OWAY'S OINTMENT. AD LECS, BAD BREATS, SORES

AND ULCERS. All description of sores are remediable by the proper and diligent use of this inestimable preparation. To attmpt to cure bad legs by plastering the edges of the wound togother is a folly; for should the skin unite, a loggy diseased doudition remains underneath to break out with tenfold tury in a few days. The only rationanl and successful meatment, as indicated by nature, is to reduce the inflamation in and about the wound and to soothe the neighboring parts by rutbing in plenty of the Ointment as salt is forced into meat.

DIPTHERIA, ULCERATED SORE THROAT, AND SCARLET AND OTHER FEVERS.

- Any of the above diseases may be cured by well rubbing the Ointment three times a day into the cheet, throat and neck of the patient; it will soon penetrate, and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in uny local part, whereas the Ointment will do its work at once. Whoever tries the unguent in the above manner of the disease named, or any similar disorders affecting the chest and threat, will find themselves relieved as | ed with the choicest liquors.

PILES, FISTULAS, STRICTURES. The above class of complaints will be removed by nightly fomenting the partwith warm water, and then by most effectnally rubbing in the Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointmove any hidden sore or wound as effect where there may be a general bearing tensive in this section of country. INDISCRETIONS OF YOUTH ;-SORES AND ULCERS.

certainty, be radically cored if the Ointment be used freely, and Pills be taken ht and morning as recommended in the printed instructions. When treated in any other way they only dry up in one place LANGE PARALYSIS AND STIFF JOINTS.

Although the above complaints differ widely in their origin and nature, yet they all require local treatment. Many of the worst cases, of such diseases, will yield in a comparatively short space of time when this Ointment is diligently rubbed into the parts affected, even after every other means have failed. In all serious maladies the Pills should be taken according to the ditections accompanying each box.

Both the Ointment and Pills should be used in the following cases : Drpsy,

RAYMOND'S FAMILY SEWING MACHINE! PATENTED MARCH 9, 1858.

PRICE SIO EACH. MESSRS. ZUPPINGER & ROBBINS, of Bloomsburg, having purchased the exclusive right of the above valuable Improplosion and cheaper than fluid, lard oil, fish | ved Chear Patent Sewing Machine, for the County of Columbia, will be happy to supply their friends with the article for the accommedation of themselves and families. The following are some of the superior advantages this implement possesses, viz: 1. It sews from 400 to 600 tight stitches

2. Double thread Machines are from the more complicated character of their mechanism invariably managed and threaded DRUGS. MEDICINES & CHEMICALS, hours, and it is threaded easier than a commen needle.

3. One of the most valuable features of this Machine, is the smallness and the compactness of its mechanism. 4. It can be attached to a board, table or siand, in operating order, and removed in

less than half a minute. 5. It greatly economizes the thread, and yet produces a seam, sufficiently strong for any work for which it is intended, a qualification not known to all kinds of Sewing Machines.

6. No human hand is capable of produand Dental Instruments, Sash Nail & Tooth eing a seam so regular and systematic .-The seam is so strong if well done, that the Remedies, garden, canary, rape and hemp strongest material will tear before the seam will give way. 7. Among the array of Patent Sewing

Machines, there are none so cheap and derable as Raymond's Patent, but no Machine is adapted to all kinds of work as ever brought to this place, all of which experience has proven. There are perhaps please call and see, and you must believe. none so realy useful, doing such a variety Having learned by sad experience that of wore for the immediate use of the family circle, and at such a moderate price as RAYMOND'S PATENT. 8. The operator can shape his seam just

as he pleases, waves, leaves and flowers, eic., can be represented or imitated. 9. It is particularly adapted to all kinds of stitching-such as gentlemen's shirts, bosoms, ristbands, collars, etc., and all suspenders and fancy articles. kinds of ladies' sewing, including silks, lawns, delaines, calicoes, dusters, etc., excepting for men'sheavy wear, this Machine

is rather too light of construction. 10. But we all admit, that the advantage to health, and principally to the vision or eyesight, inunced by the use of Sewing Machines, surpasses infinitely all other ad-

vantages. 11. This Machine fastens the seam always itself, but if the operator wishes it untastened or open, there is a way for it Screet, near Market, next door to the Post too, thus you can have it fastened or not, Office, Bloomsburg, Columbia county, Pa. as you please, which is, sometimes, especially for beginners, a very (avorable circumstance. If the seam is left unfastened, you can draw it our in three seconds and save the thread.
