S. M. PETTENGILL & Co., 37 Park Row WY York, are duly anthorized to solicit and aceive subscriptions and advertising for the Mar of the North, published at Bloomsburg, Marnes & Co., 335 Broadway, New York, re authorized to receive subscriptions and dvertising for the Stor of the North.

Terms of this Paper : (AFTER JANUARY 4, 1865 ) 1.00 per Year, or 2.40 if paid strictly in advance.

THE LEGISLATURE adjourned on Friday at at 12 M. sine die. The session was port compared with some former sessions. lasted but eighty-one days; although ore wore a large amount of legislation one ; principally of a local character here seems to be entirely too much local gistation done, in this State, especially of te years. To have general laws, we think, could be better, and save a great deal of nnecessary legislation. Private business as so completely clogged up our Legislaire for the past two or three years that puo. e legislation has been greatly neglected nd almost excluded from the Legislative Halls. Look at any other State, New York f you please, and you will find that the reat majority of the laws there enacted are nade general. This should be the policy proved in this State.

Four ygame we have been in war with he South and all to no good results. have been prosecuting a war that should pever have been begun ; a war that was nnecessarily brough: upon the country by the two extremes, the one in the North and the other in the South, namely, the Aboliionists and the hot-headed Secessionists. The Abolition party intermeddled with, and agitated the question of slavery, until the ore excited and ambitious ones of the South became maddened and determined to orce a separation. Now both partieses, the whole country-are suffering the fects of this terrible experiment. Neither e South or North express any willingness present to cease hostilities and try to ing about a compromise, and thus save further loss of blood and treasure. The beauided of the present party in power at the North is plain to be seen to be nothing more nor less than the infernal negro. For that inferior specimen of humanity, (if we may be pardened for saying humanity,) the A balition party are willing to sucrifice millions of lives and financially rain the coun try. They have piled a debt upon the country that cannot be paid and it is daily increasing to a more frightful amount Any man who ergues or bluntly asserts that we can pay off our national debt, should the war stop to day, without bankrupting the whole country, simply talks the talk of a fool and knuve. The sooner ABRAHAM LINCOLN bring+ this war to a close the better "for all concerned," and it is not particular how he does it only so that we get a speedy peace. Asour Quotas .- A reply to Governor Curtin's letter upon the subject of computing quotes has been sent to the President by Attorney General Speed, in which the Governor's suggestions are refused and his arguments attempted to be overthrown .-The document is very long and very obscare. The period of service, it is contended, is the proper way, under the law, of computing quotas, and not that of estimating the number of men in service For instance, il Pennsylvania has fifty thousand one year's men at the time the quotas are assigned for a draft, and Massachusetts has fifty thousand Belgians and negroes in for three years, Pennsylvania will get credit for only fifty thousand, while Massachusetts will be credited with one hundred and filty thousand, by mutiplying her men by the terms of service. It is easy, under these circumstances, to see how our State has been figured into furnishing forty nine thouan and odd hundreds, against the eight thoseand of Massachusetts. THE LADY'S FRIEND .- " Grandmother's Story" is the significant title of the handsome and expressive steel engraving of the April number of the Lady's Friend. The explains the significance of the engraving Then we have the usual richly colored dou-Me steel Fashion . Plate. Then a variety of other engravings of the fashions, work-table, Sec. Mr. President-I presume that when the usertion on concurrence or non-concurrence is put, no one will be permitted to give the reasons for his vote : 1 therefore desire now to state mine. When I am called upon to vote I shall say no. My reasons are these : 1. From the very hour that Abraham Lircoln and his thieving horde of Abolition disunionists took possession of the Government, four years ago, the men who did not agree with them in their insane and treas

Squads of armed soldiers have been stationed in various quiet and peace able communities, for no purpose whatever except to assist "loyal thieves" to oppress their fellow men. These things have been submitted to for four years, and perhaps will have to be submitted to for four
