

OF THE NORTH

THINGS ABOUT TOWN & COUNTY. BLOOMSBURG, PA. WEDNESDAY MORNING, JULY 27 1864.

How. C. R. Bucklew has our thanks for a copy of Hon. J. B. Henderson's speech, Senator from Missouri, delivered in the United States Senate on the 6th of May last.

The rain on Monday last has revived the corn and potato crop in this section quite considerably. These crops were suffering for the want of rain. The corn promises a good yield. The oats crop looks encouraging. It is good length and well filled.

The Board of examiners commenced their labors at this place on Tuesday, July 19. Sullivan County was examined first. They commenced on Bradford, to day, 21st, and will remain here until August 4, when they adjourn to Troy. But few men are being secured, and these are almost universally substitutes.—Bradford Argus.

Major John Yager, of the 121st Ohio Regiment, spoken of in another column as being killed in an engagement with the Rebels, was father-in-law to Mr. Newton Baxton, of this place. Mr. Yager was a gentleman highly esteemed by all who knew him, and has, with many other good men, felt a victim to this accursed war.

We would ask those who are owing us for one year's subscription or more to the STAR or the NORTH to come forward and pay us, as we are in need of our money. It costs us twice as much to publish our paper now as it did three years ago, while we were living under good old Democratic rule. Paper that we could then buy for 8 and 9 cts. per pound, we are now paying at the rate of 25 cts. for, and getting but two dollars for our paper, the same that we received in good times. Our patrons will be obliged to pay us promptly or else we will be obliged to have more for our paper. We cannot stand it, at two dollars per year and pay when they get ready, as many of them are doing. The Lincoln prices are too high, and there is no prospect of them getting any lower until we turn Old Abe and party out of power. It is not alone with our branch of business that the people have room to find fault, but it is so in every branch of industrial pursuit. The whole country has been grossly misled and humbugged by this Lincoln party; led into all this difficulty, which the Democracy warned the people of time and again previous to Lincoln's election. You were told that "nobody was hurt," that there would be no war, and that the South would not fight, and a thousand other lies, to induce you to support Lincoln, but the time is fast coming when you will have an opportunity to repudiate him at the ballot box.

It has been remarked by good Republican authority that if ABRAHAM LINCOLN needs the negro vote in the army to elect him, it will be counted as in many ballots against the Democratic candidate. This we believe to be the fact, although the less of light of the Abolition press stoutly deny that anything of the kind will be attempted. This will do very well for them to talk about when they have no better argument to warrant them in changing the Constitution. The "Constitution as it is" has answered every emergency heretofore, therefore why change it at this particular time. We are opposed to all carrying or cutting it, when there is no cause to justify it whatever.

"The Millionaire" alludes to "she devil" in Milton who expressed the desire that Washington might be burned by the rebels in order that the "Abolition Administration might be destroyed." We have one of the same sort in Bloomsburg—one who hoped she would give them a good dinner if they burnt "Abe Lincoln's" skeleton with her own hands. Thomas Dunn of the Republic would like

to make his readers believe that he has a perfect dislike for "she devil." He sees a to be watchful to hear what the women have to say, since he acquired the Thomas Dunn notoriety, and should any one chance to speak in the least disrespectful of the old sinner, tyrant, and imbecile, who sits at Washington City writing proclamations for the benefit of the negro, they are sure to get a notice in the Republic composed chiefly of lies and misrepresentation. Now as for "Abe Lincoln's" skeleton, nobody but Post Masters, Office Holders, and Shabby Contractors, care anything about. We have no doubt, that if the women in certain parts of the country, could get hold of Old Abe they would string him up high as is customary for criminals of a capital offence. He is charged with all this blood shed and loss of life, thus causing much lamentation and mourning throughout the whole country, and for what—the simple purpose of setting free the blacks of the South. For this we are made to suffer; more than a million of lives have been sacrificed, and the people taxed with every thing they eat, drink, wear and own, down to the very nails that are driven in their coffins. A large national debt has been heaped upon the people as a national consequence, and the country flooded with a fictitious and rotten currency, which at present is not worth 40 cts. to the dollar! Yet, with some people this state of affairs seems to be all right; but never mind, there is a day of reckoning fast approaching when the free dom of speech and the Press will again be respected. If poor Dunn continues on abusing the defenseless women he will be as notorious after while as Ben Butler!

THE GREAT AMERICAN TEA COMPANY, to do a strictly Tea business, but as we have had some customers living at a distance that have relied upon us to supply them exclusively in this country, it has been instrumental from them to come to New York. The Great Tea Coffee Importers of this country—and our Tea Taster was possessed of information relating to a Coffee that could be furnished at a moderate price, and give universal satisfaction; put up both in the same time and of a reliable, handsome profit—we have been compelled to supply those parties. THIS COFFEE HAS BECOME SO POPULAR with our customers and their sales have increased to such an extent that we have been compelled to make large additions to our machinery, with a view to enable us to supply a few more customers with it. We will therefore send it to those who may order.

It is fast SUPERSADDING ALL OTHER COFFEES. This coffee has been used for more than a century in Paris, and since its introduction into this country, it has been used by some of the leading French Restaurants here. The Parisians are said to be the best judges of coffee; and the great favor in which it is held by them is the best recommendation that can be produced for its fine flavor and healthy effects upon the human system.
