MARK THESE FACTS!
THE TESTIMONY OF THE WORLD.

HOLLOWAY'S OINTMENT.
BAD LEGS, BAD BREASTS, SORES AND ULCERS.

All descriptions of sores are remediable by the proper and diligent use of this inestimable preparation. To attempt to cure bad legs by plastering the edges with ointment together is folly; for should the skin unite, a boggy condition remains underneath to break out with tenfold fury in a few days. The only rational and successful treatment, as indicated by nature, is to reduce the inflammation, and about the wound and adjacent parts the Ointment as a salt is forced into meat.

DIPHTHERIA, ULCERATED SORE THROAT, AND SCARLET AND OTHER FEVERS.

Any of the above diseases may be cured by well rubbing the Ointment three times a day into the chest, throat and neck of the patient; it will soon penetrate, and give immediate relief. Medicines taken by the mouth must operate upon the whole system, whereas the Ointment will do its work at once. Whoever tries the ointment in the above manner of the disease named, or any similar disorder affecting the chest and throat, will find themselves relieved as by a charm.

PILES, FISTULAS, STRICTURES.

The above class of complaints will be removed by nightly inserting the Ointment into the rectum, and then by most effectual rubbing in the Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointment on the affected parts, but it must be well rubbed in for some considerable time, or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though palpable to the eye. There again bread and water policies, after rubbing in of the Ointment, will do great service. This is the only sure treatment for females, cases of cancer in the stomach, or where there may be a general bearing down.

INDISCRETIONS OF YOUTH—SORES AND ULCERS.

Blotches, as also swellings, used, with certainty, be radically cured if the Ointment be used freely, and Pills be taken night and morning as recommended in the printed instructions. When treated in any other way they only dry up in one place, and break out in another; whereas this Ointment will remove the humor from the system, and leave the patient a vigorous and healthy being. It will require time with the use of the Pills to ensure a lasting cure. **DROPSICAL SWELLINGS, PARALYSIS AND STIFF JOINTS.**

Although the above complaints differ widely in their origin and nature, yet they all require local treatment. Many of the worst cases, of such diseases, will yield in a comparatively short space of time, when this Ointment is diligently rubbed into the parts affected, even after every other means have failed. In all serious maladies the Pills should be taken according to the directions accompanying each box.

Henry Zuppinger's ESTABLISHMENT.

THANKS, my best thanks, to all; with a few slenderers, I have a horse to pick, and that is; I forgive them, gladly, and kindly; they have injured me very little; for listen what the "knowing" ones say: "He is a real good workman, the best we know; an excellent Watchmaker and a first rate Silver Smith and Jeweller, and if you look right, true as gold." Now mind! how can I demonstrate my gratitude for this popular good opinion? Answer: By a renewed, strong effort to do what is right and will last. New Watches, new Clocks; a lot of fine and of common Jewelry; a good assortment of Spectacles, and glasses for Spectacles, plated, steel, and silver framed, with glasses to suit all ages; a full assortment of watch glasses, hunting and open cases; watch materials and clock trimmings, and so forth. Also Sewing Machines kept going and repaired. Also a very fine article of gold pens, warranted 14 Carats, Band Desk, Mammoth and Commercial.

RAYMOND'S FAMILY SEWING MACHINE!
PATENTED MARCH 9, 1858.

PRICE BROTHER.
MESSRS. ZUPPINGER & ROBBINS, of Bloomsburg, having purchased the exclusive right of the above valuable Improved Cheas Patent Sewing Machine, for the County of Columbia, will be happy to supply their friends with articles of the above character of themselves and families. The following are some of the superior advantages this implement possesses, viz:

1. It sews from 400 to 600 tight stitches per minute.
2. Double thread Machines are from the more complicated character of their mechanism invariably managed and threaded with more or less difficulty; not so with RAYMOND'S, a child can manage it in two hours, and it is threaded easier than a common needle.
3. One of the most valuable features of this Machine, is the smallness and the compactness of its mechanism.
4. It can be attached to a board, table or stand, in operating order, and removed in less than half a minute.
5. It greatly economizes the thread, and yet produces a seam, sufficiently strong for any work for which it is intended, and which is not known to all kinds of Sewing Machines.
6. No human hand is capable of producing a seam so regular and systematic. The seam is so strong it will hold, that the strongest material will tear before the seam will give way.
7. Among the array of Patent Sewing Machines, there are none so cheap and durable as Raymond's Patent, not so Machine is adapted to all kinds of work as experience has proven. There are perhaps none so really useful, doing such a variety of work for the immediate use of the family circle, and at such a moderate price as RAYMOND'S PATENT.
8. The operator can shape his seam just as he pleases, waves, leaves and flowers, etc., can be represented or imitated.
9. It is particularly adapted to all kinds of stitching—such as gentlemen's shirts, bosoms, rishbands, collars, etc.—and all kinds of ladies' dresses, including silks, lawns, delaines, calicoes, dusters, etc., excepting for men's heavy wear, this Machine is rather too light of construction.
10. But we all admit, that the advantage to health, and principally to the vision or eyesight, induced by the use of Sewing Machines, surpasses infinitely all other advantages.
11. This Machine fastens the seam all by itself, but if the operator wishes it unfastened or open, there is a way for it too, thus you can have it fastened or open, as you please, which is, sometimes, especially for beginners, a very favorable circumstance. If the seam is left unfastened, you can draw it out in three seconds and save the thread.
