

By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States Securities, offers to the public the third series of Treasury Notes, bearing seven and three-tenths per cent. interest per annum, known as the

SEVEN-THIRTY LOAN These notes are issued under date of July 15, 1865, and are payable three years from that date in currency, or are convertible at the option of the holder into

One of the oldest and most reliable remedies in the world for Coughs, Colds, Whooping Cough, Bronchitis, Diffculty of Breathing, Asthma, Hoarseness, Sore Throat, Croup, and every Affection of the THROAT, LUNGS and CHEST, including even CONSUMPTION.

The Fertilizers prepared by the Agricultural Chemical Co. (a Company chartered by the Legislature of Pennsylvania with a capital of \$250,000.) have been proved in practice to be the cheapest, most profitable and best, for the Farmer, Gardener and Fruit grower, of all concentrated manures now offered in any market.

Read the article on our first page entitled the Balfour Oil Company. The new street sprinkler is in operation. It works well.

U. S. 5-20 Six per cent. GOLD-BEARING BONDS These Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, from State, County, and Municipal taxation, which adds from one to three per cent. per annum to their value according to the rate levied upon other property.

Testimony of Mr. JAMES GRIMES, a gentleman highly esteemed in Columbia Co., Pa., and one whose statement can be relied upon.

This Fertilizer is composed of night soil and the fertilizing agents of urine, combined and mechanically mixed with other valuable fertilizing agents and absorbents.

ATTENTION is directed to E. J. Thornton's card in another column of the STAR. The receipts of the Festival held in the Lutheran Church, at this place, last week, amounted to over four hundred dollars.

The interest at 7.30 per cent. amounts to One cent per day on a \$50 note. Two cents " " " \$100 " Ten " " " \$500 " 20 " " " \$1000 " \$1 " " " \$5000 "

It is very valuable fertilizer for field crops generally, and especially for potatoes and garden purposes. Its excellent qualities, strength and cheapness, have made it very popular with all who have used it.

Where were exhibited instruments from the best makers of London, Paris, Germany, Philadelphia, Baltimore, Boston and New York; and also at the American Institute for five successive years, the gold and silver medals from both of which can be seen at our ware-room.

Don't FORGET the Festival in the German Reformed Church, on Thursday, Friday and Saturday evenings, of this week. We are informed that the Pennsylvania Canal will be opened for navigation on the 20th inst. Boating ought to be good the balance of the season.

Notes of all denominations named will be promptly furnished upon receipt of subscriptions. The Notes of this Third Series are precisely similar in form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent., instead 7.30-tenths in currency.

It is composed of such elements as make it adapted to the growth of all kinds of crops in all kinds of soil. The formula or method of combining its constituent fertilizing ingredients has received the highest approval of eminent chemists and scientific agriculturists.

TERMS CASH. All Orders of a Ton or more, will be delivered at the Railroad Stations and the Wharves of Shipment, free of cartage. Cartage will be charged on all orders of 6 barrels or less.

ROBBERIES.—Our country exchanges are filled with reports of robberies and thefts, some of which are of the most daring character. People are not safe at any hour of the day or night. We invited a few days ago to the necessity of having all doors and windows properly fastened. Heads of families should see to this.

The delivery of the notes of this third series of the Seven-thirties will commence on the 1st of June, and will be made promptly and continue thereafter at date. The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

PHOSPHATE OF LIME. The Agricultural Chemical Company manufacture a Phosphate of Lime in accordance with a new and valuable formula by which a very superior article is produced, and at a price that is not only equal to, but lower than that of any other article of the kind.

It took the first premium at fifty-seven State and County Fairs in 1853, and is without any exception, the best Wringer ever made. Patented in the United States, England, Canada, and Australia. Agents wanted in every town, and in all parts of the world.

FESTIVAL.—The ladies connected with the German Reformed Church of this place, purpose holding a Strawberry and Ice Cream Festival in the basement of their Church, on Thursday, Friday, and Saturday evenings of this week. The proceeds to be applied for the benefit of the Church. Success to the enterprise.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three tenths per cent. in currency. This is

THE ONLY LOAN IN MARKET Now offered by the Government, and its superior advantages make it the Great Popular Loan of the People.

What Everybody Knows, viz: That iron well galvanized will not rust. That a simple machine is better than a complicated one. That a Wringer should be self-adjusting, durable, and efficient.

THE RADICALS have either a very exalted opinion of the black race and a poor one of their own, or a contemptible one of the right of suffrage. They want the negroes to constitute the master race down South and do all the voting. P. John had better go there. He might get an office.

BLACK FRED DOUGLASS said in a speech delivered at the Cooper Institute in New York, a few days since, that "Abraham Lincoln was emphatically the black man's President." Dr. John in his last issue, speaking of the deceased President, called him "our late martyred Abraham Lincoln." It Douglas is correct, Pullen John must be a black man. We are inclined to the belief that Lincoln was the champion of the negro. He certainly paid more attention to the black than did the white people.

THE only Democratic Daily Morning Journal published in Philadelphia.

The publishers of the Philadelphia AGE invite the earnest attention of business men, thinking men, literary men, and who are interested in the various occupations and pursuits of the DAY, to read and WEEKLY editors of their Journal.

The Philadelphia AGE, which advocates the principles and policy of the democratic party, is issued every morning, (Sundays excepted), and contains the latest intelligence from all parts of the world; with carefully prepared articles on Government, Politics, Trade, Finance, and all the current questions and affairs of the day.

TERMS.—Ten Dollars per annum, for a single copy. Five Dollars, for six months. Two Dollars and Fifty cents for three months. And for any less time at the rate of One Dollar per month.

THE WEEKLY AGE is mailed in season to reach all parts of Pennsylvania, New Jersey, Delaware, and Maryland, on or before Saturday of each week.

TO ADVERTISERS.—The circulation of the Philadelphia AGE, which is steadily and rapidly growing, makes it at least a valuable medium for advertising as an official, commercial and business newspaper in Philadelphia, and the fact that it reaches a large class of conservative readers scattered over a vast extent of country, who do not take any other Philadelphia paper, commends it, to an extraordinary degree as a means of communicating with the public not possessed by any other Journal published in this city.

THE AGE is now established on a sure and permanent foundation. The publishers could easily fill their columns with the sought and most liberal commutation of the press throughout the country; but they prefer that it should stand altogether upon claims to public confidence well known and established. It will be, as here before, the supporter of the National, Conservative, Democratic, Union Principles in every form, and devoted to the maintenance of Good Government, Law, and Order. The revival of all the business relations of the country, consequent upon the suppression of the rebellion and the restoration of peace, will enable the publishers to make a number of improvements in the various departments of this Journal and thereby, respectfully solicit the support of all who wish to secure one of the best Commercial, Literary, Business and Family newspapers in the country.
