Abe"—all of them composed principally of black oak—Hollidaysburg Standard.

The Proprietor of New York Times makes a proposition to country Editors to publish his Prospect of a half column in length and in return he will send his semi weekly one year. This will not take with us; say your Daily one year, and we'll call to see you.

We design opening in our next issue an Educational Department, and we would invite all those who feel any interest in educational matters to contribute towards making this portion of our paper as interesting and useful as possible.

Dr. John's favorite tea appears to be "catnip" as he has frequently recommended it to persons whom he thought something of the kind needed. We should think catnip tea much better, although we don't claim to be a Doctor.

Mr. ADRIAN VANHOVEN, of this place, showed at our office one day last week, a Turnip which weighed nine pounds and measured in circumference thirty-four inches. We'd like to see somebody turn up one to beat it.

NEXT week will be court week, and will afford a splendid opportunity to all coming to town to pay the Printer. Give us a call and we'll write receipts till our fingers ache, only so that the "spindlicuffs" are forthcoming.

REMEDY FOR A FELON.—We find in an exchange, the following simple remedy for this most painful, and most difficult to cure, of all sores.—Take a pint of common soft soap, and stir it in air-slacked lime till it is of the consistency of glazier's putty. Make a leather thimble, fill it with this composition, and insert the finger therein, and change the composition once in twenty minutes, and a cure is certain.

Holloway's Pills and Ointment.—The victories of science, Domestic Remedies. Steam electric telegraph printing, &c., have each had their particular vocation, but the man who has reduced the sphere of disease and alleviated the sufferings of millions of his fellow beings, is, to say the least of it, entitled to our admiration. Holloway has expended a life time in the suppression of sickness throughout the world, and is the author of the most successful of all the effective cures of measles, small-pox, ring-worm, whooping cough, and all disorders affecting childhood, his Pills and Ointment are as familiar as household words, in Europe, Asia, Africa and America. Mothers should never be without a supply.

Dr. John's Book Store.—We commend public spirit and enterprise. Energetic business men are of use to every town. They should be patronized and encouraged.—They always will be. Hence it is that we are gratified to see the success and increasing business of our friend Dr. John, especially in the Book and Stationery trade. He is selling a great many Books and a large amount of Wall Paper and Stationery. In addition to the retail part he is supplying our Country Merchants at Wholesale rates. This to the man will prove an accommodation, as they can send in their small orders as they need them. For anything you need in

THE TRIBUNE FOR 1861.

Prospectus.
The XXth Volume of the Weekly Tribune commences with the issue of Sept. 1. During the past year The Tribune has been obliged to devote quite a large proportion of its space to Politics, but we shall soon be able to forego Political discussions almost entirely, for months if not for years, and devote nearly all our columns to subjects of less interest, but more abiding interest. Among these, we mean to pay special attention to:

1. Education.—The whole subject of Education, both Popular and General, will be discussed in our columns throughout the year 1861, and we hope to elicit in that discussion some of the profoundest thinkers and the ablest instructors in our country. It is at once our hope and our resolve that the cause of Education shall receive an impetus from the exertions of The Tribune in its behalf during the year 1861.

2. Agriculture.—We have been compelled to restrict our elucidations of this great interest throughout 1860, and shall endeavor to atone therefor in 1861. What ever discovery, deduction, demonstration, is calculated to render the reward of labor devoted to cultivation more ample or more certain, shall receive prompt and full attention.

3. Manufactures, &c.—We hail every invention, enterprise whereby American Capital and Labor are attracted to and advantageously employed in any department of Manufacturing or Mechanical Industry as a real contribution to the Public Weal, insuring ampler steadier, more convenient, more remunerating markets to the Farmer, with fuller employment and better wages to the Laborer. The progress of Mining, Iron-Making, Steel-Making, Cloth Weaving, &c., &c., in our country and the world shall be watched and reported by us with an earnest and active sympathy.

4. Foreign Affairs.—We employ the best correspondents in London, Paris, Berlin, and other European Capitals, to transmit us early and accurate advices of the great changes there silently but certainly preparing. In spite of the pressure of Domestic Politics, our News from the Old World is now varied and ample; and we shall have to render it more perfect during the eventful year just before us.

5. Home News.—We employ regular paid correspondents in California, at the Isthmus of Darien, in the Rocky Mountain Gold Region, and wherever else they seem requisite from the more accessible portions of our own country, we send them forth promptly from the multifarious correspondents of the Associated Press from our exchanges, and the occasional letters of intelligent friends. We aim to print the cheapest general newspaper, with the fullest and most authentic summary of useful intelligence, that is anywhere afforded. Hoping to "make each year a critic on the press," a better and a better paper, we enlarge through the generous co-operation of our many well wishers, we solicit and shall labor to deserve a continuance of public favor.

6. Home News.—We employ regular paid correspondents in California, at the Isthmus of Darien, in the Rocky Mountain Gold Region, and wherever else they seem requisite from the more accessible portions of our own country, we send them forth promptly from the multifarious correspondents of the Associated Press from our exchanges, and the occasional letters of intelligent friends. Bloomsburg, Oct. 24, 1860.

RAYMOND'S FAMILY SEWING MACHINE!
PATENTED MARCH 9, 1858.

PRICE \$10 EACH.
MESSRS. ZUPPINGER & ROBBINS, of Bloomsburg, having purchased the exclusive right of the above valuable Improved Cheaf Patent Sewing Machine, for the County of Columbia, will be happy to supply their friends with the article for the accommodation of themselves and families.

The following are some of the superior advantages of this important possession, viz: 1. It sews from 400 to 600 tight stitches per minute.
2. Double thread Machines are from the more complicated character of their mechanism, invariably managed and treated with more or less difficulty; not so with RAYMOND'S, a child can manage it in two hours, and it is threaded easier than a common needle.
3. One of the most valuable features of this Machine, is the smallness and the compactness of its mechanism.
4. It can be attached to a board table or stand, in operating order, and removed in less than half a minute.
5. It greatly economizes the thread, and yet produces a seam, sufficiently strong for any work for which it is intended, a qualification not known to all kinds of Sewing Machines.
6. No human hand is capable of producing a seam so regular and systematic.—The seam is so strong if well done, that the strongest material will tear before the seam will give way.
7. Among the array of Patent Sewing Machines, there are none so cheap and durable as Raymond's Patent, but no Machine is adapted to all kinds of work as experience has proven. There are perhaps none so really useful, doing such a variety of work for the immediate use of the family, and at such a moderate price as RAYMOND'S PATENT.
8. The operator can shape his seam just as he pleases, waves, leaves and flowers, etc., can be represented or imitated.
9. It is particularly adapted, to all kinds of stitching—such as gentlemen's shirts, bonnets, ribbands, collars, etc.—and all kinds of domestic sewing, including silks, laces, drapes, calicoes, dusters, &c., and excepting for men's heavy wear, this Machine is rather too light of construction.
10. By its use, and principally to the vision of eyesight, induced by the use of Sewing Machines, surpasses infinitely all other advantages.
11. This Machine fastens the seam always itself, but if the operator wishes it unfastened or open, there is a way for it too, this you can have it fastened or not, as you please, which, is, sometimes, especially for beginners, a very favorable circumstance. If the seam is left unfastened, you can draw it out in three seconds and save the thread.
For by the undersigned, at their respective residences, in Bloomsburg, who will put the Machine in operation and give all necessary instruction.
HENRY ZUPPINGER,
DANIEL W. ROBBINS,
Bloomsburg, July 11, 1860.

Auditor's Notice.
ESTATE of Jacob Fry, late of Millin tp. dec'd.
ALL persons interested will take notice, that the undersigned appointed Auditor by the Orphan's Court of Columbia county, to settle and adjust the rates and proportions of the assets of the estate of Jacob Fry, deceased, in the hands of Samuel Creary, the administrator, and to among the respective creditors of the said Jacob Fry, according to the order established by law, will sit at his office, in Bloomsburg, in said county, on Saturday, the 24th day of November, 1860, to make the distribution, when and where all persons having claims or demands against the estate of the decedent are required to present them to the auditor, or be forever barred from any claim to the fund in the hands of the administrator.
ROBT. F. CLARK,
Bloomsburg, Oct. 18, 1860. Auditor.

HOTEL PROPERTY FOR SALE.
THE undersigned takes this method of offering his valuable Hotel Property at private sale, situated in the pleasant and thriving village of Light Street, Columbia County, Pa. This is understood to be most an excellent HOTEL STAND, the House, Stable and outbuildings being all in good repair. The Proprietor of this house having no desire to continue in the hotel business, will dispose of his property at private sale to the most reasonable terms. To any person wishing to engage in the business it is a good location and a desirable place.

THE PEOPLE'S COOK BOOK.
