HOLLOWAY'S OINTMENT. BAD LEGS, BAD BREATS, SORES

AND ULCERS. All description of sores are remediable by the proper and diligent use of this inestimable preparation. To attmpt to curbad legs by plastering the edges of the wound together is a folly; for should the skin unite, a loggy diseased doudition remains underneath to break out with tenfold fory in a few days. The only rationant and specessful treatment, as indicated by nature. to to reduce the inflamation in and abou the wound and to soothe the neighboring parts by rubbing in plenty of the Ointment as salt is forced into meat,

DIPTHERIA, ULCERATED SORE THROAT, AND SCARLET AND OTHER FEVERS.

Any of the above diseases may be cured by well subbing the Ointment three time. a day into the chest, throat and neck of the patient; it will soon penetrate, and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in any lo cal part, whereas the Omment will do it. work at once. Whoever tries the ungnen in the above manner of the disease named or any similar disorders affecting the chesand throat, will find themselves relieved aby a charm.

PILES, FISTULAS, STRICTURES. The above class of complaints will be removed by nightly fomenting the parts with warm water, and then by most effect. pally rubbing in the Ointment. Persons soffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointmen; on the affected parts, but it must be well rubbed in for some considerable timtwo or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectnally as though palpable to the eye. There again bread and water poultices, after rubbing in of the Ointment, will do great ser vice. This is the only sure treatment for females, cases of cancer in the stomach, or where there may be a general bearing

INDISCRETIONS OF YOUTH :- SORES AND ULCERS.

Blotches, as also swellings, neo, with centainty, be radically cored if the Ointment be used freely, and Pills be taker night and morning as recommended in the printed instructions. When treated in any other way they only dry up in one place to break out in anoiber ; whereas this Ointment will remove the humor from the system, and leave the patient a vigorous and healthy being. It will require time with the use of the Pills to ensure a lasting cure DROPSICAL SWELLINGS, PARALYSIS AND STIFF JOINTS.

Although the above complaints differ widely in their origin and nature, yet they all require local treatment. Many of the worst cases, of such diseases, will yield in a comparatively short space of time when this Omment is diligently rubbed into the parts affected, even after every other means have failed. In all serious maladies the Pills should be taken according to the di rections accompanying each box.
