Principles of 1776 and '87. - C. CHAUNCEY BURR, EDITOR.

This Masazine will continue to defend e principles of Government which sided our fathers in the foundation of the blic. The spirit and doctrine of the two first volumes will be fully maintained in the third volume. We have no compromises to make with error-no parley with tiem. Democracy will be treated. not as a varying policy of cunning office-seekers and speil honters, but rather as an abiding principle of political economy and of popular liberty. All supporters of this revolutionizing, Abolition war, will be held se the enemies of the Democracy. We shall acknowledge no organization to be Democratic which dose not honestly enun ciale and support the principles of the Kentucky and Virginia Resolutions of 1798 and the Dred Scott Decision of the Suoreme Court, the one assserting State Sov my and the other White supremacy. To preserve these honorable doctrines, the very lounders of the Federal Government. and it remained true to them down to the fatal and dishonoring departure, at the Guard is an organ of Democracy as it was, deem our country from the rule of faction | the Democratic faith. and despotism. TO ALL BECILLATER IRON IN THE BLOOD.

It is well known to the medical profession that Iron is the vital Principle or Life Element of the blood. This is derived chiefly from the food we eat; but if the foed is not properly digested, or if, from any cause whatever, the necessary quantity of iron is not taken into the circulation or becomes reduced, the whole system sullers. The bad blood will irritate the hear! will clog up the lungs, will stopely the brain, will obstruct the liver, and will send its disease producing elements to all parof the system, and every one will suffer in whatever oigan may be predisposed to disease. The great value of IRON AS A MEDICINE

Is well known and acknowledged by all medical men. The difficulty has been to obtain such a preparation of it as will enter the circulation and assimilate at once with the blood. This point, says Dr Hayes, Massachusetts State Chemist, has been attained in the Peruvian Syrup, by combina, tion in a way before unknown.
