

MARK THESE FACTS!

THE TESTIMONY OF THE WORLD.

HOLLOWAY'S OINTMENT.

BAD LEGS, BAD BREASTS, SORES AND ULCERS.

All description of sores are remediable by the proper and diligent use of this medicinal preparation. To attempt to cure bad legs by plastering the edges of the wound together is a folly; for should the skin unite, a boggy diseased condition remains underneath to break out with tenfold fury in a few days. The only rational and successful treatment, as indicated by nature, is to reduce the inflammation and about parts by rubbing in plenty of the Ointment as it is forced into meat.

DIPHTHERIA, ULCERATED SORE THROAT, AND SCARLET AND OTHER FEVERS.

Any of the above diseases may be cured by daily rubbing the Ointment three times into the chest, throat and neck of the patient; it will soon penetrate, and give immediate relief. Medicine taken by the mouth must operate upon the whole system as its influence can be felt in any local part, whereas the Ointment will do its work at once. Whoever tries the Ointment in the above named diseases, or any other similar disorders affecting the chest and throat, will find themselves relieved as by a charm.

PILES, FISTULAS, STRICTURES.

The above class of complaints will be removed by nightly fomenting the parts with warm water, and then by most effectual rubbing in the Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointment on the affected parts, but it must be well rubbed in for a considerable time two or three times a day, that it may be absorbed into the system, whence it will remove any hidden sore or wound as effectually as though payable to the eye. There again bread and water poultices, after rubbing in of the Ointment, will do great service. This is the only sure treatment for females, cases of cancer in the stomach, or where there may be a general bearing down.

INDISCRETIONS OF YOUTH;—SORES AND ULCERS.

Blisters, as also swellings, used with ceratid, are radically cured if the Ointment be used freely, and Pills be taken night and morning as recommended in the printed instructions. When treated in any other way they only dry up in one place to break out in another; whereas this system, and leave the humor to the system, and remove the patient to vigorous and healthy being. It will require time with the use of the Pills to ensure a lasting cure.

Although the above complaints differ widely in their origin and nature, yet they all require local treatment. Many of the worst cases, of such diseases, will yield in a comparatively short space of time when this Ointment is diligently rubbed into the parts affected, even after every other means have failed. In all serious maladies the Pills should be taken according to the directions accompanying each box.

Book the Ointment and Pills should be used in the following cases:

Acne, Drpny, Bilious Complaints, Erysipelas, Blisters on the Skin, Fevers of all kinds, Coughs, Consumption, Indigestion, Sore Throat, Stone and Gravel, Tic-Doouloureux, Uterine, Liver Complaints, Lambo, Rheumatism, Retention of Urine, Scrofula, or King's Evil.

CAUTION!—None is genuine unless the words "Holloway, New York and London" are discernible as direction are on each box; the same may be plainly seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

* Sold at the Manufacturing of Professor Holloway, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine, throughout the civilized world. There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients, in every disorder, are affixed to each box. October 10, 1860.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and out of humor, and your system deranged, and your feelings uncontented? Are you troubled with constipation, or do you feel a general sickness creeping upon you, and should be averted by a purgative? Ayer's Cathartic Pills, and cleanse the blood, and let the fluids move on unobstructed, and stimulate the functions of the body into vigorous activity, and give the system from the obstructions which make disease a natural function. These, if not relieved, react upon themselves and the surrounding organs, producing general debility, and disease. While in this condition, expressed by the derangement of the bowels, and see how directly they restore the natural action of the system, and give you a feeling of health again. What is true and so apparent in this trivial and common complaint, is equally true in the most dangerous and distressing diseases. Caused by similar obstructions and derangement of the natural functions of the body, they are rapidly, and many of them cured, by the same means. None who know the efficacy of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statement of a physician in one of the most prominent cities, and from other well known public places.

From a *Forwarding Merchant of St. Louis, Mo., Feb. 1, 1855.*

ASA NORRIDGE,

As a Family Physician.

From Dr. E. W. Carter, New Orleans.

Your Pills are the best I have ever used. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, and their use is invariably successful in the treatment of disease.

RAYMOND'S FAMILY SEWING MACHINE!

PATENTED MARCH 9, 1858.

PRICE \$10 EACH.

MESSRS. ZUPPINGER & ROBBINS, of Bloomsburg, having purchased the exclusive right of the above valuable Improved Patent Sewing Machine, for the County of Columbia, will be happy to supply their friends with the article for the accommodation of themselves and families.

The following are some of the superior advantages (its implement possesses, viz:—

1. It sews from 400 to 600 tight stitches per minute.
2. Double thread Machines are from the more complicated character of their mechanism invariably managed and threaded with more or less difficulty; not so with RAYMOND'S, a child can manage it in two hours, and it is threaded easier than a common needle.
3. One of the most valuable features of this Machine, is the smallness and the compactness of its mechanism.
4. It can be attached to a board, table or stand, in operating order, and removed in less than half a minute.
5. It greatly economizes the thread, and yet produces a seam, sufficiently strong for any work which it is intended, a qualification not known to all kinds of Sewing Machines.
6. No human hand is capable of producing a seam so regular and systematic.—The seam is so strong if well done, that the strongest material will tear before the seam will give way.
7. Among the array of Patent Sewing Machines there are none so cheap and durable as Raymond's Patent, but no Machine is adapted to all kinds of work as experience has proven. There are perhaps none so really useful, doing such a variety of work for the immediate use of the family circle, and at such a moderate price as RAYMOND'S PATENT.
8. The operator can shape his seam just as he pleases, waves, leaves and flowers, etc., can be represented or imitated.
9. It is particularly adapted to all kinds of stitching—such as gentlemen's shirts, bosoms, rishbands, collars, etc.,—and all kinds of ladies' sewing, including silks, lawns, delaines, calicoes, dusters, etc., excepting for men's heavy wear, this Machine is rather tedious in construction.
10. But we all admit, that the advantage to health, and principally to the vision of eyesight, in consequence of the use of Sewing Machines, surpasses infinitely all other advantages.
11. This Machine fastens the seam always itself, but if the operator wishes it unfastened or open, there is a way to do so, and the seam will be fastened or not, as the operator wishes, which is, sometimes, especially for beginners, a very favorable circumstance. If the seam is left unfastened, you can draw it out in three seconds and save the thread.
12. For sale by the undersigned, at their respective residences, in Bloomsburg, who will put the Machine in operation and give all necessary instruction.

EVANS & WATSON'S

Phila. Manufactured

SALAMANDER SAFES;

No. 304 Chestnut Street PHILADELPHIA.

THESE Safes are in use now all over the United States, and have been well tested in many fires; the following shows another instance of their capability in resisting fire.

WITMER'S BRIDGE, Lancaster Township, July 30, 1860. Messrs. EVANS & WATSON: Gentlemen—The small size No. 1 Salamander Safe which I purchased from your agent, Mr. Adam R. Barr, in Lancaster City, on July 20th, 1858, has been subjected to a very severe test, which it withstood in a most satisfactory manner. This Safe, containing all my books, together with valuable papers belonging to myself and some to my neighbors and friends, and representing a value of over Twenty Thousand Dollars, (\$20,000) was in my Mill which was destroyed on the night of the 27th of July, 1860, and passed through the fiery ordeal unscathed. The Safe was on the second floor, and fell to the basement of the Mill, and was subjected for six hours to an intense heat among the ruins, which was greatly increased by the combustion of a large quantity of grain confined within the brick walls. After the fire the Safe was opened, and the books and papers taken out in a state of perfect preservation, the papers even being discolored. The Lock was, however, to many bystanders a better recommendation of your Safes than could be expressed in any other words from me. Yours Respectfully, SAMUEL RANCK.

Another Victory for Evans & Watson's Salamander Safe. Doneg, N. Y. March 31, 1860. Gentlemen—I would most respectfully inform you that the Safe No. 5 (pencil) which I purchased of B. Stroud, your Travelling Agent, has passed through an exceedingly hot fire in a three story brick building, which heated the Safe to a white heat, so that the corners of it appear melted; but it preserved my books and valuable papers to the amount of several thousand dollars, for which I am indebted to you. Yours, Respectfully, J. N. ELDRIDGE. Philadelphia, June 4th, 1858. Messrs. EVANS & WATSON: I have been in the Fire Proof Safes which have been in use since the commencement of our Bank, and are supplied with three of the Patent Safes, and have had the satisfaction to have great confidence in, both as regards security and convenience, there being no chance to blow it out with powder, and no key to carry. We consider it one of the best and safest Locks now in use. ROBERT MORRIS, Pres't Com'rh Bank, HENRY GRAMBO, Cashier.
