

STAR OF THE NORTH
BLOOMSBURG, PA.

Wednesday Morning, March 5th, 1862.
Our Members have the thanks of the editor for continued legislative favors.
A DESCO COAL OIL to be had at 12 cents a quart of John K. Gorton, in this place.
See new advertisements in to day's paper.
COL. TATE has our thanks for Railroad favors procured us.
We have two school orders for sale cheap; payable in tuition, one on the Pittsburg Commercial College, the other on Bryant and Stratton's College, Philadelphia. We will stand a nice shave on these orders, any one wishing to purchase them.

NEW COUNTERFEIT.—The following is a description of a new counterfeit one dollar bill on the Bank of Danville, which has lately been put in circulation: Vignette, an eagle poised on frame, man each side, left, and 1 on right, female feeding eagle on left.

A GRAND UNION SUPPER will be given at the American House, in this place on Thursday evening next, in honor of the brilliant victories achieved by the Union forces of the United States. Quite a good time generally is anticipated.

PETITION'S DETECTOR for March contains a full account of all the banks in the country. There are quite a number of descriptions given in the present issue, of counterfeit bills on the different banks throughout the country. All dealers should have this Detector.

PATRIZING your local papers. Do not write out hand bills when it costs but a trifle to have them printed. They look much better and are read more easily, as a general thing. People being perfectly able to pay for bills should patronize the local press. It is the only way to keep up the press.

On Monday evening last we had quite a storm. Rain fell in the early part of the night, and towards morning snow commenced falling and continued until day-break, when the ground was completely covered with snow some three or four inches thick. It again called out the sleighs in our midst.

Gen. LANDER, of whom TOOLEY speaks so favorably, in a communication in to day's Star, has died since the writing of the correspondence. This Division mourns the loss of their General exceedingly. His place will be temporarily filled by Gen. Shields' Lander was a Massachusetts man, and a natural soldier.

The down mail train on the Bloomsburg and Lackawanna R.R. was detained some seven hours by a coal train running off the track on Tuesday morning last. "Nobody hurt" that we heard of. We are informed that on Monday no mail was brought to this place by the Lack. mail train. We will not vouch for the correctness of this information, but if correct what was the matter?

SOME of our up country contemporaries are having a race in adding new subscribers to their subscription lists. They are not getting patrons very fast. We can bet them: We added six to our list in the same space of time they speak of. Town patrons are hard to solicit at present as well as country patrons. The worst, we can do without the papers, "comes most too handy. A great many people are doing "without the papers."

Look Out.—The public are cautioned against a new piece of villainy, by which the operator cuts the coupons off the 500-750 Treasury notes, and passes the notes, as a demand note in trade, thus pocketing \$100, the amount of the coupons for three years, which he may collect half yearly upon presenting them at the Government office. Traders should bear in mind that there are no 500 demand notes, only \$50, \$10, and \$20.

Our friends in the different townships throughout the county will do us a great favor in exerting themselves a little towards raising our subscription list. They can increase our list without any inconvenience to themselves, and thereby be doing a great favor to us. Our list ought to be larger and made in order that we may continue the publication of the Star. Job-work and advertising being rather slack we are compelled to rely very much upon our subscription.

Col. LEVI L. TATE, member from Columbia county, paid his family and friends a visit, at this place, on Saturday last and returned on the following Monday. The Colonel is a faithful representative—always at his post and ready to do his part. He has so far presented to the House several bills, all of which have passed both branches of the Legislature and become a law.

THE Republican says that the acts are not of much importance; but that is only the expressed opinion of a Republican, who feels sure to think that Col. Tate was elected last fall over the candidates on the "Union Ticket."

ANOTHER SOLDIER GONE.—We are called upon to announce the melancholy fact that Joseph Stout, a member of Capt. Silve's Company, and who was brought to his home near Beach Haven, on Saturday last, dangerously ill of Consumption, died on the following Monday. He remains were buried on Tuesday, the 25th inst., by the Berwick "Home Guards," with the honors of war.

The funeral was largely attended. He leaves a wife and a large family of children to mourn his loss. Thus one after another our brave soldiers are passing away.—See Gazette.

THE DAILY PAPERS of Monday evening last announced the death of General Lander. He died at Pew Paw, eastern Virginia. He was a popular officer, having performed noble work in putting down this rebellion. The division of which he was the commander, is composed of capital soldiers—men who are willing and able to fight. By the "Hurley Guards" are attached, was in Lander's Division. The men thought a great deal of their General. Gen. Shields has assumed the command in place of the deceased. Mr. Lander was a Massachusetts man, and a true soldier. He was wounded at the battle of Bull's Bluff, where Col. Baker fell. It has been reported, from the effects of the wound received at this place he died. His death will be deeply lamented by the entire army. Thus another brave man has been cut down in the cause of his country.

NEW U.S. SENATOR FROM INDIANA.—Gov. Morton, of Indiana, has appointed ex-Governor Joseph A. Wright to the seat in the U. S. Senate made vacant by the expulsion of Jesse D. Bright. Gov. Wright was born in Washington county, Pennsylvania, April 17, 1810, and removed with his parents, in 1818, to Indiana, then an almost unbroken wilderness. He is, and always has been, a Democrat in politics. From 1843 to 1849, he held a seat in Congress, and from 1849 to 1857, was Governor of Indiana. His last public service was as Minister to Berlin, under the administration of Mr. Buchanan. His appointment to the Senate by a Republican Governor, is a high tribute to his character and ability as a statesman.

THE papers of Tuesday evening confirm the evacuation of Columbus. The rebels have all left the place to be occupied by better and truer patriots. The army along the Potomac has as yet made no general move. Certain Divisions have changed locations for the better as well as advancing upon rebel soil for the purpose of putting down rebellion. Gen. Bank's Division has made an important move, occupying Harper's Ferry and Charlestown, seceder corners. We may expect some hard work performed along the Potomac in a few days.

THE AMERICAN AGRICULTURIST, published by Orange Judd, New York, has been received at this office. It is a capital number. The farmers of Columbia county should all have it. Price, one dollar, a year in advance.

COAL OIL.—Adresco Coal Oil for sale, 13 cts. per quart, by JOHN K. GORTON, Bloomsburg, Feb. 26, 1862.

THE CONFESIONS AND EXPERIENCE of a SUFFERER. Published as a warning, and for the especial benefit of Young Men and those who suffer with Nervous Debility, Loss of Memory, Premature Decay, &c., &c., by one who has cured himself by simple means, after being put through the use of worthless medicines prescribed by learned Doctors. Single copies may be had of the author, C. A. LAMBERT, Esq., Greenport, Long Island, by enclosing a post-paid addressed envelope. Address CHARLES A. LAMBERT, Esq., Greenport, Long Island, N. Y. January 15, 1862—2m.

NOTICE TO LAND OWNERS.—The undersigned, Treasurer of Columbia County, would give notice to all those owing him their taxes on unseated lands for the years 1860 and 1861, that they must come forward and pay the same, between this and the first of April, otherwise the land will be advertised and sold. A word to the wise is sufficient &c.
JAS. S. MCGINNIS,
Treasurer's Office,
Bloomsburg, Feb. 19, 1862.

FOR SALE OR RENT.—The undersigned offers for sale or rent the following property, to wit: One good sized Brick Dwelling House, out houses, well of water at the door, and one acre of ground, situate on the north east corner of Market and First street; ALSO, a House and Lot on First Street; house 30 x 20, frame; and a frame stable; fruit trees, &c., &c. Terms reasonable. For particulars inquire of GEORGE WEAVER, Bloomsburg, Feb. 19, 1862.

Executor's Notice.—Estate of Christopher Heller, late of Millin township, Col. co., deceased.
LETTERS testamentary on the estate of Christopher Heller, late of Millin township, Columbia county, deceased, have been granted by the Register of Columbia county, to Samuel Heller, residing in Hollenback township, Luzerne county. All persons indebted to said estate are requested to call and make immediate payment, and those having claims or demands will present them properly authenticated for settlement to the undersigned.
SAMUEL HELLER, Executor.
January 8, 1862—6t.

Notice of a Justice of the Peace.—If the few subscriptions remaining unpaid to the fund of the "Iron Guards" are not settled on or before the first day of February I am instructed to commence suit, and costs must follow in each individual case.
J. M. Chamberlin, J. P.

NEW BUSINESS FIRM.—THE undersigned respectfully inform their friends and the public generally, that they have entered into co-partnership, under the name, style and firm of MILLER & EYER in the
Mercantile Business
in the "Old Arcade," in Bloomsburg, Columbia county, where they intend carrying on the business of GENERAL MERCHANDISING, in all its diversified branches and departments, and to which they invite an extension of the public patronage.
S. H. MILLER,
FREDK EYER,
Bloomsburg, May 15, 1861—1f.

EMPLOYMENT! \$75 AGENTS WANTED! We will pay from \$25 to \$75 per month, and all expenses, to active Agents, or give a commission. Particulars sent free. Address: ENIGMA MACHINE COMPANY, R. JAMES, General Agent, Milan, Ohio. Bloomsburg, Aug. 21, 1861.

BLANKS! BLANKS! BLANKS!! DEEDS, SUMMONS, EXECUTIONS, SUBPENAS, of proper & desirable forms, for sale at the office of the "Star of the North."

AYER'S CATHARTIC PILLS.
Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. The pills are simple, and do not injure the system. They stimulate the functions of the bowels, and purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangement of the bowels, and with the heat of the natural action of the system, and with the heat of the fever, the system is in a state of great excitement, and the natural functions are deranged. The pills are simple, and do not injure the system. They stimulate the functions of the bowels, and purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangement of the bowels, and with the heat of the fever, the system is in a state of great excitement, and the natural functions are deranged. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangement of the bowels, and with the heat of the fever, the system is in a state of great excitement, and the natural functions are deranged. The pills are simple, and do not injure the system. They stimulate the functions of the bowels, and purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangement of the bowels, and with the heat of the fever, the system is in a state of great excitement, and the natural functions are deranged. The pills are simple, and do not injure the system. They stimulate the functions of the bowels, and purify the system from the obstructions which make disease.
