Principles of 1776 and '87. C. CHAUNCEY BURR, Epiton.

This Magazine will continue to defend the principles of Government which guided our fathers in the foundation of the Republic. The spirit and doctrine of the two first volumes will be fully maintained in the third volume. We have no compromises to make with error-no parley with despotism. Democracy will be treated, not as a varying policy of canning office-seekers and speil-hunters, but rather as an abiding principle of political economy and of popular liberty. All supporters of this revolutionizing, Aboltton war, will be held as the enemies of the Democracy. We shall acknowledge no organization to be Democratic which does not honestly enun ciate and support the principles of the Kentneky and Virginia Resolutions of 1798 and the Dred Scott Decision of the Supreme Court, the one assserting State Sovereignly and the other White supremacy. To atmosphere has vanished for ever. War preserve these bonorable doctrines, the Democratic party was organized by the very lounders of the Federal Government, and it remained true to them down to the fatal and dishonoring departure, at the commencement of this war. The Old Guard is an organ of Democracy as it was, pelore this cowardly surrender of principle and as it must be again, before it can redeem our country from the rule of faction and despotism. This year it has been enlarged to double its former size—that is, to forty eight pages-for the purpose of making it in all respects, as to style and matter a popular Literary and Family Magazine.
