AYER'S

CATHARTIC

PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system de-ranged, and your feelings un-comfortable? These symp-toms are often the prelude to serious liness. Some fit of

the obstructions which maks disease. A cold settles somewhere in the body, and ob-structs its natural functions. These, if not relieved, react upon themselves and the surromading organs, pro-ducing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Fills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerons distempers. The same purgative effect expels them. Caused by similar obstruc-tions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Fills, will neglect to employ them when suffering from Pills, will neglect to employ them when suffering from

They have curred my fittle daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long griev-ously afflicted with biotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

#### As a Family Physic.

Headache, SickHeadache, Foul Stomach. From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you what complaints I have cured with your Fills better than to say all that we ever treat with a purgative medicine. I place great depen-dence on an effectual catharite is my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PHTEBURG, Pa., May 1, 1855. DR. J. C. ATER. Sir: I have been repeatedly cured of the worst *headache* any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cheme at our set of the stomach, which they cleanse at once.

Yours with great respect, ED. W. PREBLE, Clerk of Steamer Clarion Billious Disorders - Liver Complaints.

From Dr. Theodore Bell, of New York City. Not only are your Pills admirably adapted to their pur-

pose as an aperiont, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is wor-thy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1856, } Sim: I have used your Fills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regu-lating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., Physician of the Marine Hospital.

Dysentery, Diarrhea, Relax, Worms,

From Dr. J. G. Green, of Chicago. Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes bilious dysentery and diurrhaa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

At his Establishment, can always be found a good assort

The following are some of the superior advantages this implement possesses, viz : 1. It sews from 400 to 600 tight stitches

2. Double thread Machines are from the more complicated character of their mechanism invariably managed and threaded with more or less difficulty; not so with RAYMOND'S, a child can manage it in two hours, and it is threaded easier than a com-

mon needle. 3. One of the most valuable features of this Machine, is the smallness and the compactness of its mechanism.

4. It can be attached to a hoard, table or siand, in operating order, and removed in less than half a minute.

5. It greatly economizes the thread, and yet produces a seam, sufficiently strong for any work for which it is intended, a qualification not known to all kinds of Sewing Machines.

6. No human hand is capable of producing a seam so regular and systematic .--The seam is so strong if well done, that the

strongest material will tear before the seam will give way, 7. Among the array of Patent Sewing

Machines, there are none so cheap and dorable as Raymond's Patent, but no Machine is adapted to all kinds of work as experience has proven. There are perhaps none so realy useful, doing such a variety ily circle, and at such a moderate price as RAYMOND'S PATENT.

as he pleases, waves, leaves and flowers, etc., can be represented or imitated.

9. It is particularly adapted to all kinds of stitching-such as gentlemen's shirts, bosoms, ristbands, collars, etc.,-and all kinds of ladies' sewing, including silks, lawns, delaines, calicoes, dusters, etc., excepting for men'sheavy wear, this Machine

is rather too light of construction. 10. But we all admit, that the advantage to health, and principally to the vision or eyesight, induced by the use of Sewing Machines, surpasses infinitely all other ad-

vanlages. 11. This Machine fastens the seam always itself, but if the operator wishes it unfastened or open, there is a way for it too, thus you can have it fastened or not, as you please, which is, sometimes, especially for beginners, a very favorable cir- ed with the choicest liquors. cumstance. If the seam is left unfastened, you can draw it out in three seconds and save the thread.

For sale by the undersigned, at their respective residences, in Bloomsburg, who will put the Machine in operation and give Bloomsburg, April 21, 1858. all necessary instruction.

WITMERS BRIDGE. Lancaster Township, July 30, 1860. Messis, EVANS & WATSON

Gentlemen-The small size No. 1 Salamander Sate which I putchased from your agent, Mr. Adam R. Barr, in Lancaster City, on July 20th, 1858, has been subjected to a very severe test, which it withstood in a most satisfactory manner. This Safe, containing all my books, together with valuable papers belonging to my-elf and some to my neighbors and iriends, and representing a value of over Twenty Thousand Dollars, [\$20,000] was in my Mill which was destroyed on the night of the 27th of July, 1860, and passed through the fiery ordeal unscathed. The Safe was on the second floor, and fell to the basement of the Mill, and was subjected for six hours to an intense heat among the roins, which was greatly increased by the combustio of a large quantity of grain confined with it the brick walls. After the fire the Safe waopened and the books and papers taken oun in a state of perfect preservation, the pas per not even being discolored. This fact was, however, to many, bystanders a better recommendation of your Sules than could be expressed in any other words from me. Yours Respectfully,

SAMUEL RANCK.

# Great Fire--Another Triumph.

Knozville, Tenn., March 13. 1859. Messrs, EVANS & WATSON, Phila'da. Gentlemen - It affords me great pleasure to say to you that the Salamander Safe which I purchased of yon in February, 1858. proved to be what you recommended it-a sure protection from fire. My storehouse, together with several others, was burned to the ground in March last. The Sale jell brough into the celler, and was exposed to intense heat for six or eight hours, and when it was taken from the ruins and opened, all its contents were found to be in a perfect state, the books and the papers not being injured any whatever. I can cheerfully recomm nd your Safes to the comcitizens of Eloomsburg, and the public munity, believing, as I co, that they are as near fire proof as it is possible for any Safe to be made. THOMAS J. POWELL.
