AN aperient and Stomachie preparat on of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Enrope and the United States, and prescribed in their practice.

The experience of thousands Jaily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case.

Innoxious in all maladies in which it has proved ab-clutely curative in each of the ollowing complaints, viz:

In Debility, Nervous Affections, Emaication, Dyspepsia, Consumption, Diarrica, lous Tuberculosis, Salt Rheum, Mismensignation. Wnites, Chlorosis, Liver Com, plaints, Chronic Headaches, Rheumstiem. Intermittent Fevers, Pimples on the Face.

In cases of General Debility, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalida so long bed-ridden as to have become forgotien in their own neighborhoods, have suddealy re-appeared in the busy world as if justice returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female Sofferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical chauges, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has so name.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being ularly aperient, even in the most obstinate cases of costiveness without ever being a gastric purgative, or indicting a disagreeable egusation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and speci-In Dyspepsia, innumerable as are its causes, a single tox of these Chalybeate
