RAYMOND'S FAMILY SE WING MACHINE! PATENTED MARCH 9, 1858.

PRICE \$10 EACH. MESSRS. ZUPPINGER & ROBBINS, of

ved Chear Patent Sewing Machine, for of Cabinet Fornitore and Chairs, which he They regulate and invigorate the liver and accommedation of themselves and families, The following are some of the superior ment of and it is therefore of the utmost importance | consists of Cognac and Rochelle, Blackber- | advantages this implement possesses, viz: FASHIONABLE FURNITURE.

1. It sews from 400 to 600 tight stitches which is equal in style and finish to that of per minute. 2. Double thread Machines are from the

more complicated character of their mechanism invariably managed and threaded ges, Walnut and Mahogany. Parlor chairs. with more or less difficulty; not so with RAYMOND'S, a child can manage it in two hours, and it is threaded easier than a common needle.

3. One of the most valuable features of quantity of good double extra BROWN this Machine, is the smallness and the compactness of its mechanism.

4. It can be attached to a board, table or stand, in operating order, and removed in less than half a minnie.

5. It greatly economizes the thread, and yet produces a seam, sufficiently strong for any work for which it is intended, a qualification not known to all kinds of Sewing Machines.

6. No human hand is capable of producing a seam so regular and systematic .----The seam is so strong if well done, that the

strongest material will tear before the seam will give way.

7. Among the array of Patent Sewing Machines, there are none so cheap and durable as Raymond's Patent, but no Ma. SURGEON DENTIST. chine is adapted to all kinds of work as experience has proven. There are perhaps none so realy useful, doing such a variety of wore for the immediate use of the fam- burg and vicinity. He is prepared to attend ily circle, and at such a moderate price as RAYMOND'S PATENT.

8. The operator can shape his seam just | PORCELAIN TEETH, which will be inseras he pleases, waves, leaves and flowers, etc., can be represented or imitated. 9. It is particularly adapted to all kinds

of suitching-such as gentlemen's shirts, bosoms, ristbands, collars, etc.,-and all train for New York. Returning leaves kinds of ladies' sewing, including silks, Scranton on arrival of Train from New lawns, delaines, calicoes, dusters, etc., excepting for men'sheavy wear, this Machine is rather too light of construction.

10. But we all admit, that the advantage to health, and principally to the vision or eyesight, induced by the use of Sewing Machines, surpasses infinitely all other advaniages.

11. This Machine fastens the seam always itself, but if the operator wishes it unfastened or open, there is a way lor it too, thus you can have it fastened or not, as you please, which is, sometimez, especially for beginners, a very favorable circomstance. If the seam is left unfastened, you can draw it out in three seconds and ave the thread.

For sale by the undersigned, at their respective residences, in Bloomsburg who will put the Machine in operation and give

all necessary instruction. HENRY ZUPPINGER.
