NOTICE-We will continue to send out bills to those of our patrons who are indebted to us for one, two, and three, year's subscription to the STAR until the first of Moy next. All those indebted to us for three year's subscription, (\$6.00) who do not pay prompt attention to these bills, we will be under the necessity of placing their accounts discontinue the paper. We have quite a number on our books who have the first cent to pay us. Many such delinquents loon pockets were daily lined with cash rily obliged to make close collections up to the time above stated, and we therefore hope our patrons will heed the call.

### The British Press on American Affairs.

The European Times, of the 23d ult., has a very sensible and candid article on the troubles of the United States, and in which the gravest distru-t is manifested as to the ability of the present Administration to cope with the mighty events involved in the crisie through which we are passing. It thinks that "the Inaugural Address of the new President is a sensible enough document. as far as it goes," but adds :

"All the professions which Mr. Lincola makes of fairness and impartiality to the them back, and if his resolve be carried out of retaking the Federal property and collecting the duties, it is clear that civil war must follow, for it will be impossible to do either without lighting the torch that

expresses the opinion that the new Confedconfidence of Europe. It says:

the American continent has weakened the knocked away sympathy that has existed in England for the preservation of the Union since the polsecession as an unmixed evil, now view it as the best remedy. We do not share this opinion. We still cling to the belief, or would, we hold, be a calamity to the world

What an ignominious spectacle does the government of the United States present to the eyes of the world !- that government which, when first established, commanded the highest admiration of mankind. Now racked with dissentions, and threatened with a speedy precipitation into all misereries of a cruel intestine war, and for a cause which is disgraceful to human mind, arising from the abstract question whether slavery may go into frozen and barren territories, or the liberties, peace, union and happiness of a free and enlightened people be sacrificed and destroyed in resisting it. Can it be possible that history, faithful in its record, will have to chronicle such an

We really had imagined that after the election of Mr. Lincoln, and the commencement of the extreme Southern movement. the shock would have aroused an olden time sense of patriotism in the breast of at least him upon whom the Republicans had cast the weighty responsibility of Chief Magistracy, and would have also revived in his political friends, those considerations of duty and love of country taught by the genions of American liberty, and, until now. supposed to have been inseparably connected with American birth, education and as-

It is reported that altogether two thousand shots were fired; and also that no South icy of the Southerners became developed, shots were fired; and also that no South and many people, who first regarded the Carolinians were hurt. ## The "Shinplaster" Nnisance.

Among the many blessings already besowed, and to be yet bestowed upon the people of Pennsylvania by the present enlightened, honest and patriotic legislature, the passage of a bill empowering the banks to issue small notes the next protective measure on the tapes. Notwithstanding the House defeated this obnoxious attempt to foist a depreciated rag currency on the people, a few days ago, serious and just alarm s felt that this swindling project will yet succeed. A mushroom member by the name of Seltzer representing one of the districts of Philadelphia, but an original plant of Berks County, a most ferocious inense Know-Nothing Republican is the advocate of this Shinplaster Scheme. This transplanted vegitable appears to be constantly haunted by the ghost of some "locofoco"and considers himself in duty bound to "go in" for everything the "loco-focos" are opposed to, and vica versa. The Led ger's correspondent at Harrisburg holds the following language in regard to the small note question and the other small subject :

"The Honse considered, at yesterday afternoons' session, the proposed amendments to Free Banking Law, the leading features of which empower the banks to one two and three dollars, and repeal the provision requireing one fifth of the capital stock of each bank to be paid in specie .-The small note scheme was defeated by a Cumberland counties. vote of 53 to 34, although it was strenuously ressed by members from Northern and Western counties, who were backed up by one of your city representatives Mr. SELT-ZER. This member is in a bad way; visions of gloomy and vindictive "locofocos" pursue him relentlessly, and he seems to have a fatal presentment that they will some day be the death of him -

> No doubt he is right about that." But drop a very small subject for a very important one, it is not certain that this vote puts an end to the small vote business. Its advocates are persistent, and will bring and Allegheny rivers, any Butler and Armit up in some other form. Cortright, is resolved upon by Mr. Lincoln and his J Fenstermacher, 600 George Schall, of 159,281-exceeding the required ratio Cabinet. After long hesitation, the President has screwed his courage to the fighting point. At what precise spot he intends to commence hostilities or to provoke them -whether at Charleston, Pensacola, the mouths of the Mississippi, or in Texas, where there is an evident design to excite "domestic insurrection," or at all of these places together-does not yet appear; but a few days will unfold the mystery. To Mr. Lincoln, his Cabinet and the lead-

ers of the Republican party three courses are open-first, to vield to the Confederate in the Union, which would have had the effect of healing the breach and reuniting the sections; second, to permit a peaceable and bloodless separation, either in the hope of reunion at a future day, or at least of a friendly alliance for mutual defence against foreign foes, and for the establishmect of commercial relations, which, if not specially favoring the North, would not at least discriminate against her; and third, to wage a war of subjugation against seven sovereign States, which will be ultimately extended to fifteen, to compel them to submit to the authority of the government at Washin gton, and to pay a tribute to it, in contravention to the great principle for which the colonies fought and couquered the mother country in the revolution of 1776 - the principle that "without representation there can be no taxation."

The first of the three courses was the best and would have been that of a states SEC. 1. Be it enacted by the Senate and man. The second is the next best course.

The third course has been adopted, and that is unquestionably the worst of all. It nary cathartics, however, which create a will be destructive to the prestage and to the interests of the North, to say nothing of the bowels have become paralyzed, Dr hearths it will leave desolate, and the feelings of bitter eternal enmity which it will have engendered.

The pretence of carrying out the laws of this Union in the Confederate States, enforcing the federal authority and collecting the revenue, is too transparent to deceive any person. It has been clearly demonstrated that it is impossible to accomplish these objects without civil war of the most ferocious kind. To make the attempt, there. basis than ever. fore, is to deliberately commence a war whose end the present generation may not live to see, and whose disastrous effects will be such as to annihilate the accumulated wealth of the country at a blow, and throw back its progress half a century The real object of the war is to collect revenue, nor to assert the authority of the federal government, nor to protect its property. It is a war of propagandism-a war against the social institutions of fifteen States-a war to extripate negro slavery, if not to exterminare slaveholders. It is the irrepressible H. ## AYER'S Sarsaparilla FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints: Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

J. C. ATER & Co. Gents: I feel it my duty to ac-mowledge what your Sarssparilla has done for me. J. C. ATER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and leathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputa-tion that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small dose of a teaspoonful over a menth, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I held you to be one of the appeales of the secand radically. This lecture will prove a you, that I hold you to be one of the apostles of the age, and remain ever gratefully. Yours,

ALFRED B. TALLEY.

St. Anthony's Pire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Ringworm, Sore Eyes, Dropsy. Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of Drepsy, which threatened to terminate fatally, by the Malignant Erysipelas by large doses of the same; says Bronchocele, Goltre or Swelled Neck Zebulon Sloan of Prospect, Texas, writes; "Three bot tles of your Sarsaparilla cured me from a Goire — a hid-

eous swelling on the neck, which I had suffered from over two years." Leucorrhon or Whites, Ovarian Tumor, Dr. J. B. S. Channing, of New York City, writes; "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a ramedy, but especially in Female Diseases of the Scrofulous diathesis. I have cared many inveterate cases of Lencorrheea by it, and some where the com plaint was caused by ulceration of the uterus. The ulcer-stion itself was soon cared. Nothing within my knowl-

edge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dapgerous oversian tumor on one of the females in my family, which had defied all the remedies we could employ, bar at length been completely cured by your Extract of Sar-saparilla. Our physician thought nothing but extirpaion could afford relief, but he advised the trial of your arsaparilla as the last resort before cutting, and is proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease. NEW OBLEANS, 25th August, 1850. Dr. J. C. ATER: Sir, I cheerfully comply with the re-nest of your agent, and report to you some of the effects

have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Venereal and Mcr-curial Disease. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the niceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it gishled to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so senfrom this potson in her bones. They had become so sensitive to the weather that on a damp day size suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your inboratory must be a great remedy; consequently, these truly remarkable results with it have not sorraised me. with it have not surprised me.
Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint. INDEPENDENCE, Preston Co., Va., 6th July, 1859. Dr. J. C. AYER: Sir, I have been afflicted with a painil chronic Rheumatism for a long time, which buffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Saruaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM. Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down may the Liver. My beloved pastor, the Rev. Mr. Espy, advise me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessas to make a new man of me. I feel young again. best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Eptlep-sy, Melancholy, Neuralgia. Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimu-lates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this wil do for them all that medicine can do.

## Ayer's Cherry Pectoral FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Con-sumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the carib. Few are the communities, or even families, among them who have not some personal experience of its effects— some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.
