PRICE \$10 EACH. MESSRS. ZUPPINGER & ROBBINS, of Bloomsburg, having purchased the ex-Brazu clusive right of the above valuable Improved Chear Patent Sewing Machine, for the County of Columbia, will be happy to supply their friends with the article for the Wis. at commedation of themselves and families. at ris The following are some of the superior at vantages this implement possesses, viz : 1. It sews from 400 to 600 tight stitches per minule. 2. Double thread Machines are from the

3. One of the most valuable features of this Machine, is the smallness and the compactness of its mechanism.

4. It can be attached to a board, table or sland, in operating order, and removed in ess than half a minute.

5. It greatly economizes the thread, and any work for which it is intended, a qualilication not known to all kinds of Sewing

6. No human hand is capable of producing a seam so regular and systematic .--The seam is so strong if well done, that the strongest material will tear before the seam will give way.

7. Among the array of Patent Sewing fachines, there are none so cheap and orable as Raymond's Patent, but no Ma-

hine is adapted to all kinds of work as qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily xperience has proven. There are perhaps tione so realy useful, doing such a variety treatment of disease of wore for the immediate use of the famly circle, and at such a moderate price as TAYMOND'S PATENT.

8. The operator can shape his seam just is he pleases, waves, leaves and flowers, stc., can be represented or imitated. best we have, I of course value them highly.

9. It is particularly adapted to all kinds of stitching-such as gentlemen's shirts, posoms, ristbands, collars, etc.,-and all tinds of ladies' sewing, including silks, awns, delaines, calicoes, dusters, etc., exrepting for men's heavy wear, this Machine s rather too light of construction.

10. But we all admit, that the advantage o health, and principally to the vision or eyesight, induced by the use of Sewing Machines, surpasses infinitely all other advantages.

11. This Machine fastens the seam always itself, but if the operator wishes it unfastened or open, there is a way for it too, thus you can have it fastened or not. as you please, which is, sometimes, especially for beginners, a very favorable circumstance. If the seam is left unfastened, you can draw it out in three seconds and save the thread.

For sale by the undersigned, at their respective residences, in Bloomsburg, who will put the Machine in operation and give all necessary instruction.

Gentlemen-The small size No. 1 Salamander Sale which I purchased from your agent, Mr. Adam R. Barr, in Lancaster City, on July 20th. 1858, has been subjected to a very severe test, which it withstood in a most satisfactory manner. This Sale, containing all my books, tegether with valuable papers belonging to myself and some to my neighbors and iriends, and representing a value of over Twenty Thousand Dollars, [\$20,000] was in my Mill which was destroyed on the night of the 27th of July, 1860, and passed through the fiery ordeal unscathed The Safe was on the second floor, and fell to the basement of the Mill and was subjected for six hours to an intense heat among the roins, which was greatly increased by the combusti p of a large quantity of grain confined with it the brick walls. After the fire the Safe waopened and the books and papers taken oun in a state of perfect preservation, the pas per not even being discolored. This fact was, however, to many, bysianders a better recommendation of your Safes than RESPECTULLY offers his could be expressed in any other words from me. Yours Respectfully,

If others of our fraternity have found them he citizens of Bloomsburg, and the public as efficacions as I have, they should join me in proclaim-ing it for the benefit of the multitudes who suffer from n general, that he has just received from Philadelphia a lot of NEW HATS & CAPS, that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe con-tionness to originate in the liver, but your Fills affect that for Spring and Summer, of the very latest tyles and fashions, all of which he is prepared to sell cheaper than can be had else where, with the exception of the manufac I find one or two large doses of your Pills, taken at the urers. He has all kinds, styles, sorts and proper time, are excellent promotives of the natural secre-tion when wholly or partially suppressed, and also very sizes, of hats and caps, probably the most effectual to cleanse the stands and experiments. They are so much the best physic we have that I recommend varied assortment ever brought to town .-

Also STRAW GOODS, including the modern styles and fashions. Fr Store on Main Street, nearly opposite he "Old Arcade."

Great Fire--Another Triumph.

Knozville, Tenn., Match 13, 1859. M/ssrs. EVANS & WATSON, Phila'da. Gentiemen -- It affords me great pleasure to say to you that the Salamander Sale which I purchased of you in February, 1850, proved to be what you recommended it-a sure protection from fire. My storehouse, together with several others, was burned to the ground in March last. The Safe fell brough into the celler, and was exposed o intense heat for six or eight hours, and when it was taken from the rains and opened, all its contents were found to be in a perfect state, the books and the papers not being injured any whatever. I can cheer. fully recommend your Safes to the community, believing, as I do, that they are as near fire proof as it is possible for any Sale to be made. THOMAS J. POWELL.
