27.00 mit a tatal error if they accept the result of 28 00 the late Presidential election as an indica-7 50 tion from the hand of Destiny to relax their political action until the opening of the next campaign. The future weltare of the republic depends upon the political zeal and activity of the Democracy during the year 1865. The New York News needs no testimony

beyond its plain unalterable record to substantiate its claim to being and having been the most earnest, able and consistent States' Rights Journal in the land, We have no excuses to invent for modifications of sentiment, nor have we to plead "expediency" in palliation of inconsistency. Our path has been straight forward. Our columns are before the people, not a line in them that we would cancel nor sentiment we would recall, not an assertion 5 22 that requires an explanation, not a word 1888 18 that we regret to have uttered, not a principle advocated that we have no' stood by and will stand by to the last. Such has been our past record, so will be our future. We do not, however, ask the Democracy to sustain us in our mission as a reward for the service we have done, but in consideration of the good work that we propose to do. The New York News for 1865 will not merely immate its predece-sors, it will excel them. It shall be not only the truest exponent cl Democratic principle, but the best newspaper in the country. Heretotore it has had no superior as a vebicle of news, hereafter it shall have noequal. In every department of journalism and settie the accounts of the Treasurer we have arranged that the News shall discratic newspaper in the metropolis that has the advantage of publishing a daily issue with the full dispatches of the Associated Press, and therefore its machinery for furnishing a complete record of events is more perfect than that of any of its Demo-

cratic cotemporaries. None have attempted latterly, to compete with it in the publication of Southers intelligence, as our system of exchange with Southern journals baffles the sagacity and enterprise of our tivals.

A glance at the columns of The News devoted to "Southern and Northern personals" will remark the extraordinary success that has allended our enterprise in that direction. We are in daily receipt of levers expressing the thanks of those who, through the medium of the "Personale" in The News, have been enabled to receive tidings from their friends and relatives in the South, and the heart of many an exile and wanderer has been gladdened through that instrumentality by words of affection and hope from those mourned for as dead. The New York News has become so popular in the rural districts that other Metropolitan journals, in publishing their stereotyped boast of "the largest circula-

tion of any weekly journal" are constrained to make an exception in our favor It is a significant circumstance that since the Presidential election and consequent demise of War Democracy, the subscriptions to this paper have been unusually numer-

The Agricultural Department of The New York News renders it an invaluable companion and assistant to the farmer : and its Cattle, Market and Produce Reports are more reliable and full than those of any other journal.

The Daily News will forfeit one thonsand dollars if, in the above Departments,
